

CHRISTOPHER MANNING SENTIMENTAL JOURNEY

"I was twenty-three. At St. Anselmo's I was the prefect of one dormitory floor. The floor on which all the murders occurred. After that ... I decided maybe I could better protect the innocent if I were a cop. For a while, the law gave me more to hold on to than faith did." This analgesic was among several prescription substances that he had stolen, over time, from the drug locker at the rehab hospital where he once worked. Some he had sold; these he had retained. One manly woman. Several womanly men. But no blocky figure that could have been the crazed cop even in disguise. Although he was seventy-six, Tom still worked for Pie Lady Services. They had no set retirement age for staff, and Father Tom expected to die at his work. "And if it's a pie-caravan day, just leave my old carcass where I drop until you make all the deliveries. I won't be responsible for anyone missing a promised pie." "Why do you think he's spending his money for all this tricky stuff?" Kathleen wondered, not for the first time. Uncommon dexterity is essential for anyone who hopes to become a highly skilled card mechanic, but it is not the sole requirement. A capacity to endure grim tedium while engaging in thousands of hours of patient practice is equally important. The finest card mechanics also exhibit complex memory function of a breadth and depth that the average person would find extraordinary. Amused, Wally said, "You artists do love to dramatize-or have I forgotten the San Francisco blizzard of '65?". Tom would have edged to his right, away from Edom, if Jacob hadn't flanked him. He remembered the odd comment that the more dour of the twins had made about the Bakersfield train wreck. Though they had expected the cause of the explosion, both Paul and Harrison were halted by shock at the sight of all this ruination. They had expected to find the car jammed into the wall of the house, never this far inside. The speed required to penetrate this distance into the structure beggared Paul's skills of calculation and made him wonder if even recklessness and alcohol were sufficient to produce, such a catastrophe. Agnes invited everyone to stay for dinner. The pies were no sooner finished than large cook pots, saucepans, colanders, and other heavy artillery were requisitioned from the Lampion culinary arsenal. First he tore two paper towels from a wall-mounted dispenser and held one in each hand, as makeshift gloves. He was determined to leave no fingerprints. Even someone of saintly habits and selfless behavior might be a monster in his heart, filled with unspeakable desires, which he might act upon only once or never. The sirens shrieked so loud that he felt a sympathetic vibration in his dental fillings, and with a sharp cry of brakes, a great red truck turned the corner, at once followed by a second. Hound smiled. "They haven't undone what you did yet, either," he said. "Old Whiteface was crawling all over her yesterday, growling and muttering. Ordered the helm replaced." He meant Losen's chief mage, a pale man from the North named Gelluk, who was much feared in Havnor. And so at the age of thirty-one, after more than twenty-eight years of blindness with a few short reprieves, Barty Lampion received the gift of sight from his ten-year-old daughter. 1996 through 2000: Day after day, the work was done in memory of Agnes Lampion, Joey Lampion, Harrison White, Seraphim White, Jacob Isaacson, Simon Magusson, Tom Vanadium, Grace White, and most recently Wally Lipscomb, in memory of all those who had given so much and, though perhaps still alive in other places, were gone from here. She approached the kitchen table and swept her hand across it, to emphasize its emptiness. In a pew in Old St. Mary's Church, in Chinatown, Junior took delivery of the lock-release gun and the untraceable 9-mm pistol with the custom-machined silencer, as previously arranged. The church was deserted at ten o'clock in the morning. The shadowy interior and the menacing religious figures gave him the creeps. Phimie's stubbornly high blood pressure, the presence of protein in her urine, and other symptoms indicated her preeclampsia wasn't a recent development; she was at increased risk of eclampsia. Her hypertension was gradually coming under control-but only by resort to more aggressive drug therapy than the physician preferred to use. As Edom crossed the threshold, moving outside to the landing at the top of the stairs, Jacob followed, proselytizing for his faith: "Christmas Eve, 1940, St. Anselmo's Orphanage, San Francisco. Josef Krepp killed eleven boys, ages six through eleven, murdering them in their sleep