Orders have come down from the ship to move the Chironians out and seal off the whole place. Major Thorp's there with part of A company, and he's refusing to take SD orders. We've been ordered to send two platoons. Sirocco wants Hanlon to go with them, and you to secure the block in case there's any shooting and it spreads here." .Leilani smiled wanly. "Sucky. "Opposed," Geneva responded with firm resolve..Leilani said, "She just calls him Klunk because she claims that was the noise he made if you rapped him." "It was one of our people," the major said.." Noah peeled back the tape, opened the flap, and half extracted a wad." "Exactly what I was thinking," Wellesley commented, nodding. "And you have to remember that our own people are starting to get restless up here now that their fears have receded. After twenty years, we can't keep them cooped up in the Mayflower II much longer without any obvious reason. They've got accommodations prepared by the space-base at Franklin. I'm inclined to say we should start moving the first batches down. For all we know, the Chironian government may have gone into hiding because they're nervous about our intentions. It might be a good way of enticing them to come out again." .that hope, that love and goodness?it's still inside you. No one can take the gifts God gave you. "That's a nice thought, ma'am, but we're under orders and have to stay here. We appreciate it though." And then he frowned. It was happening again. She knew damn well they had to stay there..she was caught in a trap nobody could pry open for her, that to have any hope of escape, she must chew." She didn't twitch or even so much as blink in response.." "So?do you?" Micky asked..A hand was trying to shake Colman out of the grave that he had been lying in for a thousand years. "Sarge, wake up," the Voice of Judgment boomed from above, sounding uncannily like Stanislaw. "Hanlon wants you over at the main gate." .Dark with clotted blood, the holes no longer oozed..care. Already separated from Luki forever, she would be willing to risk a foster home, but this wouldn't.Celia was unable to reply. The answer lay behind a trapdoor in her mind that she had refused to open. She made a quick, shaking movement with her head and asked instead, "Why are you making it sound like a strange thing to want to do?" "The best thing would be to blow that door with a salvo of AP missiles before we move, and hope they jam it open," he murmured to Swyley, who was lying next to him, examining the far bulkhead through an intensifier. "Then maybe drench the lock with incendiary and go in under smoke." .this sure is." "His best performance ever. Everything okay out there?" .must not allow himself to be rattled by the trucker's latest observation..Lechat stared at the Director's seat next to him, and while he was still turning his head perplexedly from one side to the other, the first approving murmurs and ripples of applause began coming from among the members an one by one they realized what it meant. The applause rose to an ovation as at last Lechat, looking a little awkward but with a broad smile breaking out across his face, stood up again and moved to stand before the Mission Director's seat, which under the emergency proviso had become his automatically. Wellesley had wanted it so, even if Lechat's term of office would be measured only in minutes.." "You couldn't afford one." "Very wise, Sergeant. But then, some of them can be very discreet. Theoretically speaking, that would put them in a rather different category, don't you think?" .Micky knew from experience that this was not reliably the case. He teeters but keeps his balance and puts his shaggy burden down on the floor of the..So that was it! Merrick's blue-eyed boy had let him down, and he needed a replacement. Merrick didn't give a damn about Bernard's qualities as an engineer; he was interested only in extricating himself from what was no 'doubt an embarrassing predicament, As Bernard thought back over the deviousness that he had listened to since he sat down, his memory of Kath's frankness and openness, even to a stranger, came back like a breath of fresh air. "You can stuff it," he heard himself say even before he realized that he was speaking.. "Are you telling us we're prisoners?" the Chironian man asked..Padawski and his followers had somehow shown up on the far side of the Medichironian, which was only sparsely settled, and seemed to he settling in as bandits in the hills. What a bandit would hope to achieve on a world like Chiron was hard to see, but revenge against Chironians seemed to have a lot to do with it; two isolated homes had been invaded, ransacked, and looted, in the course of which five Chironians and one soldier had been killed, Three Chironians, including a fifteen-year-old girl, had been raped. The Army was scouring the area from the air and with search parties on foot, but so far without success ~the renegades were well trained in the arts of concealment. Satellites were of limited use if they didn't know exactly where to look, especially where rough terrain was involved..CHAPTER EIGHT. "I'm always working on a screenplay in my head. All her life, until now, Geneva Davis had always found exactly the right..Stanislau slipped the compad into his pocket. "You don't wanna know about that," he said. "It's not very respectable."