I'm on the concert tour and work their stim board, me and my console over there on the side of the stage. It isn't that much different in principle from playing one of the instruments in the backup band, though it's a hetL of a lot more complex than even Nagami's synthesizer. It all sounds simple enough: my console is the critical link between performer and audience. Just one glorified feedback transceiver: pick up the empathic load from Jain, pipe it into the audience, they react and add their own load, and I feed it all back to the star. And then around again as I use the sixty stim tracks, each with separate controls to balance and augment and intensify. It can get pretty hairy, which is why not just anyone can do the job. It helps that I seem to have a natural resistance to the sideband stopover radiation from the empathic transmissions. "Ever think of teaching?" said the school voc counselor. "No," I said. In the audience was my good friend of three decades? the well-known science fiction writer, boo vivant, and wit, Randall Garrett Out of the corner of my eye, I noticed a piece of paper placed on the podium as I talked about cloning. I glanced at the paper without quite halting my speech (not easy, but it can be done, given the experience of three decades of public speaking) and saw two things at once. First, it was one of Randall's superlative pieces of satiric verse, nowhere else will you find such a free exercise of idiosyncrasies in home design. "These are what I need," said Amos, putting on the clothes quickly, for he was beginning to get chilly standing in his underwear. Then he climbed over the edge of the boat into the swamp. He was so bright and colorful that nobody saw the figure he dirty rags run quickly behind them to the far end of the ship and also climb over into the swamp. Had the figure been Amos? it was wearing Amos' rags? the red hair might have attracted some attention, but Jack's hair, for all his colorful costume, was a very ordinary brown. The Isaac Asimov clones, once they grow up, simply won't live in the same social environment I did, won't be subjected to the same pressures, won't have the same opportunities. What's more, when I wrote, I just wrote? no one expected anything particular from me. When my clones write, their products will always be compared to the Grand Original and that would discourage and wipe out anyone. black. "All right.
