Alexander Korda's 1940 Thief doubles that in spades (the giant flying genie is just one of many), plus it has monumentally lavish sets. Even the Steve Reeves version seems to have been made with more care and wit than the rest of Mr. Reeves' spaghetti spectaculars, containing some good film magic of its own and a resounding score with one of those epic romantic themes (based, it must be said, on a theme from the Rozsa music for Korda)..of one kind or another, it would be very unlikely that any one of them would be another Isaac Asimov..,part delight, part fear..advice, maybe more than we want, but any rescue is out of the question."..Sirocco sighed. But since Swyley himself didn't understand how he did it, he was unable to explain it to the systems programmers, who had hoped to duplicate his feats with their image-analysis programs. That had been when the "-sits" and the "-zoologists' began their endless batteries of fruitless tests. Eventually Swyley made up plausible-sounding explanations for the benefit of the specialists, but these were exposed when the programs written to their specifications failed to work. Then Swyley began claiming that his mysterious gift had suddenly deserted him completely..complain, but I could tell he was wantin' company to take his mind off it We played gin

It was Luther Nakamura, and he was not moving. Worse, he was only half suited. Pragmatically she should have left him and moved on to save the ones who still had a chance. Perhaps he should have persuaded Sirocco not to endorse the request. On the other hand, if anything recommended by Sirocco was inverted to start with, and if Pendrey was crazy but normal by the Army's standards, and if the premises that Pendrey was working with were also crazy, then the decision might come out in Colman's favor after all.
