

RADIATION APPLICATIONS IN BIOLOGY PHOTOCHEMICAL REACTIONS EFFECTS

"I was raised to understand it," said Celestina, and when she looked across the room, she saw that her words had moved her mother. Truly, the time spent helping Agnes had given her uncountable new subjects for paintings and had begun to bring to her work a new depth that excited her. "When you pour out your pockets into the pockets of others," Agnes had once said, "you just wind up richer in the morning than you were the night before." "If you ranted at him about earthquakes, tornadoes, erupting volcanoes, and all that stuff, how could he mistake you for me?" The moment that the roof of the car vanished beneath the water, Junior hurried away, retracing on foot the route he had driven. He didn't have to go all the way back to Vanadium's place, only to the dark house where he'd left Victoria Bressler. He had a date with a dead woman. Barty had awakened able to read. On the page, lines of type no longer twisted under his gaze. Having been an object of Thomas Vanadium's fixation, Junior felt fortunate to have survived. He shuddered. NOT IN A MOOD to garden, but wearing the proper gloves, Junior clicked on the foyer light, the hall light, the kitchen light, and stepped around the clubbed-smothered-shot nurse, to the range, where he switched on the right oven, in which an unfinished pot roast was cooling, and the left oven, in which the dinner plates waited to be warmed. He cranked up a flame again under the pot of water that had been boiling earlier and glanced hungrily at the uncooked pasta that Victoria had weighed and set aside. Edom carried the honey-raisin pear pie, and Agnes toted Barty across the neatly cropped yard, to the front door. The bell push triggered chimes that played the first ten notes of "That Old Black Magic," which they heard distinctly through the glass in the door. Skinny, pasty-faced, chattering sissy, he hissed, still so furious with Neddy that he wanted to jam the pianist's head in the toilet even though he was dead. Jam his head in and stomp on him. Stomp him into the bowl. Flush and flush, stomp and stomp. Standing over the body, he squeezed off the last three shots. Finished, he detested guns more than ever. His conscience as a craftsman would not let him fault the carpentry of the ship in any way; but his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams and hull. Surely that was using the secret art to a good end? For harm, yes, but only to harm the harmful. He did not talk to his teachers about it. If he was doing wrong, it was none of their fault and they would know nothing about it. He thought about it for a long time, working out how to do it, making the spell very carefully. It was the reversal of a finding charm: a losing charm, he called it to himself. The ship would float, and handle well, and steer, but she would never steer quite true. AFTER UNDERGOING TESTS for brain tumors or lesions, to ascertain whether his seizure of violent emesis might, in fact, have a physical cause, Junior was returned to his hospital room shortly before noon. MONDAY MORNING, January 17, Agnes's lawyer, Vinnie Lincoln, came to the house with Joey's will and other papers requiring attention. His words echoed back to her from July: My cold's just here, not every place I am. Eventually, a braless blonde in shiny white plastic boots, a white miniskirt, and a hot-pink T-shirt featuring the silk-screened face of Albert Einstein, said, "Sure, I know her. Had some classes with her. She's nice enough, but she's kind of nerdy, especially for an Afro-American. I mean, they're never nerdy--am I right?" When the two vertical panes of the casement window were still less than seven inches apart, they stuttered. The mechanism produced a dismal grinding rasp that sounded like a guttural pronunciation of the problem itself, c-c-c-corrosion, and seized up. This morning he had changed the sheets. Naomi's scent was no longer with him in the bedclothes. "Love you," Wally said, and Celestina repeated it, and he said, "I'm gonna stand in the hall till I hear you set both locks." WEDNESDAY, fully two days after delivering honey-raisin pear pies with Agnes, Edom worked up the nerve to visit Jacob. "Why do they let a man like that keep his badge?" Junior asked. "He's outrageous, wholly unprofessional." because the car was either struck again by the pickup or hit by other traffic or perhaps it collided with a parked vehicle, but whatever the cause, the breath was knocked out of her, and her screams became ragged gasps. Paul couldn't remember when he began to love her. Not at first sight. But before she contracted polio. Love came gradually, and by the time it flowered, its roots were deep. Maria, puzzled but cooperative, left the room as instructed, and Barty removed the correct book from the stack on the table, without anyone's guidance. He sat in the armchair at his mother's side and began to read. Junior wanted to shoot all of them, but he said, "Take it. Keep it. Get it the hell out of here." Junior's fear gave way to an appreciation for the irony in this