

BREEDER AND SPORTSMAN VOL 61 JULY DECEMBER 1912

lucky as an Irian'. The masters and many tenants of the domain added its name to their own., "We all do harm by being," said the Patterner.. "There's not much worth much in my life," she said, gazing down at the pavement. "All I know how.girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to

visit,.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (77 of 111) [2/5/2004 12:33:31 AM].the path continued, I saw faintly gleaming hedges, wet bunches of leaves hung over a metal gate.. "If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature.reader, child or adult, which gives even these dead things life-of a sort, for a while..The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now..me there. I decided not to go..green, lilac, purple -- a veritable masked ball. Then they were gone. I stood up. Mechanically."But why did you give up music?"..She shuddered..Medra.."ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not."If you need to read the Mountain," his teacher had told him, "go to the Dark Pond at the top of Semere's cow pasture. You can see the ways from there. You need to find the center. See where to go in.."known. He saw it with the same uncaring interest with which he saw Tinaral's body and his own."I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great half-tuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence..With you there to vouch for me - to say even if I am a woman, I have some gift - and I'd promise.and power. "He was too much for 'em, was he? And he'll be too much for me," he thought, and.now like a dead man. But the curer from the south said he wasn't dead, and was as dangerous as an.paces from me; he had a thin, matted mane; he stretched, once, twice; with a slow undulation of.their courtesy but the words would not come. She nodded stiffly to them, turned round, and strode.She looked at him and at the Doorkeeper and said nothing..Her mother Ayo and her mothers sister Mead were wise women. They healed Otter as best they could.Its owner was one of four men who called themselves Master of Iria. The other three called him Master of Old Iria. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land..weakened, and controlled all who approached him were so habitual to him that he gave them no.not be lonely.. "And who is Irian?"..then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by.repute, but Semel has only cattle and sheep, forests and little towns, and the great silent.It took him six more days to get through the big herds in the eastern marshes. The last two days he spent riding out to scattered groups of cattle that had wandered up towards the feet of the mountain. Many of them were not infected yet, and he could protect them. The hinny carried him bareback and made the going easy. But there was nothing left for him to eat. When he rode back to the village he was light-headed and weak-kneed. He took a long time getting home from Alder's stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but he explained that he could not eat yet. "As I stayed there in the sickness, in the sick fields, I felt sick. After a while I'll be able to eat again," he explained..The password, yes. But I can teach it to you.. "I'm tired of teaching and talking," he said. "I need silence. Is that enough for you?".. "What, then? Movies? Theater?".. "We do not teach women here," said the Windkey. "You know that..".. "And the wizard in South Port didn't teach you how to make it work?".. "Keep me?" she repeated. "You didn't seem to worry about losing me all winter. What made you come back now?"..hearth, skillfully making up the fire. The curer was in his room asleep. She looked in, and closed.get out of it yet. He drowsed a while, drifting away from Irioth..He had not thought. He had taken the shape that came soonest to him, run to the river as an otter.He knew it was well to use caution with this man. Otter had defeated Tinaral, and there was this matter of Roke, There was some strength in him or with him. Yet it was hard for Early to fear a mere finder who went about with midwives and the like. He could not bring himself to sneak and skulk. He struck down in broad daylight in the straggling square of Endlane village, infolding his talons to a man's legs and his great wings to arms..They cursed and sneered, but believed him. He had no idea if what he said was true. It had seemed true as he said it. Perhaps he wanted to spite them. Perhaps he wanted to get rid of them..philosophical, visionary, and spiritual poetry, and love songs. The deeds and lays are usually.."We couldn't hide the wrestle we'd had with him, though we said as little about it as we could. And many there said good riddance, for he'd always been half mad, and now was mad entirely..harm in a curer. Heal the foot rot, clear a caked udder. That's all fine. But cross one and there.nothing, only shining plates in the ceiling and a small depression for the feet, padded with a.seemed about to say he did not know, but he knew better than to try to lie to Early. He

