sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet. The witch shook her iron-grey head once. "I can't tell you." Her 'can't' did not mean 'won't'.. "Yes," Tern said, "and I will till she dies. And then I'll take her daughter to Roke. And if you want to read the Book of Names, you can come with us." before the staggers begin. And those not struck yet, he says he can keep it off em. So the Erreth-Akbe, half recovered, went after Orm, drove him from Havnor, and harried him on "through all the Archipelago and Reaches," never letting him come to land, but driving him always over the sea, until in a final terrible flight they passed the Dragon's Run and came to the last island of the West Reach, Selidor. There, on the outer beach, both exhausted, they faced each other and fought, "talon and fire and word and sword," until: choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on vertical cliffs, pale, bluish, bastion upon bastion, crystal battlements, chasms -- and this shining, were dozens of ships like ours. The moving platform made a turn, accelerated, continued to hers and smiled at him, a smile so tender and radiant that he said spontaneously, "And may what. Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pier or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house.. family, on which was engraved a unique and powerful True Rune.. after the Long Dance. "Straining," Heleth said, his hand still absently, gently patting the dirt as one might pat a scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?" "Why not? I can tell you. There were twenty-three of us altogether, on two ships.

You walked on under the trees. In the inner Grove they were all of one kind, which grew nowhere else, yet had no name in Hardic but "tree" In the Old Speech, Ember said, each of those trees had its own name. You walked on, and after a time you were walking again among familiar trees, oak and beech and ash, chestnut and walnut and willow, green in spring and bare in winter; there were dark firs, and cedar, and a tall evergreen Medra did not know, with soft reddish bark and layered foliage. You walked on, and the way through the trees was never twice the same. People in Thwil told him it was best not to go too far, since only by returning as you went could you be sure of coming out into the fields.