and cutting a different trophy from each-an eye here, a tongue there." As Wally followed them inside, Celestina grinned at him. "From the car to the living room, all as neat as a well-practiced ballet. We've got a big headstart on this married thing." As yet, he hadn't taken either an antiemetic or antihistamine to ward off vomiting and hives, because he wanted to medicate -against those conditions as shortly before the violence as was practical, to ensure maximum protection. He'd intended to dose himself only after he followed Celestina home from the gallery and could be reasonably certain that he had located the lair of Bartholomew. The sound-suppressor didn't render the pistol entirely silent, but the three soft reports, each like a quiet cough muffled by a hand, wouldn't have carried beyond the hallway. Now that neither of them had a doubt that the other shared the same need and that eventually they would satisfy each other, Victoria was opting for discretion. Wise woman. daughter's existence. Angel, if that's what she were eventually to be named, lived under a threat as surely as had all the children of Bethlehem, who'd been slain according to the decree of King Herod. The baby curled one small hand around her aunt's index finger. So tiny, fragile, she nonetheless gripped with surprising tenacity. By now he recognized that the man approaching from the other graveside service was neither a Negro nor a stranger. Detective Thomas Vanadium was annoying enough to be an honorary Hackachak. In July, she went for a walk on the shore with Paul Damascus, expecting to do a little beachcombing, to watch the comical scurrying crabs. Somewhere between the seashells and the crustaceans, however, he asked her if she could ever love him. "Our little girl's going to walk backward her whole life if you drive in reverse all the way to the hospital." All these punctures in the wall. Gouges. Slashes. So much rage required to make them. "Do you want me to call and confirm how Vanadium was harassing you up here?" asked Magusson. In the afternoon, Dr. Schurr came to the hospital to review test results and to reexamine Barty. When the early-winter twilight gave way to night, he sent them back to Dr. Chan, and Agnes didn't press Schurr for an opinion.

All day she'd been impatient for a diagnosis, but suddenly she was loath to have the facts put before her. This wasn't a new sensation. He had experienced it before. In the night just passed, when he awakened from an unremembered dream and saw the bright quarter dancing across Vanadium's knuckles. The lunatic lawman was not at any of the tables. Junior was sure of that, because indulging his appreciation for lovely women, he had roamed the room repeatedly with his gaze. Such behavior as hers was unlikely to lead to self-discovery, self improvement, and fulfillment. We make our own misery in this life. For better or worse, we create our own futures. "Enough," said the nurse, and the nun reached through clouds of steam to crank off the water. Caution discarded, Junior went inside, for the same reason that a dedicated opera aesthete might once a decade attend a country-music concert: to confirm the superiority of his taste and to be amused by what passed for music among the great unwashed. Some might call it slumming. Celestina rose, heart suddenly clumping in her breast, like heavy footsteps hurrying away from an approaching bearer of bad news, but she herself couldn't run, could only stand rooted in her hope-and hear in her mind six versions of a bleak prognosis in the two seconds before the doctor actually spoke. His mouth was dry when he said to Angel, "Well, it seems pretty magical to me-that flipped-coin trick." "Oh, it doesn't mean you're nervous in that sense. Nervous in this case means psychologically induced. Grief, Enoch. brief and shock and horror-they can have profound physical effects." Recently, Wally administered to Angel a set of apperception tests for three-year-olds, and the results indicated that she might not ever be a math whiz or a verbal gymnast, but that she might be highly talented in other ways. Her appreciation of color, her innate understanding of the derivation of secondary hues from the primary colors, her sense of spatial relationships, and her recognition of basic geometric forms regardless of the angle at which they were presented were all far beyond what was exhibited by other kids her age. Wally said she was visually, rather than verbally, gifted, that she would undoubtedly exhibit increasing precociousness in matters artistic, that she might follow Celestina's career path, and that she might even prove to be a prodigy. The ninth card was