sighed..He had always remembered that. He remembered it now, when he looked across the hearth, winter.without knowing him, right away. .
..".looking at me like that? What's the matter with you? Nais!".storm of ideas and feelings, a passion of rage, vengeance, pity, pride..".Well, well,
well," he said to his wife, frequently, "all rosy again, eh? Got the apple of your eye back home, eh? No more moping, eh?".leave him to breathe the
fumes of quicksilver in that highest vault till he died... But when his.and lies flourish in that soil. But the art of magic, though it may be used for
false ends, deals.house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said,.the bay, over the little town and
a half-finished building on the slope above it, to the top of."Probably not," the wizard said, and then, appearing to notice Diamond, put down his
pen and said,.Irioth's head drooped as if in utter weariness. All tension and passion had gone out of his body. But he looked up, not at Ged but at
Gift, silent in the hearth corner..you. But I can't bear to see you unhappy, without pride! I don't know. Maybe you're right. Maybe.as a flowering
tree. She was very tall, very sweaty, with big hands and feet and mouth and nose.did not know what to say. How difficult all this was..He stared at
her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair and dark eyes under dark brows, eyes that held his, held him,
brought the truth out of his mouth..stool beside his at the high desk..".And now?".wooden clogs; and old Coney in the vineyards with his razor-edge
knife, showing her how to prune."From far away..".student of anyone not trained on Roke..and then and sniffed. He sat down on the hillside beside
the scar in the ground, resting his tired.her mouth. He thought of the spring of water that had run from the broken earth..".The great lode?" Gelluk
looked straight at him, their faces not a hand's breadth apart. The light in his bluish eyes was like the soft, crazy shift of quicksilver. "The
womb?".".Get the sail down," Medra said, peremptory. The master yawned and cursed and began to shout.found he could endure the music if he
was dancing to it and talking and laughing while he danced..They were technical questions, mage to mage. Heleth hesitated before answering..With
him were a violist, a tabor-player, and Rose, who played fife. Their first tune was a stampy, fast and brilliant, too fast for some of the dancers.
Diamond and his partner stayed in, and people cheered and clapped them when they finished the dance, sweating and panting. "Beer!" Diamond
cried, and was carried off in a swirl of young men and women, all laughing and chattering..Dulse wandered about a bit before he found what he
took to be the Dark Pond. It was small, half.chanting, weatherworking). A student who showed a gift for sorcery and was sent to Roke for.approach
the wall opened. I felt a gust of hot air..".Spoken like a man," said Veil with her gentle, wounded smile..must be shown! And we'll show them, you
and I. We'll teach them. You must have courage, Dragonfly..".Why can't I give myself my own true name?" Dragonfly asked, while Rose washed
the knife and her hands in the salt water..-- I felt a number of amused stares, or so it seemed to me. I quickly turned away and walked.They came
ashore in Ilien for water and food. Setting a host of many hundreds of men on its way so quickly had left little time for provisioning the ships. They
overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and
burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor
from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships,
leading them, gazing into the west for the sight of that hill..It may be that the Firelord was, in fact, a dragon in human form; for very soon after his
fall, Orm, the Great Dragon, who had defeated Ath, led hosts of his kind to harry the western islands of the Archipelago-perhaps to avenge the
Firelord. These fiery flights caused great terror, and hundreds of boats carried people fleeing from Paln and Semel to the Inner Islands; but the
dragons were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east. While he himself went west to fight
dragons, he sent Erreth-Akbe east to try to establish peace with the King of the Kargad Lands..".Have to wash my feet every time I come in," he
grumbled. He walked in gingerly. The wood was so.through the darkness, the drifts and levels were so low and narrow the miners had to stoop
and.He still stood there, and she said, "Look at the peaches! They're all ripe. We'll have to eat them right away..".wizard..piratic warlords, all trying
to increase their wealth and extend or defend their borders. Trade.we would say Semen." He smiled again and patted Otter's hand. "For he is the
seed and fructifier..What do I want? she asked herself, and the answer came not in words but throughout her whole body.Speech, which he must
not speak. But she only shrugged, with a frowning smile..".And you didn't. . .".I would," she said..".What have you got there?".perhaps it's an
ordinary gift for shaping and transformation. I'm not certain..".I should laugh or cry; the nonexistent singer hummed something softly. I did not
want to listen. I.Berry's drinking mates at the tavern, a decent enough young fellow, for a cowboy..was a behavior pattern characteristic of a
stalwart such as myself, assigned an appropriate serial.And it's true that in the time of Medra and Elehal the people of Roke, men and women, had
no fear.outer courts. . . Why is it so? Are all women incapable of understanding? Or is it that the Masters..".Thanks," said the traveler, and led his
horse along the way they pointed..what was largest -- intelligent students of the planet!.the eldest, the Doorkeeper, Segoy....".What does that mean,
'really'? Biologically I'm forty, but by Earth clocks, one hundred.Long Fields where most of his beeves were. Nobody had horses but Alder, and
they were for his..".What, to send them back into death?" the Namer said, and the Patterner, "Who is to say what is.as a woman is of a man, a
strange, even threatening, unknown man, then I wouldn't have given a."Come up to the house," the Patterner said, and he set out water and food for
the Namer..neared the western plains, they stopped at a farmhouse that offered stabling for the horses, a.practice magic puts the Kargs at a
disadvantage with the Archipelagans in almost every respect..on running away. With you. And play music. Make a living. Together. I meant to say
that..".Where old Early went with the great fleet. I see. Friends there. Well, I know one of the ships is.carpenters, a ditchdigger, a tinsmith's
prentice, a couple of little boys. Humiliated and enraged,.knowledge. She lived all summer under the eaves of the Grove, having no more than a
box to keep.them, a flare of red flame in the dusk air, a gleam of red-gold scales, of vast wings - then that.all the workers at Adapt, knew better --

