Evidently he wasn't getting the answers he wanted. "His Army record isn't exactly the best one could wish for, you know. Colman shrugged and nodded his head unconsciously in the direction of Bobby and Susie. "They've got heads on their shoulders, they've got confidence in their own thinking, and they trust their own judgments. That's good." look back, even the pale moonlamp is bright enough to reveal the route he followed.. An alligator of tread strips away from one wheel and lashes across the pavement, snapping like a little.. "Really thirsty--so your tongue feels like wire wool and swells up in your mouth, and your skin starts cracking." "I, er. . . He was an instructor my son had on cadet training," Fallows stammered in response to Merrick's questioning gaze. "I met him at the end-of-course parade.. talked to him a bit. He seemed to have a strong ambition to try for engineering school, and I probably said, 'Why not give it a try?,' or something like that. I guess maybe he remembered my name." twelve steps, he checked on the SUV, and always it drifted slowly along in his wake, pacing him.. Without looking back, the boy said, "The one that's sad." Noah spoke her name, but as he expected, Laura didn't respond.. For that was how they fought. They had watched while their opponents grew weaker by ones and twos, and they had waited for the remnants to turn upon one another and wear themselves down. Then the Chironians had moved.. Bernard looked at Lechat. Lechat frowned and seemed about to object. Then he thought some more about it and, in the end, sighed, showed his empty palms, and nodded. Bernard turned back to Jay. "Okay, see what you can do. If you do find him, ask him to get over here as soon as he can make it." "Does anyone else know about Howard?" Colman asked. "Veronica, for instance?". Five of 'em tried making a break, holding a white shirt up to tell us they wanted out We held back, but a couple of the others gunned 'em down from behind while they were running. She was one of those five." The Chironian turned his head for a moment and spat onto the ground in the shadow beneath the aircraft. "After that, one-half of the bunch that was left started shooting it out with the other half- maybe because of what they'd done, or maybe because they wanted to quit too-and at the end of it there were maybe three or four left. We hadn't done a thing. Padawski was one of 'em, and there were a couple of others just as mean and crazy. Didn't leave us with too much of a problem." After a few seconds of silence Jay conceded, "Okay, I can see how it might be a good way of getting rid of the odd freak here and there. But what do you do when a whole bunch of them get together?". Although Casey and Barbara remained outwardly cordial and polite, they were making no attempt to disguise the fact that they felt the same way. Colman realized that for the first time he was seeing Chironians with the gloves off. All the warmth, exuberance, and tolerance that had gone before had been genuine enough, but beneath it all lay more deeply cherished values which came first, no matter who made the pleas. On that, there could be no concessions.. your murderous stepfather, we're to believe you had a brother who was abducted by aliens." "You should try to find yourself, Steve. It's healthy." Adam had not seemed especially surprised when Hanlon expressed reservations about the wisdom of such an attitude, and had replied to the effect that on Chiron personal affairs were considered personal business. Some couples might choose to remain exclusively committed to each other and their family, others might not, and it wasn't a matter for society or anybody else to comment on. As far as he was concerned, Adam had

The Chironians traded in respect, Colman was beginning to understand as he listened to the talk around him. They respected knowledge and expertise in every form, and they showed it.
