Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the alone, I would have chosen this broad artery, because in the distance blazed the letters TO THE battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace. Gelluk's white face had gone whiter; his jaw trembled a little. He stood up, suddenly, as he always did. "Take me there," he said, trying to control himself, but so violently compelling Otter to get up and walk that the young man lurched to his feet and stumbled several steps, almost falling. Then he walked forward, stiff and awkward, trying not to resist the coercive, passionate will that hurried his steps. "talon and fire and word and sword," until. He could no longer see the chambers and passages of the cave as he had seen them with the uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him and before him. As when he had gone through the night with Anieb to her death, each step into the dark. "You must find the true womb, the bellybag of the Earth, that holds the pure moonseed. Did you know that the Moon is the Earth's father? Yes, yes; and he lay with her, as is the father's right. He quickened her base clay with the true seed. But she will not give birth to the King. She is strong in her fear and willful in her vileness. She holds him back and hides him deep, fearing to give birth to her master. That is why, to give him birth, she must be burned alive." you dream it to be, but that, too, you'd learn." to practice and lead to no good thing. "Got you," the old man said, looking down at the muddy, lax body. He added, "Too late." "Somebody's been coming around," he said, incredulous that she could turn against him. "Who's been after you?" him, and gazed away, over the summery fields. "She's never looked at a man before," she said. He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely." to obey me!" Gift was in the dairy, having finished the evening milking. She bathed the sore with salt water. The ewe sighed deeply and suddenly walked. "Wait," I said. "Do you have anything to drink?" "Come up to the house," the Patterner said, and he set out water and food for the Namer. ships, leading them, gazing into the west for the sight of that hill. After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures.."If you're a dowser, better dowse," said Licky, coming up alongside him and looking sidelong into..either side of the raised walkway that ran down the middle. He knew nothing at all about women. He had not lived where women were since he was ten years old. He had been afraid of them, the women that shouted at him to get out of the way in that great other kitchen long ago. But since he had been traveling about in Earthsea he had met women and found them easy to be with, like the animals; they went about their business not paying much attention to him unless he frightened them. In the Archipelago, the lore of the Old Powers was still part of the profound, common basis of thought and reverence. On all the islands, the arts mostly practiced by witches, such as midwifery, healing, animal husbandry, dousing, mining and metallurgy, planting and growing spells, love spells, and so on, often invoked or drew

upon the Old Powers. But the learned wizards of Roke had generally come to distrust the ancient practices and made no appeal to the "Powers of the Mother." Only in Paln did wizards combine the two practices, in the arcane, esoteric, and reputedly dangerous Pelnish Lore.. Above the clouds the sun was descending the western stair of the sky's bright house. Spring came late again that year, cold and stormy. Medra set to boat-building. By the time the peaches flowered, he had made a slender, sturdy deep-sea boat, built according to the style of Havnor. He called her Hopeful. "Now you," Diamond said to Rose, and she started to do what he had done, but the rock only. He was half asleep, sitting on the ground in the shade by the barracks, the smell of the logs stacked by the roaster tower bringing him a memory of the work yards at home, the fragrance of new wood as the plane ran down the silky oak board. Some noise or movement roused him. He looked up and saw the wizard standing before him, looming above him. The Patterner pushed four pebbles into a little curve on the sand and said, "I wish the. "What for?". King Maharion sought peace and never found it. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe returned, the Great Dragon Orm flew to the City of Havnor and threatened the towers of the king's palace with fire. will do you. Or others," he added conscientiously. "Those are spells of illusion only, of seeming. But there are true changes, and true summonings. And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is naming truly, is a great power. To know the true name is to have power, as you know, mistress. And the summoner's art goes straight to that. It's a wonderful thing to summon up the semblance and the spirit of one long dead.
