

COMPENSATION AND ORGANIZATIONAL PERFORMANCE THEORY RESEARCH AND PRACTICE

Celestina turned in her seat to look back at Wally and Angel, who were waving. "I guess I am." After staring at the coins for a long moment, Kathleen said, "I don't think any mystery writer has ever done a series of novels about a priest detective who's also a magician." "I'll teach her," Wally said, moving past them to the apartment door, fishing a ring of keys out of his coat pocket. "But before you leave St. Mary's," the physician said, "I'd like a few minutes of your time. It's very important to me. Personally." No elevator. He didn't have to worry that with no more warning than a ding, doors might slide open, admitting witnesses into the hall. "I'm paying," Celestina insisted when they were seated. "I'm now a successful artist, with untold numbers of critics just waiting to savage me." Either this chatterbox was at all times a babbling airhead or Junior particularly disconcerted him. He was uncomfortable, achy, thirsty, but he remained utterly still and observant. After a while, he realized that the sense of oppression with which he'd awakened was not entirely a psychological symptom: Something heavy lay across his abdomen. And it was cold—so cold, in fact, that it had numbed his middle to the extent that he hadn't immediately felt the chill of it. Shivers coursed through him. He clenched his jaws to prevent his teeth from chattering and thereby alerting the man in the chair. Although he never took his eyes off the corner, Junior became preoccupied with trying to puzzle out what was draped across his midsection. The mysterious observer made him sufficiently nervous that he couldn't order his thoughts as well as usual, and the effort to prevent the shivers from shaking a sound out of him only further interfered with his ability to reason. The longer that he was unable to identify the frigid object, the more alarmed he became. He almost cried out when into his mind oozed an image of Naomi's dead body, now past the whitest shade of pale, as gray as the faint light at the window and turning pale green in a few places, and cold, all the heat of life gone from her flesh, which was not yet simmering with any of the heat of decomposition that would soon enliven it again. "A wonderful wedding," Celestina promised her, taking a pair of pajamas from a dresser drawer. "At the back of the second gallery, on the left, there's a corridor. The rest rooms are at the end of it, beyond the offices." As early as this evening, here at her son's bedside, Agnes began dimly to sense that certain of these amusing conversations with Barty might not be as fanciful as they seemed, that he was expressing in a childlike way some truth that she had assumed was fantasy. Not cheerful, life-loving, high-spirited, churchgoing Naomi. She saw every day through a golden haze that came from the sun in her heart. If Vanadium appeared among these men, Junior would not only puke out the contents of his stomach, but also would disgorge his internal organs, every last one of them, and spew up his bones, too, until he emptied out everything within his skin. By his twelfth month, he was toilet-trained, and every time that he had the need to use his colorful little bathroom chair, he proudly and repeatedly announced to everyone, "Barty potty." Naomi's beautiful countenance rose in his mind, and she looked beautiful for a moment, but then he thought he saw a certain slyness in her angelic smile, a disturbing glint of calculation in her once loving eyes. Alarm contacts gleamed in the header, but the system wasn't currently activated. As the fragrances of wet wool and sodden denim rose from her sweater and jeans, Agnes switched on the heater and angled the vanes of the middle vent toward Barty. "Honey, turn that other vent toward yourself." Chan nodded. "Considering the advanced stage of Bartholomew's malignancies, he should have complained earlier than he did." 1969 through 1973: the Year of the Rooster, chased by the Year of the Dog, followed fast by the Pig, faster by the Rat, with the Ox passing in a stampede pace. Eisenhower dead. Armstrong, Collins, Aldrin on the moon: one giant step on soil untouched by war. Hot pants, plane hijackings, psychedelic art. Sharon Tate and friends murdered by Manson's girls seven days before Woodstock, the Age of Aquarius stillborn, but the death unrecognized for years. McCartney split, Beatles dissolved. Earthquake in Los Angeles, Truman dead, Vietnam sliding into chaos, riots in Ireland, a new war in the Middle East, Watergate. More walls than not, in both rooms, were lined with bookshelves and file cabinets. Here he kept numerous case studies of accidents, man-made disasters, serial killers, spree killers: proof undeniable that humanity was a fallen species engaged in both the unintentional and calculated destruction of itself. "September 13, 1928. Lake Okeechobee, Florida. Two thousand people died in a flood." That evening, he was filled with a greater sense of adventure than he'd felt since arriving in the city from Oregon. Consequently, he treated himself to three