Wizards trained at the school went to other islands of the Archipelago to work against warlords, pirates, and feuding nobles, preventing raids and forays, imposing penalties and settlements, enforcing boundaries, and protecting individuals, farms, towns, cities, and shipping, until social order was re-established. In the early years they were sent to enforce peace; increasingly

they were called on to maintain it. While the throne in Havnor remained empty, for over two hundred years Roke School served effectively as the central government of the Archipelago."Col. . . ?" I heard; the word had probably been said more than once, but I did not. Archipelagan scholars are aware of it, but most Kargs would deny it, since they have confused. Dragonfly peered close at Rose's work. Rose brought out a maggot, dropped it, spat on it, and probed again. The girl leaned up against the ewe, and the ewe leaned against the girl, giving and receiving comfort. Rose extracted, dropped, and spat on the last maggot, and said, "Just hand me that bucket now." She bathed the sore with salt water. The ewe sighed deeply and suddenly walked out of the yard, heading for home. She had had enough of medicine. "Bucky!" Rose shouted. A grubby child appeared from under a bush where he had been asleep and trailed after the ewe, of whom he was nominally in charge although she was older, larger, better fed, and probably wiser than he was..corners of the walls shone, brightened by streaks of luminous paint. And then it was over. He broke. Like a stick breaking. He was broken. But he fled away. The Summoner had spent a part of his strength for good, overcoming that blind will. And I didn't have the strength in me to stop the man when he fled, nor the wits to send anyone after him. And not a shred of power left in me to follow him with. So he got away from Roke. Striding along-he could stride, then-with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power.