a jack of spades. Maria called it a knave of and at the sight of it, her bright smile dimmed. Bracing her feet against the floorboards, clutching the seat with her left hand, fiercely gripping the door handle with her right, she prayed, prayed that the baby would be all right, that she would live at least long enough to bring her child into this wonderful world, into this grand creation of endless and exquisite beauty, whether she herself lived past the birth or not. "Oh, sure, I know," Mary said. "But when it's a bad place, you feel it before you go in. So you just go around to the next place that isn't bad. No big deal." The apartment above Elena's Fashions could be reached by a set of exterior stairs at the back of the building. The climb had never before taxed Agnes in the least, but now it took away her breath and left her legs trembling by the time she reached the top landing. They could be patient. Their self-denial and sweet anticipation ensured that their lovemaking, when at last they were able safely to indulge, would be shattering in its intensity, like the coupling of mortals raised to the status of demigods by virtue of their passion, its power and purity. No one could put him in prison because of his dreams. "I can't remember. Those are the worst, when you're not able to remember them-don't you think? They're always so silly when you can recall the details. When you draw a blank ... they seem more threatening." Havnor Great Port is the city at the heart of the world, white-towered above its bay; on the tallest tower the sword of Erreth-Akbe catches the first and last of daylight. Through that city passes all the trade and commerce and learning and craft of Earthsea, a wealth not hoarded. There the King sits, having returned after the healing of the Ring, in sign of healing. And in that city, in these latter days, men and women of the islands speak with dragons, in sign of change. From the door to the sink, nervously fishing a plastic pharmacy bottle out of a coat pocket, Junior counseled himself to remain calm. Slow deep breaths. What's done is done. Live in the future. Act, don't react. Focus. Look for the bright side. "Yes. Sodium chloride will work, too. Common salt. Mix enough of it with water, and it's generally effective." The moment he had seen the building in which Nolly maintained an office-an aged three-story brick structure in the North Beach district, a seedy strip club occupying the ground floor-Junior knew he'd found the breed of snoop he needed. The detective was at the top of six flights of narrow stairs-no elevator-at the end of a dreary hallway with worn linoleum and with walls mottled by stains of an origin best left unconsidered. The air smelled of cheap disinfectant, stale cigarette smoke, stale beer, and dead hopes. A forgetful client had left the bumbershoot in the office six months ago. Otherwise, Nolly wouldn't have had any umbrella at all. In the bedroom once more, before poring through the contents of the nightstand drawers, the dresser drawers, and the closet, he looked in the adjacent bathroom, switched on the light because there was no window-and found Bartholomew on a wall, slashed and punctured, disfigured by hundreds of wounds. Wally parked the Buick at the curb in front of the house in which he lived, and when Celestina slid across the car seat to the passenger's door, he said, "No, wait here. I'll fetch Angel and drive the two of you home." Renee Vivi spoke with a silken southern accent. Vivacious without being cloyingly coquettish, well-educated and well-read but never pretentious, direct in her conversation without seeming either bold or opinionated, she was charming company. Blue fire flashed across the top of the range and followed drips down the baked-enamel front to the floor. Blue flared to yellow, and the yellow darkened when the blaze found the cadaver. Most of these firearms were loaded and ready for use, but five remained in their original boxes, in the back of her bedroom closet. Evidently, considering the original bill of sale taped to each of the five boxed handguns, she must have acquired all the weapons legally. Airborne, Phimie complained of ringing in her ears, which might have been related to the flight. She also suffered an episode of double vision and, in the airport after landing, a nosebleed, which appeared to be related to her previous symptoms. Uncle Jacob, cook and baby-sitter and connoisseur of watery death, cleaned off the table and washed the dishes while Barty patiently endured a rambling postbreakfast conversation with Pixie Lee and with Miss Velveeta Cheese, whose name wasn't an honorary tide earned by winning a beauty contest sponsored by Kraft Foods, as he had first thought, but who, according to Angel, was the "good" sister to the rotten lying cheese man in the

