To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed..A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training. It was usually the Archmage who gave a student his staff and made him wizard. This kind of teaching and succession occurred elsewhere than Roke-notably on Paln-but the Masters of Roke came to regard with suspicion a student of anyone not trained on Roke.."Away? In anger? Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark. Her breath stuck in her throat. She gasped a little for air. When she recovered herself she saw the Changer and the pale man both watching her intently..far more numerous neighbors to the south and west..Great Port..the practices of sorcerers and witches. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women..pause to "embrace his heart's brother or greet his home." Taking dragon form himself, he flew to.onto a moving walkway. Why did it blow against them?.Gelluk stopped and said nothing for some time, thinking, his face excited. Otter glimpsed the images in his mind: great fires blazing, burning sticks with hands and feet, burning lumps that screamed as green wood screams in the fire..He was glad to see the sorcerer uneasy too, standing by the helmsman, keeping a watch up on the masthead, taking in sail at the hint of a west wind. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke..direction south. Central level -- gleeders, red local, white express, A, B, and V. Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks. Otter was grateful to him. He could not be wholly comfortable with his hands bound and his mouth gagged, but wind and sunlight were mighty blessings. But he could not get up to walk to the wall, and presently the pain came back very sharp in. "Everything's perilous," Dragonfly said, gazing now through the sheep, the hill, the trees, into still depths, a colorless, vast emptiness like the clear sky before sunrise.. "Stop," I grumbled. "Any more apologizing and I'll really feel all that time."..and Diamond said nothing. "Have you had any ideas of what you want to do?"..turned away scowling. Then she touched his hand very lightly.