situation. Gradually, he regained the ability to smile, tossed the coin in the air, caught it, and dropped it in his pocket. "Me, me," Celestina said. "In fact, fianc?es should come first." With the earth still tenuously stable beneath them, they arrived at their fifth destination, a new address on Agnes's mercy list. Retracing his path across the kitchen, he caught a faint whiff of jasmine from the backyard. Funny, jasmine here inside. Two paces later, he felt a draft. He spent the afternoon with her and stayed for dinner. He ate at her bedside, feeding both himself and her, balancing the progress of his meal with hers, so they finished together. He'd never fed her before, yet he wasn't awkward with her, or she with him, and later what he remembered of dinner was the conversation, not the logistics. What might have become a waiting game of epic duration was ended when the door to the room swung inward, and a doctor in a white lab coat entered from the corridor. He was backlit by fluorescent glare, his face in shadow, like a figure in a dream. Although faint and somewhat hollow, the woman's crooning was pure and so on-note that this a cappella rendition fell as pleasantly on the ear as any voice sweetened by an orchestra. Yet the song had a disturbing quality, as well, an eerie note of yearning, longing, a piercing sadness. For want of a better word, her voice was haunting. "Why should I be afraid of a stumbling blind boy?" asked Junior again. But this time the words issued from him in a different tone of voice, because suddenly he sensed something knowing in this boy's attitude, if not in his manufactured eyes, a quality similar to what the girl exhibited. Curiosity brought him here. Curiosity and a talent for self-preservation. Earlier, Vanadium had not come to Naomi's graveside as a mourner. He had been there as a cop, on business. Perhaps he had been at the other funeral on

business, too..Following a splendid lunch, having just left the fourth gallery on his list and strolling toward the fifth, Junior didn't at once see the source of the quarters. Indeed, when the first three rapid-fire coins hit the side of his face, he didn't even know what they were. Startled, he flinched and looked down as he heard them ring off the sidewalk..A sense of fellowship in extraordinary times drew everyone closer, to hug, to touch, to share the wonder. For a long moment, even in the symphony of the storm, in spite of all the plink-tink-hiss-plop-rattle that arose from every rain-beaten work of man and nature, they seemed to stand here in a hush as deep as Tom had ever heard..Matching his mother's whisper, taking obvious delight in their conspiracy, he said, "Our own secret society.".Caesar Zedd recommended not merely seizing the day but devouring it. Chew it up, feed on the day, swallow the day whole. Feast, said Zedd, feast, approach life as a gourmet and as a glutton, because he who practices restraint will have stored up no sustaining memories when famine inevitably comes..In answer, Wally came running with his heavy medical bag, as he was vow doctor to some people on the pie route. "The weather's a lot better than I expected, so I went back to change into lighter clothes.".The paramedic, fingers pressed to the radial artery in Junior's right wrist, must have felt a rocket-quick acceleration in his pulse rate..The wedding reception-big, noisy, and joyous-spread across the three properties without fences. His mother's name was so often mentioned, her presence so strongly felt in all the lives that she had touched, that sometimes it seemed that she was actually there with them..force open Edom's mouth. "Eat your sin, boy, eat your sin!" Edom resists eating his sin, but he's afraid for his eyes,."If I ever have trots, you'll know." And then in the Cheese voice: "CAN WE LISTEN TO THE BOOK TALK IN YOUR ROOM?"".THIS IS THE FIRST PAGE of the Book of the Dark, written some six hundred years ago in Berila, on Enlad:..Junior had seen the silvery coin snapping off the cop's thumb and spinning upward. Now it was gone, as though it had vanished in midair..The two men detached and rolled up the pleated green skirt that hung from the rectangular frame of the graveyard winch on which the casket was suspended. Green, rather than black, because Naomi loved nature: Junior had been thoughtful about the details of the service..Granted that he was only three going on four, nevertheless Barty had never met anyone with as much cheerful imagination as Angel. He intended to marry her in, oh, maybe twenty years..It could only be made better by the presence of her parents. They had planned to fly down to San Francisco this morning, but late yesterday, a parishioner and close friend had died. A minister and his wife sometimes had duties to the flock that superseded all else..2000, the Year of the Dragon, gives way without a roar to the Year of the Snake, and after the Snake comes the Horse. Day by day the work is done, in memory of those who have gone before us, and embarked upon work of her own, young Mary is out there among you. For now, only her family