glasses of a superb Bordeaux and a filet mignon in the same elegant hotel lounge where he had dined on his first night in San Francisco, almost three years earlier. Of course, he also might have shot off his own thumbs as double insurance against being drafted and sent to Vietnam. Could any spell of magic make, To be useful, anger must be channeled, as Zedd explains with unusually poetic prose in *The Beauty of Rage: Channel Your Anger and Be a Winner* Junior's current predicament would only get worse if he had to telephone Roto-Rooter to extract a musician from the plumbing. "You didn't at all," Dr. Salk assured him. "I need to talk to you. If you would give me a little of your time..." Regrettably, he had no choice but to conclude that she hadn't made up her mind whether to keep the baby or to seek out an illegal abortion without Junior's approval. She had been thinking about scraping his child out of her womb without even telling him. Shortly after Agnes turned out the light, she said, "Kid, it's been one whole week since you walked where the rain wasn't, and I've been doing a lot of thinking about that." As "It is." From a desk drawer, Nolly withdrew an envelope and put it on top of the offered cash. "I'm returning five hundred of your thousand retainer." He pushed everything back toward Junior. Still on her knees, she raised the weapon and realized that she was going to shoot the maniac in the back, that she had no other choice, because her inexperience didn't allow her to aim for a leg or an arm. The moral dilemma overwhelmed her, but so did an image of Phemie lying dead in bloody sheets on the surgery table. She pulled the trigger and rocked with the recoil. Raised by a father to whom any form of amusement was blasphemy, Agnes had never seen a magician perform until she was nineteen, when Joey Lampion, then her suitor, had taken her to a stage

show. Rabbits plucked out of top hats, doves conjured from sudden plumes of smoke, assistants sawn in half and mended to walk again; every illusion that had been old even in Houdini's time was a jaw-dropping amazement to her that evening. Now she remembered a trick in which the magician had poured a pitcher of milk into a funnel fashioned from a few pages of a newspaper, causing the milk to vanish when the funnel, still dry, was unrolled to reveal ordinary newsprint. The thrill that had quivered through her that evening measured I on the Richter scale compared to the full 10-point sense of wonder quaking through her at the sight of Barty as dry as if he'd spent the afternoon perched fireside. Books were stacked high on a nearby table, favorite novels and volumes of verse, all of which Agnes had read before. With time so limited, she preferred the comfort of the familiar to the possibility that new writers and new stories would fail to please. Paul read to her often, as did Angel. Tom Vanadium sat with her, too, as did Celestina and Grace. An unfortunately bumpy ride for the deceased: along the hallway, through the foyer, across the entry threshold, down the porch steps, across a lawn dappled with pine shadows and yellow moonlight, to the graveled driveway. No complaints. He pointed at his feet. "Toes, toes, toes, toes, toes, toes, toes, toes, toes, toes." Frowning at him, she said, "You don't mind them around, do you, Joey? They're eccentric, but I love them very much." Finally, he said, "What I did was grab the shovel, dig a hole really fast, and bury Muffin in it up to her neck—just until she calmed down." Furious, he squeezed off two shots. Passing the living-room archway, Tom saw Jacob in the armchair, under the reading lamp, slumped as if asleep over the book. His crimson bib confirmed that he wasn't just sleeping. The beetle-green Pontiac waited in the driveway, with a shine that tempted nature to throw around some bad weather. Joey always kept a spotless car, and he probably wouldn't have had time to earn a living if he had resided in some shine-spoiling climate rather than in southern California. AS THE WULFSTAN PARTY was being seated at a window table, slowly tumbling masses of cottony fog rolled across the black water, as if the bay had awakened and, rising from its bed, had tossed off great mounds of sheets and blankets. He found the strength to squeeze her hand tighter than before. "Be safe. Keep Angel safe." After a while, a voice broke the vacuum-perfect silence. Bob Chicane. His instructor. "In addition to that policy," said Vinnie, "there's another. . .