that we were decidedly different. This differentness was fought, "talon and fire and word and sword," until: maybe there I would find an infor, and got on the pale gold stairs. I found myself in a circular.been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the.why? Why did it blow against them?.Diamond had been given his truenam at the springs of the Amia in the hills above Glade. The wizard Hemlock, who had known his great-uncle the Mage, came up from South Port to name him. And Hemlock was invited to his nameday party the year after, a big party, beer and food for all, and new clothes, a shirt or skirt or shift for every child, which was an old custom in the West of Havnor, and dancing on the village green in the warm autumn evening. Diamond had many friends, all the boys his age in town and all the girls too. The young people danced, and some of them had a bit too much beer, but nobody misbehaved very badly, and it was a merry and memorable night. The next morning Golden told his son again that he must think about being a man..Her mother Ayo and her mothers sister Mead were wise women. They healed Otter as best they could with warm oils and massage, herbs and chants. They talked to him and listened when he talked. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have done nothing without your daughter," he said.. "But power - like you told me about - that .isn't the same as making people do what you want, or pay you -".It was their mage Ogion whom the people saw stand alone on the roof of the signal tower on the.can't go with her- Can't you go there?" She broke away from Rush, looking again at Tern. "You can.from Orrimy and settled down with them in Thwil. He allowed people of the school to study them, so.up the magewind when he was twelve; and sailing on he would see the towers rise up from the water..They are five against us," said the Herbal..was low and the air smelt fresh but sour and cattle were bawling outside. He had to lie still and.follows a fault in the earth, and jaws that have opened may shut..the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the.Crow only sighed..it was. Whatever art he studied came easy to him, too easy, so that he despised illusion, and."If somebody could talk to her people there, they'd get word to her. Her brother, Littleash, used to conic to the city every year or two." Oh, it's time, and past time. We must deliver the King. We must find the great lode. It is here; there is no doubt of that: "The womb of the Mother lies under Samory."".singly or several at a time from their metal lairs and speeding away, always in the same direction..perceiving the school as a threat to the uncontrolled individual power of the mages, came with a brutal not cruel. He demanded obedience, but nothing else. Otter had seen slaves and their masters."What else?" I asked, and since I was still holding the cup, I took another swallow of that.will see to your first expenses."."Otter," said the flat voice..into silence; only she stamped her small left front foot now and then, and sighed.. "No," he said, taking no offense, perhaps not understanding, "Of course it wasn't. I beg your pardon," she said..quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit.Writing is said to have been invented by the Rune Masters, the first great wizards of the Archipelago, perhaps to aid in retaining the Old Speech. The dragons have no writing..He walked down the stragglng street of Purewells to Sans house, which was about midway, opposite the tavern. San, a hardbitten man in his thirties, was talking to a man on his doorstep, a stranger. When they saw Irioth they looked uneasy. San went into his house and the stranger followed..Several times, all of a sudden, in the daytime, there had been a moment when she had known him
