"If you need to read the Mountain," his teacher had told him, "go to the Dark Pond at the top of." I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now. house, which, like most witches' houses, stood somewhat apart from the village. Early took a step backward and then, smiling, "Was that the Archmage? Truly?" "He fooled you, young woman. Made a fool of you by trying to make fools of us." Ivory departed. He did not return for two days. On the third day he rode experimentally past Old Iria, and she came striding down to meet him. "I'm sorry, Ivory," she said, looking up at him with her smoky orange eyes. "I don't know what came over me the other day. I was angry. But not at you. He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. She walked up the street and stood before the door. She looked back then, but he was gone. "The Cavuta?" she corrected me. A millennium and a half ago or more, the runes of Hardic were developed so as to permit narrative writing. From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice. "Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and while the dispute was at its brief height, Rose put her fife in her pocket and slipped away. have a wizard in their service, a genuine wizard. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading about dragons. You know there's been talk of them flying over the Inmost Sea as far east as Gont. That was no doubt Kalessin taking Ged home, multiplied by sailors making a good story better. But a boy swore to me that his whole village had seen dragons flying, this spring, west of Mount Onn. And so I was reading old books, to learn when they ceased to come east of Pendor. And in one I came on your story, or something like it. That men and dragons were all one kind, but they quarrelled.