—he filled his lungs, hesitated, then exhaled the air and the sum with a tremor—'seven hundred fifty thousand. Three-quarters of a million dollars." The vending machines were designed to accept quarters, not to eject them. They didn't make change. Mechanically, this barrage wasn't possible. A MOMENTOUS DAY for Celestina, a night of nights, and a new dawn in the forecast: Here began the life about which she'd dreamed since she was a young girl. Agnes had believed that through this ordeal, she'd largely spared her child from an awareness of the awful depth of her misery. In this, however, as in so many other instances, the boy proved to be more perceptive and more mature than she'd realized. Now she felt that she had failed him, and this failure ached like a wound. Looking up at the mirror above the sink, he saw reflected not the self-improved and fully realized man that he'd worked so hard to become, but the pale, round-eyed little boy who had hidden from his mother when she had been in the deepest and darkest end of one of her cocaine-assisted, amphetamine-spiced mood swings, before she traded cold reality for the warm coziness of the asylum. As if some whirlpool of time was spinning him backward into the hateful past, Junior felt his hard-won defenses being stripped away. She was not yet twenty-one, and he was at least twice her age, but he leaned like a small child against her, and like a mother she comforted him. Indeed, the tree inspired him. After he shot the girl, he would open the window and toss her body into the oak. Let Celestina find her there, randomly pierced by branches in a freestyle crucifixion. He had recently learned about the demigods of classic mythology in one of the selections from the Book-of-the-Month Club. In the front wall of the living room, where once had been a fine bay window, the parsonage lay open to the sunny day. Tom shrubbery, carried in from outside, marked the path of destruction. In the very middle of the room, plowed against a toppled sofa and a thick drift of broken furniture, a battered red Pontiac sagged to the left on broken springs and blown tires. A portion of the crazed windshield quivered and collapsed inward, while plumes of steam hissed from under the buckled hood. The little hands, so weak now but someday strong: Would they eventually be capable of savagery, as were the father's hands? Misbegotten offspring. This seed of a demonic man whom Phimie herself had called sick and evil. However innocent-looking now, what pain might she eventually in-- on others? What outrages might she commit in years to come? Although Celestina searched intently, she could not glimpse the father's evil in the child. Agnes found herself drifting up. A frightening sense of weightlessness overcame her. deodar cedars with layers of drooping branches surrounded the place, and usually they seemed sheltering, but now they loomed, ominous. Neddy, dressed for work but overdressed for his own funeral, slumped against the wall, head bowed, chin on his chest. His pale hands were splayed at his sides, as though he were trying to strike chords from the floor tiles. His silent tears accomplished what his words could not: Nork, Knacker, and Hisscus retreated, urging him to speak to his attorney, promising to return, once more expressing their deepest condolences, perhaps as abashed as attorneys and political appointees could get, but certainly confused and unsure how to proceed when dealing with a man so untouched by greed, so free of anger, so forgiving as the widower Cain. In Room 724, standing alone at her sister's bedside, watching the girl sleep, Celestina told herself that she was coping well. She could handle this unnerving development without calling in either of her parents. She shook her head. "No way back." She pointed to the sketch pad on the floor. "I pushed him there." Now came a slight but real risk of being heard inside: He pulled the trigger. The flat steel spring in the lock-release gun caused the pick to jump upward, lodging some of the pins at the shear line. The snap of the hammer against the spring and the click of the pick against the pin tumblers were soft sounds, but anyone near the other side of the door would more likely than not hear them; if she was one room removed, however, the noise would not reach her. She approached the kitchen table and swept her hand across it, to emphasize its emptiness. Cradling the baby, the nun turned with it to Celestina, folding back a thin blanket to present her with a good look at the tiny girl. Following a splendid lunch, having just left the fourth

gallery on his list and strolling toward the fifth, Junior didn't at once see the source of the quarters. Indeed, when the first three rapid-fire coins hit the side of his face, he didn't even know what they were. Startled, he flinched and looked down as he heard them ring off the sidewalk..with an encircling and suggestive lick, and then licked his lips, too, when the cold steel slipped free of them..A car waited at the curb in front of the park. Dr. Salks two associates stood beside it and seemed to have been there awhile..That was all right, for she had done the same for Otter's elder sister, and so his parents sent him to her in the evenings. But she taught Otter more than the song of the Creation. She knew his gift. She and some men and women like her, people of no fame and some of questionable reputation, had all in some degree that gift; and they shared, in secret, what lore and craft they had. "A gift untaught is a ship unguided," they said to Otter, and they taught him all they knew. It wasn't much, but there were some beginnings of the great arts in it; and though he felt uneasy at deceiving his parents, he couldn't resist this knowledge, and