craft. Medra had been the Master Finder, until he went to the Grove. A young woman now taught that. These legends are best preserved in Hur-at-Hur, the easternmost of the Kargad Lands, where dragons have degenerated into animals without high intelligence. Yet it is in Hur-at-Hur that people keep the most vivid conviction of the original kinship of human and dragon kind. And with these tales of ancient times come stories of recent days about dragons who take human form, humans who take dragon form, beings who are in fact both human and dragon..the circling, darkening, reeking stairs till he came to the topmost room..Gelluk stood tense and trembling, still at a loss. "Turren," he said, after a time, almost in a whisper..power from them for himself, leaving them silent. They couldn't say what had happened to them..There are different kinds of knowledge, after all.".She lived with Medra in his small house not far from the Net House, though she spent many days with her sister Veil. Ember and Veil had been little children on a farm near Thwil when the raiders came from Wathort. Their mother hid them in a root cellar of the farm and then used her spells to try to defend her husband and brothers, who would not hide but fought the raiders. They were butchered with their cattle. The house and barns were burnt. The little girls stayed in the root cellar that night and the nights after. Neighbors who came at last to bury the rotting bodies found the two children, silent, starving, armed with a mattock and a broken ploughshare, ready to defend the heaps of stones and earth they had piled over their dead..motionless. But I never heard of a wizard.By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town..".We can't do anything without each other," he said. "But it's the greedy ones, the cruel ones who.regret her rash invitation, and I wanted to make things easy for her..They say she lived in a cave under Roke Knoll, never coming into the daylight, but weaving vast.When it came to teaching what he knew, he was tireless, generous, and exacting. For the first.chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney.Medra stayed three years with Highdrake, and when the old mage died, the Lord of Pendor asked Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had been honored in his island, and his successor would have both honor and power. Perhaps tempted to think that he had come as near to Morred's Isle as he would ever come, Medra stayed a while longer on Pendor. He went out with the young lord in his ship, past the Toringates and far into the West Reach, to look for

dragons. There was a great longing in his heart to see a dragon. But untimely storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra refused to run her west again into those gales. He had learned a good deal about weatherworking since his days in a catboat on Havnor Bay..then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only. At first he had thought Diamond had a knack such as many children had and then lost, a stray spark of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and sparkle. His family had praised him for the trick and made him show it off to visitors; and then when he was seven or eight he had lost the hang of it and never could do it again..He told Dragonfly very little of his plans, largely because he made few, trusting to chance and."You won't tell me?".way, so that she began to wonder if men from foreign parts were all so much handier about the."Is she hurt?" the woman said. "Oh, the traitorous vermin!" She was stroking down the mare's right foreleg. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small..want.".The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out..They walked without light except for the faint werelight Gelluk sent before them. "It's as if you'd found some great jewel," she said, "and what's one.Hemlock nodded. "That is quite understandable, among children. And quite impossible now. Do you understand that?" "No," Diamond said..The summer ended too soon that year. Rain came early; snow fell in autumn even as far south as Roke. Storm followed storm, as if the winds had risen in rage against the tampering and meddling of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round the hearths in Thwil Town. They listened to the wind blow and the rain beat or the silence of the snow. Outside Thwil Bay the sea thundered on the reefs and on the cliffs all round the shores of the island, a sea no boat could venture out in..against the house wall, and Azver on the doorstep..make that gesture. It was not a spell, he thought, watching intently, but a sign. Ayo was watching."You didn't set a price?".He knew he was no match for Early. To stop that first binding spell he had used all the strength.He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them, wide awake now.. "I guess we were children," he said. "Now....".not afraid enough of him. Its entrance from the sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut.. "Come on then, my love," the young woman said, not to him. The mare followed her trustfully. They set off up the rough path round the hillside to an old stone and brick stableyard, empty of horses, inhabited only by nesting swallows that swooped about over the roofs calling their quick gossip..lengthened a day by five hours, though he could not, as he had sworn to do, stop the sun at noon.wet, cold time, and firewood was one thing they had plenty of, here on the mountain..Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode.".mage, a pale man from the North named Gelluk, who was much feared in Havnor..smile to cover an upsetting incident. A very faint smile made crescent curves in his cheeks. He stood aside. "Come in, daughter," he said..disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent.There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule over all Havnor now for years..Medra took her hand and put his forehead against it. Telling his story he had kept back tears. He.student of anyone not trained on Roke..The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off.".growing and the sparrows hopping, and now and then a hawk far up in the sky, and the wind moving.It took him six more days to get through the big herds in the eastern marshes. The last two days he spent riding out to scattered groups of cattle that had wandered up towards the feet of the mountain. Many of them were not infected yet, and he could protect them. The hinny carried him bareback and made the going easy. But there was nothing left for him to eat. When he rode back to the village he was light-headed and weak-kneed. He took a long time getting home from Alder's stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but he explained that he

could not eat yet. "As I stayed there in the sickness, in the sick fields, I felt sick. After a while I'll be able to eat again," he explained. "If he wants a party, he'll have it," she said. Their voices were alike, being in the higher register but dark-toned, and held to an even quietness, contained, restrained. She perched on a stool beside his at the high desk. followers in Awabath, the Holy City, fifty miles from Hupun. The priests of the Twin Gods were in young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened. He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them. "Ride back," he said. "Leave me here. There's enough food for one man for three or four days more. their pack, but it might be they'd pay a bit of ivory for what they want. Is it so?" She turned. Medra to take his place. Despite his ranting and scolding against dragon hunters, High-drake had consented to his remaining on Roke, it was to keep watch on him. "You broke through our defenses. a story we want it to tell, to mean what we want it to mean, it loses its reality, becomes a fake. "Yes. Because. . . brit. . . doesn't work without that. Don't move!" He brought her into his mind and saw her as he had seen her, there, in that room, and called out. "Well, so I have to learn from him," said Dragonfly. The desire for power feeds off itself, growing as it devours. Early suffered from hunger. He starved. There was little satisfaction in ruling Havnor, a land of beggars and poor farmers. What was the good of possessing the Throne of Maharion if nobody sat in it but a drunken cripple? What glory was there in the palaces of the city when nobody lived in them but crawling slaves? He could have any woman he wanted, but women would drain his power, suck away his strength. He wanted no woman near him. He craved an enemy: an opponent worth destroying. The two earliest surviving epic or historical texts are The Deed of Enlad, and The Song of the Young King or The Deed of Morred. "The Archmage of the world," she said. "In my cow barn.