..The house around her was another part of it. She no longer saw it as the dream it had been on the day they moved down from the Mayflower If, but instead as another part of the same conspiracy-a cheap bribe to seduce her into selling her soul in the same way as a university research post and the lure of a free home had seduced Eve and Jerry. Chiron didn't want to let her be. It wanted her to be like it. Then Marcia Quarrey turned from the window, where she had been staring down over the Columbia District. "I thought you said earlier that there was a provision for ensuring the continuity of extraordinary powers where security considerations require it," she said, frowning..Bernard was rubbing his lip slowly as he thought about it. He caught Lechat's eye and appeared worried. "The message would have to go out live..from there," he said slowly..Colman nodded. "Gone to the storeroom with Hanlon and Lechat. Everything was quiet upstairs when we left". "I workout."..remains optimistic about his chances of escape. The sight of his canine companion, happily drinking..As a temporary barracks for the military force based on the surface, the Chironians had made available a recently completed complex of buildings designed as a school, which was intended for occupation later as Canaveral City expanded. It comprised a main administrative and social block, which the Army was using mainly for administrative and social purposes; an assortment of teaching and residential blocks, most of which were being used for billeting the troops, with part of one serving as a Detention Wing; a gymnasium and sports center which had become the stores, armory, and motor pool; and a communal dining hall which was left unaltered..pale stone and soil as the SUVs ascend the slope..as decrepit as Micky's bile-green lounge. "This lawn furniture sucks."..Before Bernard could reply. Jay came back in carrying the landscape painting he had brought back from Franklin after his first expedition out exploring. He propped it on one end of the table and held it up so that everyone could see it. "Do you notice anything unusual about that?" he asked them..silence left by Micky's hesitation: "As long back as I can remember, old Preston has touched me only..Curiously, here in the gloom with her nose to the crack in the door, Old Yeller still wags her tail. Sirocco ordered most of the D Company personnel to secure the block against intruders and cordoned off the routes past it toward the outside. He sent Colman with a mixed detachment from Second and Third platoons to aid in whatever

way they saw fit. They quickly encountered a squad of SD's who took them in tow to the west gate, a small side entrance to the campus, which was where the action was supposed to be. Colman wanted to post sentries around the motor pool, where several cargo aircraft brought down from the Mayflower II were parked, but he was outranked and told that another SD unit was securing that. "What answer?" he asked, recalling the Circle of Friends thug with the. "By my authority." Matthew Sterm rose from his seat and came round onto the floor to face the assembly defiantly. "This prattling has continued for too long. I have no eloquent speeches to make. Enough time has been wasted on such futilities already. You will all proceed now, under escort, to quarters that have been allocated and remain there until further notice. We have business to attend to." He nodded at Stormbel, who motioned at the guards. "I would like Admiral Slessor's to remain behind to discuss matters concerning the continued well-being of the ship."..Wellesley was uneasy about giving his assent but found himself in a difficult position. After backing down and conceding the state-of-emergency issue, Kalens came across as the voice of reasonable compromise, which Wellesley realized belatedly was probably exactly what Kalens had intended, Wellesley had no effective answer to a remark of Kalens's that if something weren't done about the desertions, Wellesley could well end his term of office with the dubious distinction of presiding over an empty ship; the desertions had been as much a thorn in Wellesley's side as anybody's..He had a bone to chew with Fate, and he gnawed at it even though he knew that of the two of them, herself, and honest enough to admit to the shame, though dishonest enough to try to avoid facing up to."Like what?"
