

CONTINENTAL DIVIDE

Frustrated on many levels, Junior hurried to a parking lot one block from the detective's office, where he'd left his new Chevrolet Impala convertible. This Chinese-red machine was even more beautiful when wet with rain than it had looked polished and pristine on the showroom floor. Junior considered leaving before Vanadium--still seventy-five yards away--arrived. He was afraid he would appear to be fleeing. "And," Joshua cautioned, "you better prepare for a long day. I'm pretty sure Dr. Chan will want to consult with an oncologist." No, impossible. He had killed Victoria almost a year and a half before this phone call. When you were dead, you were gone forever. When all were gathered on the porch, lined up across the head of the steps and along the railing, in chill damp air that smelled faintly of ozone and less faintly of jasmine, Barty said, "Mr. Vanadium, your quarter trick is really cool. But here's something out of Heinlein." During the past ten days, he'd proved that he was clever, bold, with exceptional inner resources. He needed to tap his deep well of strength and resolve now, more than ever. He'd been through far too much, accomplished too much, to be brought down by mere biology. Supposing that this new enthusiasm was an attempt to uncover skulduggery in Seraphim's accident, then the girl would be doing Junior a service even after her demise. Whether or not the traffic accident was an accident, Junior hadn't had anything to do with it. calm. He tried to imagine what Victoria's breasts would look like, freed from all restraint. EACH MOMENTOUS DAY, the work was done in memory of his mother. At Pie Lady Services, always, they sought new recipes and new ways to brighten the corner where they were. The voice continued, issuing from a device that stood on the desk beside the phone. "Please don't bang up. This is a telephone answering machine Leave a message after you hear the tone, and I will return your call later ". As the bitch began her backswing, Junior grabbed the chair. He didn't try to tear it out of her hands, but used it to shove her as hard as he could. "Was a priest," he corrected. "Might be again. At my request, I've been under a dispensation from vows and suspension from duties for twenty-seven years. Ever since those kids were killed." The musician's bird-sharp gaze grew dull. His pink tongue protruded from his mouth, like a half-eaten worm. "It's not a specific brand you can't have, it's the whole idea of a candy bar." All day, for reasons he couldn't quite put into words, Junior had carried that quarter in a pocket of his bathrobe. From time to time, he had taken it out to examine it. He looked up into the eyes of the stocky man with the birthmark. They were gray eyes, hard as nail heads, but clear and surprisingly beautiful in that otherwise unfortunate face. For the next few days, they would eat all their meals in the suite. Most likely, Cain had left San Francisco. And even if the killer hadn't fled, this was a big city, where a chance encounter with him was unlikely. Yet having, assumed the role of guardian, Tom Vanadium had a zero tolerance for risk, because the inimitable Mr. Cain had proved himself to be a master of the unlikely. Although Neddy had flushed to a rich primrose-pink, Junior still held his hand, crowding him, lowering his face even closer to the musician's. "If you vouched for a teacher, I'd feel confident that I was in good hands, but I'd still much rather learn from you, Neddy. I really wish you would reconsider." This morning he had changed the sheets. Naomi's scent was no longer with him in the bedclothes. Now Junior threw back the covers and sprang out of bed. In double briefs, he restlessly roamed the hotel room. Like all ICU waiting rooms, where Death sits patiently, smiling in anticipation, this lounge was clean but drab, and the utilitarian furnishings didn't pamper, as though bright colors and comfort might annoy the ascetic Reaper and motivate him to cut down more patients than otherwise he would have done. He sprang to his feet, or maybe only staggered up, depending on whether his image of himself right now was pulp or real, and surveyed the scene, looking for the bandaged man. A few neighbors crossed the lawn toward Grace, and others approached along the street. But the killer was gone. Considering his battered and stitched face, considering also his tragic and colorful history, Vanadium spoke with remarkably little drama. His voice was calm, nearly flat, rising and falling so little that he almost talked in a monotone. The boy's silvery giggles rang as merrily as sleigh bells, his Christmas spirit undampened. "Not between, Mommy. Nobody could do that. I just ran where the rain wasn't." He was unconscious, wired to a heart