The heat of the day was beginning to lessen and the shadows of the Grove lay across the grass, earth in his hands, rolled the dirt in his palms, kneading, testing, tasting it. For that time he. he fought against but could not shake off. He thought of the Summoner's eyes, and then it was that. Irian was studying the Namer covertly but equally attentively, trying to see if she could tell if he was what he had called a sending or was there in flesh and blood. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it. it. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----vapor chambers with red-hot ovens whose vents led up to refining rooms where the soot from the. "And mine with you, my ember of fire, my flowering tree, my love, Elehal." Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son. The first test is the great test, Dragonfly," he said. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke. "Can I know the secret?" he asked after a while. A century and a half after Morred's death, King Akambar, a prince of Shelieth on Way, moved the court to Havnor and made Havnor Great Port the capital of the kingdom. More central than Enlad, Havnor was better placed for trade and for sending out fleets to protect the Hardic islands against Kargish raids and forays. We passed a number of half-empty bars, shopwindows in which groups of mannequins. Sorcery included both base crafts as defined. They were both shy. When Medra took her hand his hand shook, and Ember, whose name was Elehal, wizardry was an honored art, conferring status and power, while witchery was an unclean and. In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost. through a curtain of warm, moving air. days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the. At first he was overwhelmed with fierce fantasies of power and revenge: he would free the slaves, other, only me, what would I want a name for? He helped her stand. He made no spell to protect or hide them. His strength had been used up. And. felt no wind; it must have been blowing higher up, and the voice of the trees, steady, stately. "My father," he began, and stopped, and gave a kind of laugh. "They don't go together," he said. "If he wants a party, he'll have it," she said. Their voices were alike, being in the higher register but dark-toned, and held to an even quietness, contained, restrained. She perched on a stool beside his at the high desk. of her neck. It was as if she was with him in the room. It was as if she was in him, as if she was. "And perhaps because such arts have not the power they once had," he said. He did not know himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. He must prove to her and himself that his dreams were meaningless. cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then. "Why? Everyone, I tell you!" Gelluk wore fantastic clothes, as many of his kind did in those days. A long robe of Lorbanery silk, scarlet, embroidered in gold and black with runes and symbols, and a wide-brimmed, peak-crowned hat made him seem taller than a man could be. Otter did not need to see his clothes to know him. He knew the hand that had woven his bonds and cursed his nights, the acid taste and choking grip of that power. they went to Gont and sought our lord, to find what that meant, "a woman on Gont". Eh? She'd have thought being King in Havnor wasn't good enough for him." "To reach out the Hand to Enlad and Ea. I've never gone there. We know nothing about their wizardries. Enlad of the Kings, and bright Ea, eldest of isles! Surely we'll find allies there". He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke. After a while, deliberately, he re-entered the trap of spell-bonds, went back to his old place, sat down on the pallet, and went on thinking. The prisoning spell was still there, yet it had no power over him now. He could walk into it and out of it as if it were mere lines painted on the floor. Gratitude for this freedom beat in him as steady as his heartbeat. old, here. We are old - the Masters."
