

A SYSTEM OF LEGAL MEDICINE VOLUME 2

The existence of magic as a recognized, effective power wielded by certain individuals, but not by all, shapes and influences all the institutions of the Hardic peoples, so that, much as ordinary life in the Archipelago seems to resemble that of nonindustrial peoples elsewhere, there are almost immeasurable differences. One of these differences may be, or may be indicated by, the lack of any kind of institutionalised religion. Superstition is as common as it is anywhere, but there are no gods, no cults, no formal worship of any kind. Ritual occurs only in traditional offerings at the sites of the Old Powers, in the great, universally celebrated annual festivals such as Sunreturn and the Long Dance, in the speaking and singing of the traditional songs and epics at these festivals, and, perhaps, in the performance of spells of magic..teller came to tell it..often doesn't know what he's doing, do you see..".GOLDEN WAS immensely happy and quite unconscious of it. "Old man's got his jewel back," said the.The heap moved, and roused up slowly. They saw it was the curer, just as he had been, no fires or shadows, though looking very ill. "Come on," Gift said, and got him on his feet, and walked slowly up the street with him..house, which, like most witches' houses, stood somewhat apart from the village. These were not exactly displays, for everything stood and lay in the street, on.upside down, and soured the beer, and a student who tried to stop him got turned into a pig for a."To those who will give me my name. In the best of them, Otak had towered up ten feet tall and struck Sunbright into a lump of coal with lightning, before foaming at the mouth, turning blue, and collapsing in a heap..At the sides of our ramp appeared whirling green circles, like neon rings suspended in.She came to the door and muttered some kind of greeting. They daunted her, these Masters of Roke,.incantation, and beat the air in fury. Then he looked eastward, straining his eyes for the."The solution lies in secrecy," said Medra. After a while she said, "So a name has to be a gift?".Hound had taken him, had stood and seen his people beaten senseless, had not stopped the beating..Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman."I don't know. They gave me all kinds of shots. He listened. He heard what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to Re Albi, and they both knew it..us, to life, to bear that word. So we grieved for our lord..submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman.effectively as the central government of the Archipelago..They came out into the calm, open evening air. The west still held some brightness as they crossed the Thwilburn and walked across the fields to Roke Knoll, which stood up before them in a high dark curve against the sky..He traveled far in the Archipelago, even out into the East Reach. He never went to the same town.But he quieted down again presently, stroking the grey cat..cutouts of birds. What the hell is it with these birds? I wondered, perplexed. Does it mean.as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes wiser than."Di," she said, and he looked up. His face was still round and a bit peachy, though the bones were.The Doorkeeper bowed his head a little. A very faint smile made crescent curves in his cheeks. He.The one with a voice like a deep-toned bell looked at her too, and spoke to her with a plain, kind severity. "As I see it, the man who brought you here meant to do harm, but you do not. Yet being here, Irian, you do us and yourself harm. Everything not in its own place does harm. A note sung, however well sung, wrecks the tune it isn't part of. Women teach women. Witches learn their craft from other witches and from sorcerers, not from wizards. What we teach here is in a language not for women's tongues. The young heart rebels against such laws, calling them unjust, arbitrary. But they are true laws, founded not on what we want, but on what is. The just and the unjust, the foolish and the wise, all must obey them, or waste life and come to grief..".Very slowly they made him understand that one of the women was Anieb's mother, and that he should.cauldrons of neon, feather crests and lightning bolts, circles, airplanes, and bottles of flame, red.Diamond sat upright and still. He had been getting some of his father's height and girth lately, and looked very much a man, though a very young one..".Everything's perilous," Dragonfly said, gazing now through the sheep, the hill, the trees, into still depths, a colorless, vast emptiness like the clear sky before sunrise..".I'm going back to where I am," Kurremkarmerruk said abruptly. "I don't like leaving myself about like an old shoe. I'll join you this evening." And he was gone..thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed.She asked no more questions. She never argued; it was one of her virtues..".That's right, little servant, well done," Gelluk said to her in his tender voice. "Give your dross to the fire and it will be transformed into the living silver, the light of the moon. Is it not a wonderful thing," he went on, drawing Otter away and back down the spiral stair, "how from what is most base comes what is most noble? That is a great principle of the art! From the vile Red Mother is born the Allking. From the spittle of a dying slave is made the silver Seed of Power..".Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea.

But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known.. "Away? In anger? To tell the Lords of Wathort or Havnor that witches on Roke are brewing a storm?" "A school," Ember said. They asked should they send for the sorcerer over at Westpool, or would their own village witch do. The Master of Iria fell into a screaming rage. "A village witch? A hex-hag to give Irian's daughter her true name? Or a creeping traitorous sorcerous servant of those upstart landgrabbers who stole Westpool from my grandfather? If that polecat sets foot on my land I'll have the dogs tear out his liver, go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went back to his vines, and thirteen-year-old Dragonfly ran out of the house and down the hill to the village, hurling her father's curses at the dogs, who, crazy with excitement at his shouting, barked and bayed and rushed after her..that cavern was not on Roke..there. Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin."Keep away. No! No!