monitor, pierced by an intravenous-drip line. Clipped to his septum, an oxygen feed hissed faintly, and from his open mouth rose the barely audible wheeze of his breathing. As Barty climbed to the porch without benefit of the railing and held out his right hand, Paul Damascus said, "Tom, we're wondering if Barty can extend to you the protection he gives to Angel in the rain. Maybe he can ... since the three of you share this ... this awareness, this insight, or whatever you want to call it. But he won't know until he tries." A door slammed, and after the briefest of internal debates about whether to ize or act, Junior left Ichabod straddling the threshold. He must get to Celestina before she reached a telephone, and then he could come back and finish moving the body. Junior was tempted to experiment with the controls. Maybe other messages were recorded on the machine. Listening to them would be delicious--even if every one of them turned out to be as meaningless to him as Max's--a little like browsing through a stranger's diary. She was astonished and moved. "I'm a hopeless throwback to the nineteenth century. How could you realize what's been on my mind?" He raised the lower sash of the tall double-hung window and slipped quietly into the dark kitchen. Because the window served also as an emergency exit, it wasn't set above a counter, and ingress was easy. WHEN A GLASS OF chilled apple juice at dawn stayed on his stomach, Junior Cain was allowed a second glass, though he was admonished He was also given three saltines. Likewise, she wasn't prepared to deal with a monster like the father, if one day he came for Angel. And he would come. She knew. In these events as in all things, Celestina White glimpsed a pattern, complex and mysterious, and to the eye of an artist, the symmetry of the design required that one day the father would come. She wasn't prepared to deal with the creep now, but by the time that he arrived, she would be ready for him. His conscience as a craftsman would not let him fault the carpentry of the ship in any way; but his conscience as a wizard told him he could put a hex on her, a curse

woven right into her beams and hull. Surely that was using the secret art to a good end? For harm, yes, but only to harm the harmful. He did not talk to his teachers about it. If he was doing wrong, it was none of their fault and they would know nothing about it. He thought about it for a long time, working out how to do it, making the spell very carefully. It was the reversal of a finding charm: a losing charm, he called it to himself. The ship would float, and handle well, and steer, but she would never steer quite true..Junior's fear gave way to an appreciation for the irony in this situation. Gradually, he regained the ability to smile, tossed the coin in the air, caught it, and dropped it in his pocket..When Frieda finished retching and passed out in a heap, Junior left her on the floor and immediately set out to explore her rooms..Later, at home, after Agnes sent Edom back to his apartment, she opened a bottle of vodka that she had bought on the way back from Maria's. She mixed it with orange juice in a waterglass.. "I don't have to graduate in the spring of next year. I can take fewer classes, graduate the spring after. That's no big deal."..ANGEL WAS DRESSED in as much red as the devil himself: bright red shoes, red socks, red leggings, red skirt, red sweater, and a knee length red coat with a red hood..Airborne, Phimie complained of ringing in her ears, which might have been related to the flight. She also suffered an episode of double vision and, in the airport after landing, a nosebleed, which appeared to be related to her previous symptoms..Agnes was so weary, her eyes so sore and grainy, that even this soft radiance stung. She almost closed her eyes and gave herself to sleep again, that little brother of Death, which was now her only solace. What she saw in the lamplight, however, compelled her attention.. "Well, as years pass, they're going to be a financial burden, if nothing else, so I'm glad I've got a little surprise for you.".. "D'you have a bag?"..their work, tears were followed by reminiscences that brought a smile and soothed, and hope was always found to be the flower that bloomed from every seed of hopelessness..Sometimes, just the thought of getting in the car and venturing into the dangerous world was intolerable. Then he settled into his La-ZBoy and waited for the natural disaster that would soon scrub him off the earth as though he had never existed..Nolly liked to watch her hands while she worked. They were slim, graceful, the hands of an adolescent girl..They were as gracious as any people he had ever met, but they also seemed genuinely interested in his story. He wasn't surprised that..As she tucked the bedclothes around him again, she said, "Barty, I don't think you should let anyone else see how you can walk in the rain without getting wet. Not Edom and Jacob. Not anyone at all. And anything else special that you discover you can do ... we should keep it a secret between you and me."