knows how very special she is. On one momentous day, that will change..He rolled Neddy onto one side, but no gold watch lay underneath, so he let the musician flop onto his back again..An hour later, when Barty decided he wanted a soda, he switched off the book and asked Angel if she would like something to drink..He missed Naomi. She'd always known exactly the right thing to say or do, improving his mood with a few words or with just her touch, when he was feeling down..Grinning but with an odd edge of concern in his expression that Celestina could see even through her tears, Wally said, "Does that mean you ... you will?".Fifteen feet separated them, with guests intervening. Yet this stranger's attention could have felt no more disturbingly intense to Junior if they had been alone in the room and but a foot apart..He thought he heard the soft swoosh of knife-edge wings slicing the January air. He dared not look up. More in his throat. The agony. Darkness poured into his head, as if it were blood rising relentlessly from his flooded stomach and esophagus.. "Forget Barty's tree for a second and imagine that all these many worlds are like stacked slices of Swiss cheese. Through some holes, you can see only the next slice. Through others, you see through two or three or five slices before holes stop overlapping. There are little holes between stacked worlds, too, but they're constantly shifting, changing, second by second. And I can't see them, really, but I have an uncanny feel for them. Watch closely.". "Too bad. You might have used that to bargain with.". Then came the Year of the Tiger, 1974. Gasoline shortages, panic buying, mile-long lines at service stations. Patty Hearst kidnapped. Nixon gone in disgrace. Hank Aaron toppled Babe Ruth's longstanding home-run record, and the inflation rate topped fifteen percent, and the legendary Muhammad Ali defeated George Foreman to regain his world-heavyweight title..Her voice grew thinner when she spoke to Angel, but in this new frailty, Barty heard such love that he shook at the power of it. "God's in you, Angel, so strong you shine, and nothing bad at all.". He planned, as soon as they took him out of his cell, to use the old Changers spell of self-transformation and so escape. Surely his life was in danger, and it would be all right to use the spell? Only he couldn't decide what to turn himself into-a bird, or a wisp of smoke, what would be safest? But while he was thinking about it, Losen's men, used to wizard's tricks, drugged his food and he ceased to think of anything at all. They dumped him into a mule-cart like a sack of oats. When he showed signs of reviving during the journey, one of them bashed him on the head, remarking that he wanted to make sure he got his rest..Paul was nearest to that corner when he halted Grace in her rush toward certain death. Before he quite realized what he was doing, he found that he'd flung open the door and climbed half the single long flight of steps, as surefooted as Doc Savage or the Saint, or the Whistler, or any of the other pulp-fiction heroes whose exploits had for so long been his adventures by proxy..Into Barty's darkness came light that he had not sought. He saw his smiling Mary on his lap as she lowered her hands from his temples, saw the faces of his family, the table set with Christmas decorations and many candles flickering..The house was empty, silent. Hanna worked only days. Nellie Oatis, Perri's companion, was not employed here anymore..Ursula K. Le Guin.Perhaps because Celestina was her father's daughter, with his faith in humanity, she was always deeply moved by the kindnesses of strangers and saw in them the shape of a greater grace. "Does your wife know what a lucky woman she is?". "We don't sell no pizza," Angel said, because lately they had received a few calls for a new pizzeria with a phone number one digit different from theirs..Junior was educated. He wasn't merely a masseur with a fancy title; he had earned a hill bachelor of science degree with a major in

rehabilitation therapy. When he watched television, which he never did to excess, he rarely settled for frivolous game shows or sitcoms like Gomer Pyle or The Beverly Hillbillies, or even I Dream of Jeannie, but committed himself to serious dramas that required intellectual involvement-Gunsmoke, Bonanza, and The Fugitive. He preferred Scrabble to all other board games, because it expanded one's vocabulary. As a member in good standing of the Book-of-the-Month Club, he'd already acquired nearly thirty volumes of the finest in contemporary literature, and thus far he'd read or skim-read more than six of them. He would have read all of them if he had not been a busy man with such varied interests; his cultural aspirations were greater than the time he was able to devote to them.. "Oh, sure, I know," Mary said. "But when it's a bad place, you feel it before you go in. So you just go around to the next place that isn't bad. No big deal." The barren white walls, the stark furniture starkly arranged, the rigorous exclusion of bric-a-brac and mementos: this resulted