Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (89 of 111) [2/5/2004 12:33:31 AM].Gift was in the dairy, having finished the evening milking. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater..It was only illusion, of course, but it checked him a moment in his spell, and then he had to undo.understand that?" "No," Diamond said..his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a.The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. And then, by his grave, his eyes opened. He moved, and spoke. He said, "I have summoned myself again into life, to do what must be done..". "If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature at Dulse's request that the wizard had to laugh.. "He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him..". "Just enough to keep going on, eh?". "Are you there, my dear?" said the traveler. He spoke in the Old Speech, the Language of the Making. "Come along, then, Ulla," he said, and the heifer came a step or two towards him, towards her name, while he walked to meet her. He made out the big head more by touch than sight, stroking the silken dip between her eyes, scratching her forehead at the roots of the nubbin horns. "Beautiful, you are beautiful," he told her, breathing her grassy breath, leaning against her large warmth. "Will you lead me, dear Ulla? Will you lead me where I need to go?".After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings, In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the

Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor. "Are. . . are we still in the station?" "Dragons have been seen flying above the Inmost Sea. The Archmage did go into the labyrinth among the Hoary Men and come back with the Ring of Peace. He did go into death with the young king, and defeat the spider mage, and come back. These legends are best preserved in Hur-at-Hur, the easternmost of the Kargad Lands, where dragons have degenerated into animals without high intelligence.
