"He lay as if dead, cold, his heart not beating, yet he breathed. The Herbal used all his art, but could not rouse him. "He is dead," he said. "The breath will not leave him, but he is dead." So we mourned him. Then, because here was dismay among us, and all my patterns spoke of change and danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set the young king in the Summoner's place. To us it seemed right that he should sit among us. Only the Changer spoke against it at first, and then agreed. thirties, with a blunt face and a pleasant look, dressed plain, though the cob that stood behind. "I said you have a strength in you, a great one," the witch said from the darkness. "And you know." And what was I supposed to feel? King Maharion sought peace and never found it. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe returned, the Great Dragon Orm flew to the City of Havnor and threatened the towers of the king's palace with fire. She never went into the Grove without him, and it was many days before he left her alone within it. But one hot afternoon when they came to a glade among a stand of oaks, he said, "I will come back here, eh?" and walked off with his quick, silent step, lost almost at once in the dappled, shifting depths of the forest. "Well, take care. I saw the fox on the full-moon night," Dulse said, and went on his way. early summer afternoons. Crow only sighed. Otter, after a long silence, said, "Roke Island." divided land. The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. By force of arms and diplomatic maneuvering, the House of Hupun within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had been more than two hundred. Crafty men used weather as a weapon, sending hail to blight an enemy's crops or a gale to sink his ships; and such storms, freakish and wild, might blow on far past the place they had been sent, troubling harvesters or sailors a hundred miles away. called him Songsparrow and Skylark, among other loving names, for she never really did like. She had never seen where he lived. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money. He wasn't sure whether he had summoned her or she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him or through him. He didn't know what he was doing, or what she was doing, and he was almost certain that the working of any spell would rouse Gelluk. But at last, rashly, and in dread, for such spells were a mere rumor among those who had taught him his sorcery, he summoned the woman in the stone tower. "Speed the work," he said gravely. of rock and earth. It was as if he walked in a great building, seeing its passages and rooms, the. "Why would you come to the Marsh?" she asked. He sat up. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again. "Edran," said the Namer promptly, and laughed. "Drake. He reached out towards Yaved, towards the ache, the suffering. As he came closer to it he felt a great strength flow into him from the west, as if Silence had taken him by the hand after all. Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell him I wasn't coming back, he thought, his last words in Hardic, his last grief, for he was in the bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold fast. So, there. They were sitting side by side again outside the barracks. The autumn sun was warm. The wizard had taken off his conical hat, and his thick grey hair flowed loose about his face. "I know you found that little patch for them to dig, but there's no more in that than a few drops. It's scarcely worth burning for so little. Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. But Heleth was shaking his head: "No," he said, "no time. Not your kind of thing." He was more and more distracted by whatever it was he sensed in the earth or air, and through him Ogion felt that gathering, intolerable tension. Another pause. Golden glanced over at his wife, who stood by the window listening in silence. Then he looked at his son. Slowly the mixture of anger, disappointment, confusion, and respect on his face gave way to something simpler, a look of complicity, very nearly a wink. "I see," he said. "And what did you decide you want?" With age Hound had come to look his name, wrinkled, with a long nose and sad eyes. He sniffed and seemed about to say he did not know, but he knew better than to try to lie to Early. He sighed. "Otter," he said. "Him that killed old Whiteface." Since the coronation of King Lebannen and the restoration of the High Courts

and Councils in Havnor Great Port, Roke has remained without an archmage. It appears that this office, not originally part of the governance of the school or of the Archipelago, is no longer useful or appropriate, and that Ged, whom many call the greatest of the arch-mages, may have been the last..bestiary in the barn loft... And.If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? With the men.What they had they shared. In that it was indeed Morred's Isle. Nobody on Roke starved or went unhoused, though nobody had much more than they needed. Hidden from the rest of the world not only by sea and storm but by their defenses that disguised the island and sent ships astray, they worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they had books, the Chronicles of Enlad and the History of the Wise Heroes. From these precious books the old men and women would read aloud in a hall down by the wharf where the fisherwomen made and mended their nets. There was a hearth there, and they would light the fire. People came even from farms across the island to hear the histories read, listening in silence, intent.
