From time to time in the years since then, Dulse remembered how he hadn't lost his temper when Silence asked about keeping goats; and each time the memory gave him a quiet satisfaction, like that of finishing the last bite of a perfectly ripe pear..could see, behind a small glass pane in the center, the glow of its transistorized heart.."The Patterner sent for us," said the Master Herbal. He barely escaped with his life. The Enemy pursued him from the east to the west of Enlad in a trail of ruin. On the Plains of Enlad, meeting the companions who had stayed loyal to him, most of them sailors who had brought their ships to Enlad to aid him, Morred turned and gave battle. The Enemy would not confront him directly, but sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up the bodies of his men till they "living, seemed the black thirst-dead of the desert." Thank you," she said. "I was cold.."Dulse considered himself a wordy, impatient man with a short temper. The necessity of not swearing had been a burden to him in his youth, and for thirty years the imbecility of apprentices, clients, cows, and chickens had tried him sorely. Apprentices and clients were afraid of his tongue, though cows and chickens paid no attention to his outbursts. He had never been angry at Silence before. There was a very long pause..file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (10 of 111) [2/5/2004 12:33:30 AM]..Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to

practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea. Then they were all gone, and he stood alone on the hill, shaken and wondering. "I have seen the." "Why so, Tern?" "Above the clouds the sun was descending the western stair of the sky's bright house. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was. The spoken name of a True Rune may be the word it signifies in the Old Speech, or it may be one of the connotations of the rune translated into Hardic. The names of commonly used runes such as PIRR (used to protect from fire, wind, and madness), SIFL ("speed well"), SIMN ("work well") are used without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such well-known, often used names with caution, since they are in fact words in the Old Speech, and may influence events in unintended or unexpected ways. She was used to solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and put food on the table. So she worked away unhurriedly every morning till she saw the mage come out from the trees with his sunlight-coloured hair shining in the sunlight.