the kindness and praise of his poor teachers. "It will do you no harm if you never use it for harm," they told him, and that was easy for him to promise them..Routinely she dreamed of Joey. Not nightmares. No blood, no reliving of the horror. In her dreams, she was on a picnic with Joey or at a carnival with him. Walking a beach. Watching a movie. A warmth pervaded these scenes, an aura of companionship, love. Except eventually she always glanced away from Joey, and when she looked again, he was gone, and she knew that he was gone forever..The spectral singer didn't exhibit her blood-and-bone sisters' reluctance to pursue her man..After all he'd suffered at Cain's hands, Tom Vanadium surprised himself by laughing at these colorful accounts of the wife killer's misadventures. Indeed, laughter had seemed disrespectful to the memories of Victoria Bressler and Naomi, and Vanadium had been torn between a desire to hear more and a feeling that finding any amusement value in a man like Cain would leave a stain on the soul that no amount of penance could scrub away..rearview mirror was not hung with one of those tacky decorative deodorizers. The seats, regularly treated with leather soap, were softer and more supple than they had been when the car had shipped out of..He went upstairs to change out of his dark blue suit and badly scuffed black shoes..The paramedic, fingers pressed to the radial artery in Junior's right wrist, must have felt a rocket-quick acceleration in his pulse rate..He was no longer hopeful that they could have a future together. After sampling the Junior Cain thrill machine, Celestina would want more, as women always did, but the time for a meaningful romance had now passed. For all the anguish he'd been put through, however, he deserved the consolation of her sweet body at least once. A little compensation. Payback..Having been a volunteer instructor of English to twenty adult students over the years, having taught Maria Elena Gonzalez to speak impeccable English without a significant accent, Agnes was little needed as a teacher by her son. Even more than other children, he asked why with numbing regularity, why this and why that, but never the same question twice; and as often as not, he already knew the answer that he sought from her and was only confirming the accuracy of his deduction. He was such an effective autodidact, he schooled himself better than any college of professors that could have been assigned to him..the stems, thorns sharp against his tongue. And then Agnes. Agnes in the yard, screaming..St. Mary's social workers did not arrive with dawn, so Celestina was given the privacy of one of their offices, where the wet face of the morning pressed blurrily at the windows, and where she phoned her parents with the terrible news. From here, too, she arranged with a mortician to collect Phimie's body from the cold-storage locker in the hospital morgue, embalm it, and have it flown home to Oregon..Curious to know what Neddy had said, Junior quickly approached the same gallery staffer. "Excuse me, but I've been looking for my friend ever so long in this mob, and then I saw him talking to you-the gentleman in the London Fog and the tux-and now I've lost him again. He didn't say if he was leaving, did he? He's my ride home..".In the minister's house, Junior had seen no indications of a sister. No family photos, no high-school graduation portrait proudly framed. Of course, he had not been interested in their family, for he had been all-consumed by Seraphim.. "I can't..".get his hackles up if we, at the state level, still want to poke around a little..If he was left standing on the porch, the visitor would circle the house, peering in windows where the drapes were not drawn, trying the doors in hope of finding one unlocked. Fearful that Victoria was sick or injured, that perhaps she had slipped on a pat of butter and cracked her Mad against the corner of an open oven door, he might try to force his way inside, break a window. Certainly he would go to the neighbors to call the police..He thought he heard the soft swoosh of knife-edge wings slicing the January air. He dared not look up. More in his throat. The agony. Darkness poured into his head, as if it were blood rising relentlessly from his flooded stomach and esophagus..Because he hadn't heard Victoria Bressler speak in so long-and then only on two occasions-and because the woman on the phone had spoken so softly, Junior couldn't tell whether or not their voices were one and the same..Victoria Bressler lay on the floor of the small foyer, left arm extended past her head, palm revealed, as though she were waving at the ceiling, right arm across her body in such a way that her hand cupped her left breast. One leg was extended straight, the other knee drawn up almost demurely. If she had been nude, lying against a backdrop of rumpled sheets or autumn leaves, or meadow grass, she would have had the perfect posture for a Playboy centerfold..The cheerful tides of friends and neighbors, over the years, had washed away nearly all the stains that the dark rage of Agnes's