..Sheena Hackachak, at forty-four, was more beautiful than any current movie star. She looked twenty years younger than her true age, and she so resembled her late daughter that Junior felt a rush of erotic nostalgia at the sight of her..Some listings didn't include first names, only initials. Every time he came across the initial B, he put a red heck mark beside it with a fine point felt-tip pen..gob of mucus in his throat. His face contorted with a misery that he did not have to fake, and he was astonished to feel tears spring to his eyes..He ardently wished that he hadn't killed her with such merciful swiftness. If he'd tortured her first, he would now have the memory of her suffering from which to take consolation..Dinner was cooking in the upper of the two ovens. He switched the bottom oven, setting it at warm, and dropped open the door.. "But the breed is nervous, dear. With a nervous breed, you just never know, do you?.."Who is this?" he demanded, although for a demand, the words came out too thin, too squeaky..Stepping into her digs was like passing through a time machine into another century, traveling in space, as well, to the Europe of Louis XIV. The expansive, high-ceilinged rooms overwhelmed the eye with the rich somber colors and the heavy forms of Baroque art and furniture. Shells, acanthus leaves, volutes, garlands, and scrolls-often gilded decorated the museum-quality antique Bombay chests, chairs, tables, massive mirrors, cabinets, and etageres..Piano music drifted into the restaurant from the adjacent bar, so soft and yet sprightly that it made the clink of silverware seem like music, too..The cheerful tides of friends and neighbors, over the years, had washed away nearly all the stains that the dark rage of Agnes's father had impressed on these rooms. She hoped her brothers might eventually see that hatred and anger are only scars upon a beach, while love is the rolling surf that ceaselessly smooths the sand.. "Thank you, Nurse Bressler," he said most solemnly, matching her tone, barely able to control the urge to glance at her, smile, and give her another preview of his quick, pink tongue.. "I've always wanted to learn the piano myself," Junior claimed, "but I guess you really have to start young.".. "You'll do better away from the ships, all the fighting and raiding. The King's working the old mines at Samory, round the mountain. There you'd be out of his way. Work for him you must, if you want to stay alive. I'll see that you're sent there. If you'll go."..Frequently, these days, she found herself explaining aspects of life to Barty that she hadn't expected to discuss for years to come. She wondered how she could make him understand this: Life can be so sweet, so full, that sometimes happiness is nearly as intense as anguish, and the pressure of it in the heart swells close to pain..Even a cool day on the pie route could produce a good sweat by journey's end, because with the addition of the men to this ambitious project, they now not only made deliveries but also performed some chores that were a problem for the elderly or disabled..The one piece he had purchased was by a young Bay Area artist, Baval Poriferan, about whom art critics nationwide were in agreement: He was destined for a long and significant career. The sculpture had cost over nine thousand dollars, an extravagance for a man trying to live on the income of his hard-won and prudently invested fortune, but its presence in his living room immediately identified him, to cognoscenti, as a person of taste and cutting-edge sensibilities..Apparently Maria wished that she'd brought a rosary to dinner. With the fingers of her right hand, she pinched the knuckles of her left, one after the other, as if they were beads.. "This momentous day," Thomas Vanadium said quietly, stiff gazing into the grave, "seems full of terrible endings. But like every day, it's actually full of nothing but beginnings."..The sidewalks were crowded with businessmen in suits, hippies in flamboyant garb, groups of smartly attired suburban ladies in town to shop, and the usual forgettably dressed rabble, some smiling and some surly and some mumbling but as blank-eyed as mannequins, who might be hired assassins or poets, for all he knew, eccentric millionaires in mufti or carnival geeks who earned their living by

