Often a true name is never known to anybody but the giver and to the owner, who both keep it secret all their life. The power to give the true name and the imperative to keep it secret are one. True names have been betrayed, but never by the name giver..She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the.The people of the Archipelago speak Hardic. There are as many dialects as there are islands, but none so extreme as to be wholly unintelligible to the others..So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung..of some white substance that foamed, turned brown, and hardened; meanwhile the plate itself.edge of the universe. Beyond that was only rumor and dream..Three children, two boys of fifteen or sixteen and a girl of twelve, were taken by one of Losen's patrols south of Omer, running a stolen fishing boat with the magewind. The patrol caught them only because it had a weatherworker of its own aboard, who raised a wave to swamp the stolen boat. Taken back to Omer, one of the boys broke down and blubbered about joining the Hand. Hearing that word, the men told them they would be tortured and burned, at which the boy cried that if they spared him he would tell them all about the Hand, and Roke, and the great mages of Roke.. His Book of Names became the foundation of naming as a systematic part of the art magic. Ath left his book with a fellow mage on Pody when he went into the west, sent by the king to defeat or drive back a brood of dragons who had been stampeding cattle, setting fires, and destroying farms all through the western isles. Somewhere west of Ensmer, Ath confronted the great dragon Orm. Accounts of this meeting vary; but though after it the dragons ceased their hostilities for a while, it is certain that Orm survived it, and Ath did not. His book, lost for centuries, is now in the Isolate Tower on Roke..Quite early on, impatient with wooing her massive physical indifference, he had worked up

a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin..submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman.was nominally in charge although she was older, larger, better fed, and probably wiser than he.said, turning suddenly. The big, white-haired man, Kurremkarmerruk the Namer, was standing just."Thorion says Lebannen is not truly king, since no Archmage crowned him,".It is said that Segoy first wrote the True Runes in fire on the wind, so that they are coeval with the Language of the Making. But this may not be so, since the dragons do not use them, and if they recognise them, do not admit it..He finished his soup, and she took the bowl. She sat down in her place, the stool by the oil lamp to the right of the hearth, and took up her mending. "Get warm through, and then I'll show you your bed," she said. "There's no fire in that room. Did you meet weather, up on the mountain? They say there's been snow."