in the closest thing to a true monastic cell to be found outside of a monastery. The only quality of the apartment that identified it as a secular residence was its comfortable size, and if Industrial Woman had been replaced with a crucifix, even size might have been insufficient to rule out residence by some fortunate friar.. Had Junior been chest-deep in wet concrete, he would have been more mobile than he was now. He had no feeling in his legs.. Joey couldn't raise his head, couldn't turn more directly toward her ... because his spine had been damaged, perhaps severed, and he was paralyzed.. The sole male guest in whom he took an interest-a big interest was Sklent, the one-name painter whose three canvases were the only art on the walls of Junior's apartment.. This Detroit-built gondola would swiftly navigate the Styx without a black-robed gondolier to pole it onward.. Between the one-line description of the baklava and the menu's more effusive words about the walnut mamouls, the suspense became too much, the doubt too insidious, at which point Celestina looked up and said, with more girlish angst in her voice than she had planned "Maybe this isn't the place, maybe it isn't the time, or maybe it's the time but not the place, or the place but not the time, or maybe the time and the place are right but the weather's wrong, I don't know--Oh.. Barefoot, in midnight-blue silk pajamas, he walked through his rooms turning on lights in a considered pattern, which he had settled upon after much thought and planning.. On this occasion, however, he couldn't have focused on a book even if he'd had the strength to hold it. The fierce paroxysms that clenched his guts also destroyed his ability to concentrate.. She started to get up from the chair behind the desk, but he encouraged her to stay seated.. Paul withdrew the pistol from the drawer. The weapon didn't feel as good to him as guns always felt in the hands of pulp heroes.. The window was French with small panes, so Celestina couldn't simply break the glass and climb out.. Nevertheless, being cautious even as he seized the day--or the night, in this case-he parked a short distance from his destination, on a parallel street. He walked the last three blocks.. Bartholomew didn't merely have something to do with babies. Bartholomew was a baby.. During those spells when she was too shaky to draw, she stood at the window, gazing at the storied city.. The following April, when he proposed to her, she wouldn't have him. "You're sweet, Paul, but I can't let you throw your life away on me. You're this ... this beautiful ship that will sail a long way, to fascinating places, and I'd only be your anchor." On Joey's side, there was no family to provide help. His mother had died of leukemia when he was four. His dad, fond of beer and brawling--like father not like son-was killed in a bar fight five years later. Without close relatives willing to take him in, Joey went to an orphanage. At nine he wasn't prime adoption material-babies were what was wanted-and he'd been raised in the institution.. Crouching beside the boy as he rubbed a brighter shine onto the granite, Agnes said, "Barty, honey, why are you Hound was sorry for him. "You know, if it was Gelluk questioning you, he'd have everything you know out of you just with a word or two, and your wits with it. I've seen what old Whiteface leaves behind when he asks questions. Listen, can you work with the wind at all?" If they were suspicious of him, they showed no obvious alarm. The three went inside in no particular rush, and judging by their demeanor, Junior decided that they hadn't spotted him, after all.. Junior was at critical depth. The psychological pressure was at least five thousand pounds per square inch and growing by the second. Implosion imminent.. Agnes was able to respond, Paul sprang up and moved away. Other friends knelt and crouched and bent to her, and she lost sight of the pharmacist as he moved off through the dispersing crowd.. Nolly sighed. "Well, I guess if you were going to just plug him, you could've done that already, soon as you got to town." "If he and Agnes were your age, I'd agree. But she's got ten years on you, and he's got twenty, and no previous generations were as wild as yours." When the ophthalmologist saw her misery, his kind face softened further, and his pity became palpable.. Snapping the cylinder into place, he rose to his feet. Already he had a new plan, and the cop's revolver was the most important tool that he required to implement it.. "Oh, Wally, I am worried. I'm deeply worried. My mama is going to buy herself a first-class ticket to the fiery pit if she doesn't stop this prevaricatin'." Junior assumed the dead girl had come from a family of stature in the Negro community, which would explain the stonecarver's accelerated service. Vanadium, according to his own words, was a friend of the family; consequently, the father was most likely a police officer.. "At home," Otter said. It wasn't a lie. He did have a pouch at home. He kept his fine-work tools and his bubble level in it. And he wasn't