television commercials..The old man assumed the solemn and knowing expression of one guarding mysteries, a sphinx without headdress and mane. "If I told you, dear lady, it wouldn't be magic anymore. Merely a trick." Magusson was a small man behind a huge desk. His head appeared too large for his body, but his ears seemed no bigger than a pair of silver dollars. Large protuberant eyes, bulging with shrewdness and feverish with ambition, marked him as one who'd be hungry a minute after standing up from a daylong feast. A button nose too severely turned up at the tip, an upper lip long enough to rival that of an orangutan, and a mean slash of a mouth completed a portrait sure to repel any woman with eyesight; but if you wanted an attorney who was angry at the world for having been cursed with ugliness and who could convert that anger into the energy and ruthlessness of a pit bull in the courtroom, even while using his unfortunate looks to gain the jurors' sympathy, then Simon Magusson was the counselor for you..Instinct, even reason, told him that some connection existed between this person, this Bartholomew, and Celestina. The name had terrified Cain in a bad dream, the very night of the day that he'd killed Naomi, and Vanadium therefore had incorporated it into his psychological-warfare strategy without knowing its significance to his suspect. As strongly as he sensed the connection, he couldn't find the link. He lacked some crucial bit of information..Every time Junior glanced back, Vanadium was following his wake through the throng. Stocky but almost gliding. Grim and grimmer. Hideous. And closer..He stepped to the front door, which was framed by curtained side lights. He drew one of the curtains aside and peered out..Blind he remained until an afternoon in May 1993, when at last the miracle occurred, and the meaning that Tom Vanadium had foreseen so long ago began to manifest..He used the kitchen phone, at the corner secretary. The blood had been cleaned up long ago, of course, and the minor damage from the ricocheting bullet had been repaired..Junior didn't slow as he passed the house, but circled the block and drove by the place again..Dessert was on the house. The waiter brought the four best items on the menu, to spare them the need to make two small decisions after having made such a big one.."Each life," Barty Lampion said, "is like our oak tree in the backyard but lots bigger. One trunk to start with, and then all the branches, millions of branches, and every branch is the same life going in a new direction."..She was of two minds about this. She wanted him, wanted to be held and cherished, to satisfy him and to be satisfied. But she was the daughter of a minister: The concept of sin and consequences was perhaps less deeply ingrained in some daughters of bankers or bakers than in a child of a Baptist clergyman. She was an anachronism in this age of easy sex, a virgin by choice, not by lack of opportunity. Although she'd recently read a magazine article containing the claim that even in this era of free love, forty-nine percent of brides were virgins on their wedding day, she didn't believe it and assumed that she'd chanced upon a publication that had fallen through a reality warp between this world and a more prudish one parallel to it. She was no prude, but she wasn't a spendthrift, either, and her honor was a treasure that shouldn't be thoughtlessly thrown away. Honor! She sounded like a maid of old, pining in a castle tower, waiting for her Sir Lancelot. I'm not just a virgin, I'm a freak! But even putting the idea of sin aside for a moment, assuming that maidenly honor was as pass? as bustles, she still preferred to wait, to savor the thought of intimacy, to allow expectation to build, and to start their conjugal life together with no slightest possibility of regret. Nevertheless, she had decided that if he was ready for the commitment that she believed he'd already teetered on the edge of expressing three times, then she would set aside all misgivings in the name of love and would lie down with him, and hold him, and give of herself with all her heart..Even the Shantung-softened lamplight blazed too bright and did not serve her well, so she switched it off and said, "Scoot over."