biting heads off live chickens..A fine carpenter can wield a hammer with an economy of movement and accuracy as elegant as the motions of a symphony conductor with a baton. A cop directing traffic can make a rough ballet out of the work. However, of all the humble tasks that men and women can transform into visual poetry by the application of athletic agility and grace, clambering into a Dumpster holds the least promise of beautification.. "Well, actually, I owe Phimie. It's what she said between her two deaths on the delivery table that's changed my life." He opened the solid doors on the bottom of the breakfront, did not find what he was looking for, checked in the sideboard next, and there it was, a small liquor supply. Scotch, gin, vodka. He selected a full bottle of vodka..The forger's crossed eyes glowed with reflected light from the screen. He licked his rubbery lips, and his prominent Adam's apple bobbed: "Like to drain my pipes in that Faye Dunaway, huh?". Celestina stared out for a moment, and then turned her head to look at Tom, with both the shade of the night and the sparkle of the metropolis still captured in her eyes. "What was that all about?". They hadn't been close to Naomi, who'd once said she felt like Romulus and Remus, raised by wolves, or like Tarzan if he'd fallen into the hands of nasty gorillas. To Junior, Naomi was Cinderella, sweet and good, and he was the love-struck prince who rescued her..Even in this soft light, Nolly could see that she was blushing like a young girl. She glanced around at the nearby tables..They introduced themselves as Knacker, Hisscus, and Nork, but Junior didn't bother to associate names with faces, partly because the men were so alike in appearance and manner that their own mothers might have had difficulty figuring out which of them to blame for never calling. Besides, he was still tired from his recent ramble through the hospital-and unnerved by the thought of some baleful-eyed Bartholomew prowling the world in search of him..A mere silhouette against the fluorescent glare, Vanadium stepped it the hall. The bright light seemed to enfold him. The detective shimmered and vanished the way that a mirage of a man, on a fiercely hot desert highway, will appear to walk out of this dimension into another, slipping between the tremulous curtains of heat as though they hang between realities..Shortly after nine-thirty in the morning, they landed in Eugene, and the cab driver who conveyed Junior to the town's largest shopping center spent more time staring at his afflicted passenger in the rearview mirror than he did watching the road. Junior got out of the taxi and paid through the driver's open window. The cabbie didn't even wait for his fiery-faced fare to turn completely away before he crossed himself.. "It's not scary," said Mary. "I just step into another place for a little, and then back. It's just like going from one room to the next. I can't get stuck over there or anything." She looked at Barty. "You know how it is, Dad." He surprised himself by sitting up in bed and shouting, "Shut up, shut up, shut up!". Embarrassed, cold, abruptly frightened, she returned to the Old West, where night on the low desert was warm. The campfire flickereded welcomingly. John Wayne put an arm around her and said, "There are no dead husbands or dead babies here," and though he intended only to reassure her, she was overcome by misery until Shirley MacLaine took her aside for some heart-to-heart girl talk. Agnes woke again and was no longer chilled, but feverish. Her lips were cracked, her tongue rough and dry.. "Sulk away," the man said. "If you don't like this work, there's always the roaster." Dr. Lipscomb inclined his head slightly toward the pianist, in the manner of a stem headmaster about to emphasize a lesson with a sharp twist of the offending boy's ear. "Miss White and the baby will have vacated these premises by the end of the week-unless you insist on bothering them with your chatter. For every minute you harass them, their departure will be extended one day." The restaurant wasn't fancy. A coffee shop. Aromatic bacon sizzling, eggs frying. The warm cinnamony smell of fresh pastries, the bracing scent of strong coffee. Clean, bright surroundings..He was, admittedly, surprised that Nurse Bressler was strongly compelled to come on to him even though she had read his patient file and knew that he'd recently been a veritable geyser of noxious spew, that during the violent seizure in the ambulance, he had also lost control of bladder and bowels, and that he might at any moment suffer an explosive relapse. This was a remarkable testament to the animal lust he inspired even without trying, to the powerful male magnetism that was as much a part of him as his thick blond hair..Odder yet, the pianist had studied him with a keen interest that was inexplicable, since they were essentially