In front of me: .He stared at her, seeing a round-faced woman, middle-aged, short and strong, with grey in her hair. Dulse knew better than to ask for explanation. The need to speak such a spell could not come often; the chance of his ever having to use it was very slight. He let the terrible spell sink down in his mind and be hidden and layered over with a thousand useful or beautiful or enlightening mageries and charms, all the lore and rules of Roke, all the wisdom of the books Ard had bequeathed him. Crude, monstrous, useless, it lay in the dark of his mind for sixty years, like the cornerstone of an earlier, forgotten house down in the cellar of a mansion full of lights and treasures and children. .year's leaf by her hand. .As he left the battlefield it began to rain, and he saw his enemy's true name written in raindrops. "I tell you, Irian, he cannot come here, he cannot harm you here." "Yes," she said uncertainly. .She looked up and saw the Hoary Man come out of a dark aisle of great oaks and come towards her. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away. again with that yearning look. The sun was setting; he stood up, bade her goodnight gently, and. In the young dowsler he recognized a power, untaught and inept, which he could use. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined. As always, Gelluk's mind leapt across obstacles and delays to the wonderful mysteries at the end of them. "Everything's for gain some way, I'd say. People have to live. But what do I know? I make my. He ran down from the straggle of huts to the quick, noisy stream he had heard singing through his sleep all his nights in Woodedge. He prayed to it. "Take me and save me," he asked it. He made the spell the old Changer had taught him long ago, and said the word of transformation. Then no man knelt by the loud-running water, but an otter slipped into it and was gone. .They were technical questions, mage to mage. You know -- do magic, play music, be Father's son, love Rose.... It doesn't work that way. Things don't mix." "We do not teach women here," said the Windkey. "You know that." Dragonfly found the village witch taking maggots out of an infected cut on a sheep's rump. The witch's use-name was Rose, like a great many women of Way and other islands of the Hardic Archipelago. In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost.. city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey. similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand.. "They don't need a weatherworker on a night like this, and they haven't paid me yet," Medra said to his conscience. He had waked from his dream with the name Roke in his mind. Why had he never heard of the isle or seen it on a chart? It might be accursed and deserted as they said, but wouldn't it be set down on the charts?. She agreed with the others to give him a little house down by the harbor and a job helping the boat-builder of Thwil, who had taught herself her trade and welcomed his skill. You can know anything you like. I need have no secrets from you. Nor you from me," and he laughed, not threateningly, but with pleasure. He gazed at Otter again, his large, white face smooth and thoughtful. "Powers you have, yes, all kinds of little traits and tricks. A clever lad. But not too clever; that's good. Not too clever to learn, like some... I'll teach you, if you like. Do you like learning? Do you like knowledge? Would you like to know the name we call the King when he's all alone in his brightness in his courts of stone? His name is Turre. Do you know that name? It's a word in the language of the Allking. His own name in his own language. In our base tongue we would say Semen." He smiled again and patted Otter's hand. "For he is the seed and fructifier. The seed and source of might and right. You'll see. You'll see. Come along! Come along! Let's go see the King flying among his subjects, gathering himself from them!" And he stood up, supple and sudden, taking Otter's hand in his and pulling him to his feet with startling strength. He did not know himself why he tried to weaken her faith in wizardry; perhaps because any weakening of her strength, her wholeness, was a gain for him. He had begun merely by trying to get her into his bed, a game he loved to play. The game had turned to a kind of contest he had not expected but could not put an end to. He was determined now not to win her, but to defeat her. He could not let her defeat him. He must prove to her and himself that his dreams were meaningless.. again and again. "It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. Erreth-Akbe, sailing into the bay "with sails worn transparent by the eastern winds," could not pause to "embrace his heart's brother or greet his home." Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. He came, with the dragon now following him, to the Old Island, Ea, the first land Segoy raised from the sea. On that sacred and powerful soil, he and Orm met. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the old Archmage to come crown him, and he wouldn't come. And there was no new Archmage. So he took the crown himself. And some say that's wrong, and he doesn't rightly hold the throne. But others say the king himself is the new Archmage. But he isn't a wizard, only a king.