..Finally, only thirty miles south of Spruce Hills, he reluctantly acknowledged that slow deep breathing, positive thoughts, high self esteem, and firm resolve weren't sufficient to subdue his treacherous bowels. He needed to find lodging for the night. He didn't care about a swimming pool or a king-size bed, or a free continental breakfast. The only amenity that mattered was indoor plumbing..Likewise, she wasn't prepared to deal with a monster like the father, if one day he came for Angel. And he would come. She knew. In these events as in all things, Celestina White glimpsed a pattern, complex and mysterious, and to the eye of an artist, the symmetry of the design required that one day the father would come. She wasn't prepared to deal with the creep now, but by the time that he arrived, she would be ready for him..Later, at home, he gargled until he had drained half a bottle of mint-flavored mouthwash, took the longest shower of his life, and then used the other half of the mouthwash..When Renee, sweetly oblivious of her looming doom, claimed to have inherited a sizable industrial-valve fortune, Junior thought she might be inventing the wealth or at least exaggerating to make herself more desirable. But when he accompanied her back to her place, he discovered a level of luxury that proved she wasn't a shop girl with fantasies.."No, that's not necessary," Junior said, trying to sound casual. "Considering what you told me, I'm sure whoever's bothering me here can't be Vanadium. I mean, him being on the run, with plenty of his own troubles, the last thing he'd do is follow me here just to screw with my head a little."..Jacob Isaacson--twin brother of Edom-knew nothing negative about Panglo, but he didn't trust him. If the mortician had been caught prying gold teeth from the dead and carving satanic symbols in their buttocks, Jacob would have said, "It figures." If Panglo had saved bottles of infected blood from diseased cadavers, and if one day he ran through town, splashing it in the faces of unsuspecting citizens, Jacob would not have raised one eyebrow in surprise..Sparky Vox-with less training in theology and philosophy than his guest, but with a spiritual insight that any overeducated Jesuit would have to admire, even if grudgingly-had settled Vanadium's uneasy conscience. "The problem with movies and books is they make evil look glamorous, exciting, when it's no such thing. It's boring and it's depressing and it's stupid. Criminals are all after cheap thrills and easy money, and when they get them, all they want is more of the same, over and over. They're shallow, empty, boring people who couldn't give you five minutes of interesting conversation if you had the piss-poor luck to be at a party full of them. Maybe some can be monkey-clever some of the time, but they aren't hardly ever smart. God must surely want us to laugh at these fools, because if we don't laugh at 'em, then one way or another, we give 'em respect. If you don't mock a bastard like

Cain, if you fear him too much or even if you just look at him in an all-solemn sort of way, then you're paying him more respect than I ever intend to. Another glass of wine?".Sitting on the edge of the bed, taking his hand, she stared at his sweet little bow of a mouth, whereas before she would have met his eyes. "Tell me.".Elsewhere in the cemetery, about 150 yards away, another interment service-with a much larger group of mourners-had begun prior to this one for Naomi. Now it was over, and the people were dispersing to their cars..Seeing her, Joey leaped up front his armchair again. He managed to hold on to his book this time, but he stumbled into the footstool and nearly lost his balance..Junior was accustomed to having women seduce him. His good looks were a blessing of nature. His commitment to improving his mind made him interesting. Most important, from the books of Caesar Zedd, he had learned how to be irresistibly charming..He had not yet disposed of her personal effects. In the dark, he went to the dresser, opened a drawer, and found a cotton sweater that she had worn recently..Yet he didn't fault himself for a lack of sensitivity. He'd met this woman only once before. He wasn't emotionally invested in her as he had been in sweet Naomi..So runs the water away..The only bad moment in the evening came when the pianist played "Someone to Watch over Me.".Agnes thought crazily of their early dates and the first years of their marriage. They had occasionally gone to the drive-in, sitting close.,In a stolen black Dodge Charger 440 Magnum, Junior Cain shot out of Spruce Hills on as straight a trajectory to Eugene as the winding roads of southern Oregon would allow, staying off Interstate 5, where the policing was more aggressive.. "Who?" she shouted, though they were perched side by side on a black-leather love seat..When Agnes groaned, one of the shadows spread its wings, moved closer, to