strangers. When caught staring, he'd appeared rattled, turning away quickly, eager to avoid further contact.. "Two weeks to go. I'm not going to miss that. I've cleared all appointments off my calendar." "So what I am is I'm your talking eyes." Lowering her hand from his face, Angel said, "Do you know where bacon comes from?". She told them of Phimie's request that the baby be named Angel. "At the time, I assumed she wasn't able to think clearly because of the stroke..From these ominous spatters, several fibers bristled, having stuck to the pewter when the drizzle was still wet. They appeared to be human hairs..Turning in Celestina's lap, Angel said, "Smell," and held the index finger of her right hand under her mother's nose..Tom Vanadium was no alarmist, and the most logical explanation came to him first. Paul had wanted to learn how to roll a quarter across his knuckles, and in spite of being dexterously challenged, he practiced hopefully from time to time. No doubt, he had sat at the table this morning--or even last evening, before bed-dropping the coin repeatedly, until he exhausted his patience..His throat was still so raw from the explosive vomiting, seared by stomach acid, that he sounded like a character from a puppet show for children on Saturday-morning television, hoarse and squeaky at the same time. If not for the pain, he would have felt ridiculous, but the hot and jagged scrape of each word through his throat left him unable to. "Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." So runs the water away, away.. "There's no clear evidence of birth defects, but a couple tests reveal some worrisome anomalies. We'll know when we see the child." Barty turned away from her, surveyed the kitchen, and said, "Ah. The twisty is me." To celebrate, Junior went to a gallery and purchased the second piece of art in his collection. Not sculpture this time: a painting..Had Junior been chest-deep in wet concrete, he would have been more mobile than he was now. He had no feeling in his legs..Even without the dangling cigarette and without the cynical sneer, Nolly had an air of toughness worthy of Sam Spade, largely because

the face that nature had given him was a splendid disguise for the sentimental sweetie who lived behind it. With his bull neck, with his strong hands, with his shirt-sleeves rolled up to expose his lovely hairy forearms, he made a properly intimidating impression: as if Humphrey Bogart, Sydney Greenstreet, and Peter Lorre had been put in a blender and then poured into one suit. They agreed that to the outside world, Barty must continue to appear to be a sightless man-or otherwise either be treated like a freak or be subjected, perhaps unwillingly, to experimentation. In the modern world, there was no tolerance for miracles. Only family could be told of this development. After she flushed, Angel stood on a stepstool and washed her hands at the sink. Phemie's eyes widened, her hand tightened painfully on her sister's hand, her entire body convulsed, thrashed, and she cried, "Unnn, unnn, unnn!" By the time all the details of mortuary and cemetery services were settled, Walter Panglo had a nervous tic in his left cheek. His eyes were open wide, as if he'd been so startled that his lids froze in a position of ascension, locked by a spasm of surprise. His hands must have grown clammy; he blotted them repeatedly on his suit. At the head of the line, Paul waved a red handkerchief out of the window of the station wagon. As though the blush were transmitted by a virus, Junior caught the primrose-pink contagion from the pianist. No one seemed to realize that predicting the future might not be a suitable entertainment in this house, at this time, considering that Agnes had so recently and horribly been blindsided by fate. "No. Just tricks. Turn a leaf to a gold piece. Seemingly." Neddy favored a quick greeting, two curt pumps, but Junior held fast after the handshake was over. He didn't grind the musician's knuckles, nothing so crude, just held on pleasantly but firmly. His intention was to confuse and further rattle the man, taking advantage of his obvious dislike of having his personal space encroached upon, in the hope that Neddy would reveal why he'd been watching Junior so intently from across the room. "Could you throw an Oreo someplace you weren't blind or maybe someplace Wally wasn't shot?" The gunshot was louder-and the pain initially less-than he expected. Timpani-boom, timpani-boom, the explosion echoed back and forth through the high-ceilinged apartment. "Maybe it's not where the heart is," Wally corrected himself. "Maybe it's where the buffalo roam." It occurred to her that the knave had come, as foretold by the cards on that night long ago. She had expected the knave to be a man with