Maybe that is why the people there now call their village not Woodedge, as it."I doubt the Doorkeeper would defy it lightly," said one of them Irian had not noticed till he spoke, though he was a big man, white-haired, aw-boned, and crag-faced. Unlike the others, he looked at her as he spoke. "I am Kurremkarmerruk," he said to her. "As the Master Namer here, I make free with names, my own included. Who named you, Irian?". "In the west," he said..He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..There was a long pause..used to be, but Otterhide..The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and..Wide steps ran down, silvery like a mute waterfall. She went straight up to the doorstep, bent over the heap, and laid her hand on it. Everybody gasped and muttered, "Avert! Avert!" except Tawny's youngest daughter, who mistook the signs and piped up, "Speed the work!".The boy's drop-jawed stare irritated Hemlock, though he knew it shouldn't. Wizards are used to overweening confidence in the young of their kind. They expect modesty to come later, if at all. "I said Roke," Hemlock said in a tone that said he was unused to having to repeat himself. And then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a wizard to teach you what you need. Of course you need what I can teach you. You need the names. The art begins and ends in naming. But that's not your gift. You have a poor memory for words. You must train it diligently. However, it's clear that you do have capacities, and that they need cultivation and discipline, which another man can give you better than I can." So does modesty breed modesty, sometimes, even in unlikely places. "If you were to go to Roke, I'd send a letter with you drawing you to the particular attention of the Master Summoner..".."Father does. He saw some of the stuff we were practicing. He was there..Under Roke's steadily growing influence, wizardry was shaped into a coherent body of knowledge, its use increasingly controlled by moral and political purpose. Wizards trained at the school went to other islands of the Archipelago to work against warlords, pirates, and feuding nobles, preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and protecting individuals, farms, towns, cities, and shipping, until social order was re-established. In the early years they were sent to enforce peace; increasingly they were called on to maintain it. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turre. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks. grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. I guess he had this in mind all along. But what if I go down there and I'm not any better at being a wizard than I am at bookkeeping? Why can't I do what I know I can do?".These legends are best preserved in Hur-at-Hur, the easternmost of the Kargad Lands, where dragons have degenerated into animals without high intelligence. Yet it is in Hur-at-Hur that people keep the most vivid conviction of the original kinship of human and dragon kind. And with these tales of ancient times come stories of recent days about dragons who take human form, humans who take dragon form, beings who are in fact both human and dragon..He did not forgive his son. It would have made a happy ending, but he would not have it. To leave so, without a word, on his nameday night, to go off with the witch-girl, leaving all the honest work undone, to be a vagrant musician, a harper twanging and singing and grinning for pennies -- there was nothing but shame and pain and anger in it for Golden.