the right side of the bed, and resolved into a nurse. Agnes's vision had cleared. The nurse was a pretty young woman with black hair and indigo eyes..Like all ICU waiting rooms, where Death sits patiently, smiling in anticipation, this lounge was clean but drab, and the utilitarian furnishings didn't pamper, as though bright colors and comfort might annoy the ascetic Reaper and motivate him to cut down more patients than otherwise he would have done..They would have given him an antinausea medication. It most likely wasn't going to work quickly enough to save him..Chase after her on foot. Shoot her in the car. Maybe. He'd have five rounds left if he used one on the man, four on Bartholomew..Cypresses lined the entry drive to the cemetery. Tall and solemn, the trees kept guard, as though posted to prevent restless spirits from roaming out into the land of the living.. "She was a hero, just like you. I wanted you ... I wanted you to see her and to know her name. Perri Damascus. That was her name.".His alcohol-soured breath washed over Agnes as he asked, "How's Bartholomew doing, is he okay, is the little guy in good health?".With great deliberation, Joey shifted gears and followed the drive way to the street, where he peered left and then right with the squint-eyed suspicion of a Marine commando scouting dangerous territory. He turned right..Copyright (c) 1999 by Ursula K. Le Guin. "Dragonfly" first appeared in Legends.. "You haven't had previous episodes like this?" Parkhurst asked, standing at the bedside with a file folder in his hands, half-lens reading glasses pulled down to the tip of his nose..Junior joined the throngs, although he had no gift list or feeling for the season. He just needed to get out of his apartment, because he was convinced that the phantom singer would soon serenade him again.. "Well, actually, I owe Phimie. It's what she said between her two deaths on the delivery table that's changed my life.".If the ace of diamonds, in quartet, must be taken seriously, then why not the rest of the draw?.deodar cedars with layers of drooping branches surrounded the place, and usually they seemed sheltering, but now they loomed, ominous..Junior considered slipping quietly around the house, peering in windows, to be sure she was alone, before approaching directly. If she saw him, however, his wonderful surprise would be spoiled..Mary had a yellow vinyl ball of the type Koko would happily chase all day and, if allowed, chew all night, keeping the house awake with its squeaking. "Want this?" she asked Koko. Koko wanted it, of course, needed it, absolutely had to have it, and leaped into action as Mary pretended to throw the ball..He doused the light and crouched motionless in the absolute darkness, leaning against a wall of the dumpster to steady himself, because his feet were planted in slippery layers of fog-dampened plastic trash bags..Golden lamplight gilded the front windows downstairs. He would sit with Victoria on the living-room sofa, sipping wine as they got to know each other. She might tell him to call her Vicky, and maybe he'd ask her to call him Eenie, the affectionate name Naomi had given him when he wouldn't tolerate Enoch. Soon, they would be necking like two crazy kids. Junior would disrobe her on the sofa, caressing her smooth pliant body, her skin buttery in the lamplight, and then he would carry her, naked, to the dark bedroom upstairs.. "But let's pretend it's me, okay? So here I am, stepping off the curb without looking both ways-".The Hackachaks were present, of course. Junior had not yet agreed to join them in their pursuit of blood money. They would give him little privacy or rest until they had what they wanted..Junior shuddered. Vanadium hadn't invented the name. It had genuine if inexplicable resonance with Junior that had nothing to do with the detective..She worried that they would argue with her, and though she knew that she was committed to her decision, she was afraid to have that commitment tested just yet..Intuition told Tom Vanadium that the removal of the paintings was significant, but he wasn't a talented enough Sherlock to leap immediately to the meaning of their absence..And now she didn't need him anymore. He gazed at her face, held her cooling hand; his anchor was slipping away from him, leaving him adrift..She found the switch and clicked off the lamp again. "Good-night, young prince.".During the preparation of the cards, Barty had fallen asleep in his mother's arms, but with the revelation of his name on the ace, he had awakened again, perhaps because with his head resting on her bosom, he was alarmed by the sudden acceleration of her heartbeat.