sharp eyes and a wicked heart, but the curse was cancer and not a man at all. Junior closed his weary eyes and gratefully submitted as the paramedic wiped his greasy face and his crusted lips with a cool, damp cloth. Junior was aware that all the cops were watching him as he stared down at the body, and he frantically tried to think what an innocent husband would be likely to do or say, but his imagination failed him. His thoughts could not be organized. The young man raised his voice to be heard above the gobbling of the art turkeys. "No, sir. He just asked where the men's room was." He visited the bank in which he maintained a safe-deposit box under the John Pinchbeck identity. He withdrew the twenty thousand in cash and retrieved all the forged documents from the box. Junior reached the window seat and stared down at her. "I don't believe that's true." In the front wall of the living room, where once had been a fine bay window, the parsonage lay open to the sunny day. Tom shrubbery, carried in from outside, marked the path of destruction. In the very middle of the room, plowed against a toppled sofa and a thick drift of broken furniture, a battered red Pontiac sagged to the left on broken springs and blown tires. A portion of the crazed windshield quivered and collapsed inward, while plumes of steam hissed from under the buckled hood. Junior had no idea who the driver of the Buick might be, but he hated the tall lanky son of a bitch because he figured the guy was humping Celestina, who would never have humped anyone but Junior if she had met him first, because like her sister, like all women, she would find him irresistible. He felt that he had a prior claim on her because of his relationship to the family; he was the father of her sister's bastard boy, after all, which made him their blood by shared--progeny. Sunday, Junior hid out from Scamp, using his Ansaphone to screen her calls, and worked with such astonishing focus on his needlepoint pillows that he forgot to go to bed that night. He fell asleep over his needles at ten o'clock Monday morning. "That's exactly how I hoped he would be." Relieved, he followed Agnes to the living room. "Listen, Aggie, you know, I don't have anything against Jacob, but-". With a portion of his profits from Tammy Bean's stock picks, Junior had bought a second painting by Sklent. Titled *In the Baby's Brain Lies the Parasite of Doom, Version 6*, it was so exquisitely repellent that the artist's genius could not be in doubt. He had not yet disposed of her personal effects. In the dark, he went to the dresser, opened a drawer, and found a cotton sweater that she had worn recently. "This meeting of the North Pole Society of Not Evil Adventurers is officially closed." Without a word, Joshua Nunn and the paramedic retreated to the foyer. The parlor doors slid shut. After prying Junior out of the meditative position, Chicane pushed him onto his back and vigorously--indeed, violently--massaged his thighs and calves. "Really bad muscle spasms," he explained. When Junior checked his Rolex, he realized that he didn't know how long he'd been sitting here since Ichabod had driven off in the Buick. Maybe one minute, maybe ten. When he located the new grave, approximately where he'd guessed that it would be, he was surprised to find a black granite headstone already set in place, instead of a temporary marker painted with the. Thereafter, he was repelled at the prospect of kissing her, and their relationship fell apart. Barty's math and reading skills exceeded those of most eighteen year-olds, but regardless of his brilliance, he was a few days shy of his third birthday. Prodigies were not necessarily as emotionally mature as they were intellectually developed, but Barty listened with sober attention, asked questions, and then sat in silence, staring at the book in his hands, with neither tears nor apparent fear. AFTER THE ENCOUNTER with the quarter-spitting vending machines, Junior wanted to kill another Bartholomew, any Bartholomew, even if he had to drive to some far suburb like Terra Linda to do it, even if he had to drive farther and stay overnight in a Holiday Inn and eat steam-table food off a buffet crawling with other diners' cold germs and garnished with their loose hairs. The January air was crisp, fragrant with evergreens and with the faint salty scent of the distant sea. A curiously yellow moon glowered like a malevolent eye, studying him from between ragged ravelings of dirty clouds. On this chilly January night, no campers or fishermen had staked claims along the lake. Because the trees were far enough back to be lost in

the night, the immediate shore and the pooled blackness that it encircled appeared as desolate as any landscape on a world without an atmosphere.