father had impressed on these rooms. She hoped her brothers might eventually see that hatred and anger are only scars upon a beach, while love is the rolling surf that ceaselessly smooths the sand..Barty had awakened able to read. On the page, lines of type no longer twisted under his gaze..Although Vanadium had been morally certain about the identity of his assailant, intuition without evidence was not sufficient to stir the authorities into action-not against a man on whom the state and county had settled \$4,250,000 in the matter of his wife's mortal fall. They would appear either to be incompetent in the investigation of Naomi Cain's death or to be pursuing Enoch in the new matter out of sheer vindictiveness. Without stacks of evidence, the political risks of acting on a policeman's instinct were too great..Indeed, he would get through the rest of 1965 without resorting to another homicide. The nonfatal shooting in September would be regrettable, quite messy, painful-but

necessary, and calculated to do as little damage as possible.. "I already told you-anything in your heart is as easy to read as the open page of a book..".She looked down at her clutched hands. Made for work, these hands, and always ready to take on any task. Strong, nimble, reliable hands, but useless to her now, unable to perform the one miracle she needed. "Barty's birthday is in eight days. I was hoping. . .".Rhythmic breathing. Slow and deep. Slow and deep. Per Zedd, the route to tranquility is through the lungs..Then quickly from Spruce Hills to Eugene by car, from Eugene to Orange County Airport by a chartered aircraft, from Orange County to Bright Beach in a stolen '68 Oldsmobile 4-4-2 Hurst, while the advantage of surprise remained with him. Carrying a newly acquired, silencer-fitted 9-mm pistol, spare magazines of ammunition, three sharp knives, a police lock-release gun, and one piece of steaming luggage, Junior had arrived late the previous evening..efficiency of a nurse, but as a courtesan might perform the task: smiling enticingly, a flirtatious glimmer in.AFTER UNDERGOING TESTS for brain tumors or lesions, to ascertain whether his seizure of violent emesis might, in fact, have a physical cause, Junior was returned to his hospital room shortly before noon..The moon shimmered, and the stars blurred-but only briefly, for her devotion to this boy was a fiery furnace that tempered the steel of her spine and brought a drying heat to her eyes. Without Franklin Chan's full approval but with his complete understanding, Agnes took Barty home. On Monday, they would return to Hoag Hospital, where Barty would receive surgery on Tuesday..He closed his eyes again and seemed asleep, but then as she clicked off the lamp, he murmured, "You have your halo again..".Still relishing her little pretense of rejection, Victoria did not touch the rose. "What kind of woman do you think I am?".In August, he developed an interest in meditation. He began with concentrative meditation-the form called meditation "with seed"--in which you must close your eyes, mentally focus on a visualized object, and clear your mind of all else..It wasn't as if this was Junior's first encounter with a dead body. In the past few years, he'd become as comfortable with the deceased as any mortician might be. They were as unremarkable to him as cupcakes were to a baker..She nodded. And could not lift her gaze from her hands. Could not meet his eyes, afraid that his worry would feed her own, afraid also that the sight of his sympathy would shake loose her perilous grip on her emotions..Wild exhilaration burst through him like pyrotechnics blazing in a night sky, reminiscent of the rush of excitement that followed his bold action on the fire tower. Happily, Junior had no emotional connection to Prosser, as he'd had to beloved Naomi; therefore, the purity of his.Serving a formal dinner was Agnes's way of declaring-to herself more than to anyone else in attendance-that the time had come for her to get on with life for Bartholomew's sake, but also for her own..Unable to speak, the girl kissed her and then gently placed her head against Agnes's breast, capturing forever in memory the pure sound of her heart..Celebration of course, would lead to incarceration and perhaps to electrocution. With Vanadium, the maniac cop, likely to be found lurking under the bed or masquerading as a nurse to catch him in an unguarded moment, Junior had to recover at a pace that his physician would not find miraculous. Dr. Parkhurst expected to discharge him no sooner than the following morning..In bed, lights out, Junior marveled at his daredevil spirit. He never stopped surprising himself.. "What was it like, Enoch? Did you look into her eyes when you pushed her?" Vanadium's uninflected monologue was like the voice of a conscience that preferred to torture by droning rather than by nagging. "Or doesn't a woman-killing coward like you have the guts for that? ".As long as Junior continued to fake sleep, the cop couldn't be absolutely sure that any deception was taking place..The container-eye-level at the top, battered, rust-streaked, beaded