"It's Amos!" cried Hidalgo, running from behind the counter..For Lea was cloaked in grey from head to foot But almost before the words were out, she loosed her grey cloak and it fell about her feet.."I have a plan," said Amos..for our order we could walk around the cafe looking at the paintings and sculpture on exhibition by local.I knocked on the door..permission to reprint the material in this volume:..She smiled. He wrote six fine stories for F&SF in the 1960s. Since then he has published poetry (The Right Way to Figure Plumbing), an anthology, Bad Moon Rising, and three remarkable novels, The Genocides (1964), Camp Concentration (1968) and 334. He has just completed a new sf novel, On Wings of Song..advice, maybe more than we want, but any rescue is out of the question." Thus, this particular.Bat there are other reasons. Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. If vivid be added thereunto, fine?what else is good style? Hence critics, whenever possible, express their judgments in figurative language. Wit is a form of condensation (see Freud if you think this is my arbitrary fiat) just as parody is a form of criticism (see Dwight McDonald's Modern Library collection thereof)..Jain goes into her final number. It does not work. The audience is enthusiastic and they want an encore, but that's just it: they, shouldn't want one. "So we'll put that one in the Fairy Godmother file and forget about it. If it happens, fine. But we'd better plan on the assumption that it won't. As you may know, the E.R.B.-Podkayne are the only ships in existence that can reach Mars and land on it. One other pair is in the congressional funding stage. Winey talked to Earth and thinks there'll be a speedup in the preliminary paperwork and the thing'll start building in a year. The launch was scheduled for five years from now, but it might get as much as a year boost. It's a rescue mission now, easier to sell. But the design will need modification, if only to include five more seats to bring us all back. You can bet on there being more modifications when we send in our report on the blowout. So we'd better add another six months to the schedule." "Selene," I hissed. "What are you doing here?".From Competition 15:..And what of multicellular animals?.She shakes her head. "Just my pa." I guess I look curious because she looks away and adds, "My mother died of tetanus right after I was born. It was a freak thing."..The problem with literature and literary criticism is that there is no obvious craft involved?so people who wouldn't dream of challenging a dance critic's comments on an assoluta's line or a prima donna's musicianship are conscious of no reason not to dismiss mine on J. R. R. Tolkien. We're all dealing with language, after all, aren't we? But there is a very substantial craft involved here, although its material isn't toes or larynxes. And some opinions are worth a good deal more than others..He nodded. "First time tonight. In fact, this is my first time ever in any speakeasy. The blue one was much larger than the gray one.. "You may take a nap," said the grey man. "But come and have breakfast first." The grey man put his arm around Amos' shoulder and took him down to his cabin where the cook brought them a big, steaming platter of sausages and eggs..And that's why I sold her, To Lucius McGonaghal Sloe..There was no emotion in his voice. So he put the last piece on top of the trunk, swallowed several aspirins, and lay down.. "I'm afraid I-have to say they're a liability. Lucy will be needing extra food during her pregnancy, and afterward, and it will be an extra mouth to feed. We can't afford the strain on our resources." Lang said nothing, waiting to hear from McKillian..Now back to the topic of heroic fantasy, which occasioned the foregoing.. "I just want to point out that instead of an expedition, we are now a colony. Not in the usual sense of planning to stay here forever, but all our planning will have to be geared to that fiction. What we're faced with is not a simple matter of stretching supplies until rescue comes. Stopgap measures are not likely to do us much good. Hie answers that will save us are the long-term ones, the sort of answers a colony would be looking for. About two years from now we're going to have to be in a position to survive with some sort of lifestyle that could support us forever.
