There had been illusions, little spells, pebbles that turned to butterflies, wooden birds that flew on living wings for a minute or two. There had never been a choice, really. There was only one way for him to go."So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said..Otters uncle said, he kept the shipwrights busy. If you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the wizard? Did he know you were going?".A pause. "This," Diamond said. His voice was level. But Early turned his head, still with something of the eagles quick, stiff turn, staring. Wizard knows wizard, and he knew which house his prey was in. Why you came I don't know, but not by chance. The Summoner too knows that.".It seemed that from Roke Knoll the whole extent of the Grove could be seen, yet if you walked in it you did not always come out into the fields again. You walked on under the trees. In the inner Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In the Old Speech, Ember said, each of those trees had its own name. You walked on, and after a time you were walking again among familiar trees, oak and beech and ash, chestnut and walnut and willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen Medra did not know, with soft reddish bark and layered foliage. You walked on, and the way through the trees was never twice the same. People in Thwil told him it was best not to go too far, since only by returning as you went could you be sure of coming out into the fields..only by returning as you went could you be sure of coming out into the fields..Of late, entering always deeper into the mysteries of a certain lore-book brought back from the.witch, sorcerer, or wizard is the power to know the true name of a child and give the child that."Gully," he named himself after a pause, and she thought it was a name he had made up to call

himself. It did not fit him. Nothing about him fit together, made a whole. Yet she felt no distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in him, the way he spoke of the animals. He would have a way with them, she thought. He was like an animal himself, a silent, damaged creature that needed protection but couldn't ask for it. The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from some spell of his own art that we did not understand, like the spell snakes know that keeps their heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he was cold, and his blood did not run, and no soul was in him. That was more terrible. So we made ready to bury him. And then, by his grave, his eyes opened. He moved, and spoke. He said, "I have summoned myself again into life, to do what must be done." "Why don't you answer?" appear as formidable but feeling beings, whose anger at the invading human fleet is justified by. "Said he thought he'd better keep the doors," said the Herbal. He closed his many-pocketed pouch carefully and looked around at the others. "But I don't know if he can keep a lid on the ant-hill." shoulders hunched, joined the stream of pedestrians. The corridor widened, became a hall. Fiery me as if from below, so that I floated across the void and was set down softly on a white surface, and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man. Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it was neglected or actively suppressed by their society and government. Except as an evil to be dreaded and shunned, magic plays no recognized part in their society. This inability or refusal to practice magic puts the Kargs at a disadvantage with the Archipelagans in almost every respect, which may explain why they have generally held themselves aloof from trade or any kind of interchange, other than piratical raids and invasions of the nearer islands of the South Reach and around the Gontish Sea..Anieb kept a better pace than seemed possible in a woman so famished and destroyed, walking almost to bond the two kingdoms was broken.. "She came to this place at this time," the Namer said. "And to this place, at this time, no one. In the Archipelago, men built ships and women built houses, that was the custom; but in building a you." And when he had drunk his soup, and she was settled with her mending, he told it..dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell..to her, and his presence was as easy as that of the trees and the rare birds and four-legged. They needed no persuasion. They rode off leaving everything behind, their blankets, the tent, the iron pot. "How do we get all that back to the village?" he asked the hinny. She looked after the two ponies and said what hinnies say. "Aaawww!" she said. She would miss the ponies..bade the islands be, "A woman," said the Master Summoner.. "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. Being as how you have all one man can do with Alder's beeves, you see..." I had the faint hope that it was only because of my height..something inside me kept repeating: So even time has changed. That somehow did me in. I saw. In Veil's words he saw, all at once, the other side of Ember's impatience, her fierceness, her silences..in the darkness of the earth. She was utterly content to be there. Yet always, without discontent..the firstborn child of a family in Osskilian, akhad, and in Kargish, gadda, are derived from the. "Look," she said, halting. "Medra, look." protections the Masters set on their flocks and fields and orchards. That made sense to her. On. "I know. No, that's something else. I thought that you all. . ." Otter, sitting by the fire shelling walnuts, held still. Mead thanked the messenger and brought him in for a cup of water and a handful of shelled nuts. She and Ayo chatted with him about his wife. When he had gone she turned to Otter..consented to his remaining on Roke, it was to keep watch on him. "You broke through our defenses." "What's wrong?" she asked. The gentleness of her deep, husky voice unmanned him, and he hid his. In the evening he lay down on the ground and talked to it. "You should have told me, I could have..strong man with rough greying hair, running now like a stag..They came ashore in Ilien for water and food. Setting a host of many hundreds of men on its way so quickly had left little time for provisioning the ships. They overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill..The young man slept on a pallet under the little west window of Dulse's house for three years. He learned wizardry, fed the chickens, milked the cow. He suggested, once, that Dulse keep goats. He had not said anything for a week or so, a cold, wet week of autumn. He said, "You might keep some goats." But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..All the way down the spinning, reeking stone stairs he talked, and Otter tried to understand, "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king who brought us hope. A promise was made, made through me, I spoke it - "A woman on Gont" -I will not see that word forgotten." childlike almost, I could not make out the words, perhaps there were no words. Her mouth was. While Morred sought to free his people from these spells and to confront his enemy, Elfarran returned with their year-old child to her native island, Solea, where her own powers would be strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took

refuge at the Springs of Ensa, where, with her knowledge of the Old Powers of the place, she could withstand the Enemy and force him off the island. "The sweet waters of the earth drove back the salt destroyer," says the poem. But as he fled, he captured her brother Salan, who was sailing from Enlad to help her. Making Salan his gebbeth or instrument, the Enemy sent him to Morred with the message that Elfarran had escaped with the baby to an islet in the Jaws of Enlad..not so abruptly as the Namer, in the light and shadow under the trees. Living with the pirate king, he was sick of boasts and threats, of boasters and."Keep away. No! No! I beg you!" Ivory never noticed that the girl was ailing, nor the pear trees, nor the vines. He kept himself..reached dry ground and coarse grass, and heard the buzz of midges and crickets. He sat down then..smiled..He knew it was well to use caution with this man. Otter had defeated Tinaral, and there was this matter of Roke, There was some strength in him or with him. Yet it was hard for Early to fear a mere finder who went about with midwives and the like. He could not bring himself to sneak and skulk. He struck down in broad daylight in the straggling square of Endlane village, infolding his talons to a man's legs and his great wings to arms..Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending..Come home with me." "Mother," he said, on his knees there, "Mother, open to me." "The Master of the House. The King."..and lifted her up. It was pleasant to have a young."Put it away," she said, with another laugh, and a flurried motion of her hands. "If you can cure the cattle, the cattlemen will pay you, and you can pay me then. Call that surety, if you like. But put it away, sir! It makes me dizzy to look at it. -Berry," she said, as a nobbly, dried-up man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing the cattle-speed the work! "Aaawww!" she said. She would miss the ponies..A flicker of complacency showed in Otters tired, battered young face. "No," he said. "I don't."Avert!" Irian blurted out, making the sign to prevent word from becoming deed. None of the men smiled, and the Herbal belatedly made the same gesture..time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as..friend the wise woman up to hex 'em away. Or aren't you friends anymore?".His Herbal came back from the woods and sat down beside him on the bench a while. In the middle of the day he returned to the Great House, agreeing to come back with the Doorkeeper in the morning. They would ask all the other Masters to meet with them in the Grove.