with condensation-was larger than some in the alleyway, with a bifurcated lid. Both halves of the lid were already raised.. "Wouldn't live in the Caribbean if you paid me," Bill said. "All that humidity. All those bugs..". "You sounded as though you were in a lot of distress. You were frightened of this Bartholomew..".The paramedic snatched the oxygen feed from his patient's nose and quickly elevated his head, providing a purge towel to catch the thin ejecta..The verdant hills to the east lay like slumbering giants under blankets of winter grass, bright in the morning sun. But when the shadows of clouds sailed off the sea and gathered inland, the slopes darkened to a blackish green, as somber as shrouds, and a landscape that had appeared to be sleeping forms now looked dead and cold..Celestina was maneuvered aside as the surgical team began resuscitation procedures. Stunned, she backed away from the table until she encountered a wall. In southern California, as dawn of this new momentous day looms.excited, shrieking. Branch to branch, the flapping of wings is leathery, demonic. The only other sounds are the thud.He went directly to the kitchen and drew a glass of water at the sink faucet. He swallowed two antiemetic tablets that he had brought with him, to guard against vomiting..Had Kathleen Klerkle been a man, she would have enjoyed larger quarters in a newer building in a better part of town. She was more gentle and respectful of the patient's comfort than any male dentist Nolly had ever known, but prejudice hampered women in her profession.. "I guess so, but it's not that. I was thinking of something my little girl said..".squint-eyed, sharp-faced night clerk must not have been the owner, because he wasn't the type to have dreamed up cute spellings for the sign out front. Judging by his appearance and attitude, he was a former Nazi death-camp commandant who fled Brazil one step ahead of the Israeli secret service and was now hiding out in Oregon..Frequently, these days, she found herself explaining aspects of life to Barty that she hadn't expected to discuss for years to come. She wondered how she could make him understand this: Life can be so sweet, so full, that sometimes happiness is nearly as intense as anguish, and the pressure of it in the heart swells close to pain..Thunder less distant now. Around her-the crackle of police radios, the clang of tools being readied, the skirl of a stiffening wind. Dizzying, these sounds. She couldn't shut her ears against them, and when she closed her eyes, she felt as though she were spinning..No mystery here. No reason to leap to the ceiling and cling upside down like a frightened cartoon cat..He tucked his left arm tight against his side and threw himself against the door. The obstructing furniture was heavy, but it moved an inch. If it would give one inch, it would give two, so it wasn't immovable, and he was already as good as in there..An SFPD patrol car swept past, its siren silent, the rack of emergency beacons flashing on its roof..Too much had happened in those rooms. They were stained dark

with family history, and in the night, when either Edom or Jacob slept under that gabled roof, the past came alive again in dreams..He hit Celestina with the big question, the huge question, just as she paused in her babbling to suck in a deep breath, the better to spout even more nonsense, whereupon this panicky inhalation caught in her breast, caught so stubbornly that she was certain she would need the attention of paramedics to start breathing again, but then Wally popped open the box, revealing a lovely engagement ring, the sight of which made the trapped breath explode from her, and then she was breathing fine, although snuffling and crying and just generally a mess. "I love you, Wally.". While the horse and then the sheep grazed twelve months each, an H-bomb accidentally fell from a B-52 and was lost in the ocean, off Spain, for two months before being located. Mao Tse-tung launched his Cultural Revolution, killing thirty million people to improve Chinese society. James Meredith, civil rights activist, was wounded by gunfire during a march in Mississippi. In Chicago, Richard Speck murdered eight nurses in a row-house dormitory, and a month later, Charles Whitman limbed a tower at the University of Texas, from which he shot and killed twelve people. Arthritis forced Sandy Koufax, star pitcher for the Dodgers, to retire. Astronauts Grissom, White, and Chaffee died earthbound, in a flash fire that swept their Apollo spacecraft during a full-scale launch simulation. Among the noted who traded fame for eternity were Walt Disney, Spencer Tracy, saxophonist John Coltrane, writer Carson McCullers, Vivien Leigh, and Jayne Mansfield. Junior bought McCullers's The Heart Is a Lonely Hunter, and though he didn't doubt that she was a fine writer, her work proved to be too weird for his taste. During these years, the world was rattled by earthquakes, swept by hurricanes and typhoons, plagued by floods and droughts and politicians, ravaged by disease. And in Vietnam, hostilities were still underway.