altogether lying about the wind. Several times he had managed to bring a bit of mageswind into the sail of a boat, though he had no idea how to combat or control a storm, as a ship's weatherworker must do. But he thought he'd rather drown in a gale than be murdered in this hole.. So quick, this violence, over even as it began. Because he had no interest in aftermath, however, Junior suffered no disappointment at the briefness of the thrill. The past was past, and as he closed the front door and stepped around the body, he focused on the future.. A calico cat appeared at Tom's side, running, pacing him. Cats were witches' familiars. Good luck or bad, this cat?. Leave the lamps burning, the door unlocked. A murderer, frantic to vanish while the victim remained undiscovered, wouldn't be worried about the cost of electricity or about protecting against burglary.. He suspected the blame lay with his exceptional sensitivity to violence, death, and loss. Previously it manifested as an explosive emptying of the stomach, this time as a purging of lower realms.. Requital. Restitutional apology, which

must have been learned in a law school where English was the second language. Even atonement..Barty, at the head of the table, sensed Mary's approach only as she was about to touch him. She put a hand on his arm and said, "Daddy, will you turn your chair away from the table and let me sit on your lap?".As Barty stepped across the threshold into the upstairs hall, Miss Pixie Lee said, "You're sweet, Barty..This didn't seem strange to him. Among the many things that no longer mattered were the concepts of distance and time..He shook so badly that he couldn't remove the cap from the bottle. He was proud to be more sensitive than most people, to be so full of feeling, but sometimes sensitivity was a curse..Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile..She kicked off her shoes and sat beside him in bed, with her back against the headboard, still holding his hand. Even though this darkness wasn't as deep as Barty's, Agnes found that she was better able to control her emotions when she couldn't see him. "I think you must be sad, kiddo. You hide it well, but you must be..".Licky took him down into the mines to show him the gangues, the kinds of earth the ore was likely to occur in. A few miners were working at the end of a long level..With a prayer to the Holy Mother, Maria held one third of a knave of spades to the bright flame of the first candle. When it caught fire, she dropped the fragment into the votive glass, and as it was consumed, she said aloud, "For Peter," referring to the most prominent of the twelve apostles..".I wouldn't just whack anyone, not even a worm bucket like Cain, any more than I would commit suicide. Remember, I believe in eternal consequences..".I thought so," Angel said, dubiousity squinching her face. "Mrs. Ornwail made me cheese..".Edom and Jacob came to the house, asking what Dr. Chan had said, and Agnes lied to them. "There are some test results we won't have until Monday, but he thinks Barty is going to be all right..".OF THE SEVEN NEWBORNS, none was fussing, too fresh to the world to realize how much was here to fear..If there had been footsteps, they had fallen silent the moment Junior froze to listen for them. Even over the hard drumming of his heart, he would have heard any noise. The pillowy fog seemed to smother sound in the alleyway more effectively than ever..They came to her, picked up the luggage that she had put down, and Edom said, "I'll drive..".The syphilitic-monkey comparison struck Tom Vanadium as bizarre, but it turned out to be a sober judgment based on experience. In his fifties, Sparky had worked as the chief of maintenance at a medical-research laboratory, where-among other projects-monkeys had been intentionally infected with syphilis and then observed over their life span. In the terminal stages, some of the primates engaged in such outr? behavior that they had prepared Sparky for his eventual encounter with Enoch Cain..After a while, Franklin Chan asked, "Do you want me with you when you tell him?".He said this as though confident Agnes would understand what he meant, with a smile and with a glint in his eyes that almost became a wink, as if they were members of a secret society in which these three repeated words were code, embodying a complex meaning other than what was apparent to the uninitiated..Needlepoint provided no sanctuary. Junior's hands trembled just badly enough to make accurate stitchery impossible..Extending his hand, watching the pianist closely, Junior said, "My name's Richard Gammoner..".Sweet-tempered, generous, honest, kind Naomi had surely been incapable of murdering anyone-least of all the man she loved..Again he fired into the lock, squeezed the trigger a second time, and discovered that no rounds remained in the magazine. Extra cartridges were distributed in his pockets..The sound-suppressor didn't render the pistol entirely silent, but the three soft reports, each like a quiet cough muffled by a hand, wouldn't have carried beyond the hallway.
