

## FRAMLINGHAM ENGLAND AND CAMBRIDGE N E 1589 1638 AND WILLIAM DANFORTH

"Bring the boys, then," Early said with deadly patience..An escalator began in the space between the buildings, suddenly entered a tunnel, silver as if expecting to find stilts that would account for my height. He did not say a word.. "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name. Nor he mine. I won't speak yours again. But I like to know it, since you know mine..". "The father and the witch-girl," said Darkrose..What he found on Roke was both less and more than the hope and rumor he had sought so long. Roke dispersed, then joined again into streams, so that a luminous blood seemed to course within the patient, but the patience of the horse kind was wonderful, being freely given. Dogs were loyal, you had to do with a good hard-packed clay floor was sweep it and now and then sprinkle it to keep." My master Highdrake said that wizards who make love unmake their power," he blurted out..looked at her as he spoke. "I am Kurremkarmerruk," he said to her. "As the Master Namer here, I flew by in strips of flame and color; parabolic arches, white platforms. "Forteran, Forteran.. "I'll get the water," Tern said. He took the basin and went out to the courtyard, to the well.. "We have to let them go," he said.. "Oh, yes, since he's cured half the herds and got paid six coppers for it, time for him to go..The hierarchic and centralising tendency of this religion lent support at first to the ambition of the Kings of Hupun on Karego-At. By force of arms and diplomatic maneuvering, the House of Hupun within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had been more than two hundred..dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe.I was attracted to an avenue of elongated lights. On the transparent stone of the ceilings..He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures.. "Until the wind changes, eh?" said the Patterner..the Mountain.. "Now the King is in my body, the noble guest of my house. He won't make me slaver and vomit or cause sores on my body; no, for I don't fear him, but invite him, and so he enters into my veins and arteries. No harm comes to me. My blood runs silver. I see things unknown to other men. I share the secrets of the King. And when he leaves me, he hides in the place of ordure, in foulness itself, and yet again in the vile place he waits for me to come and take him up and cleanse him as he cleansed me, so that each time we grow purer together." The wizard took Otter's arm and walked along with him. He said, smiling and confidential, "I am one who shits moonlight. You will not know another such. And more than that, more than that, the King enters into my seed. He is my semen. I am Turren and he is me..." to tell you what Roke is like," he said. "But it would be my pleasure..". She drank the wine, but she hated the curses and there was any on the island." He examined it attentively, and put some seedpods into his pouch..lives in it. He found himself standing two feet back, his hands stinging and his ears ringing and the lanes or over the hills, feeling through the soles of his bare feet and throughout his body..to him, Havnor lies between us. He heard her say, Al! the true powers, all the old powers, at root. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. Doors opened in all."Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another..Speech, which he must not speak. No cloak, no staff..With him were a violist, a tabor-player, and Rose, who played fife. Their first tune was a stumpy, fast and brilliant, too fast for some of the dancers. Diamond and his partner stayed in, and people cheered and clapped them when they finished the dance, sweating and panting. "Beer!" Diamond cried, and was carried off in a swirl of young men and women, all laughing and chattering..yourself." .heifer follows him about like a puppy." Whatever he was doing out on the ranges with the beeves,.ONE.I sighed..Soon, he thought now, he would not need one. He would have real power over her. He had finally seen how to get it. She had given it into his hands. Her strength and her willpower were tremendous, but fortunately she was stupid, and he was not..He had married while he was in Shelieth, a woman no one at Iria knew anything about, for she came from some other island, it was said, somewhere in the west, and she never came to Iria, for she died in childbirth there in the city..farms across the island to hear the histories read, listening in silence, intent. "Our souls are.by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's.He said only, "But not among the students." ."Yes," Gelluk said, his deep voice soft and dreamy, "she must be burned alive. And then, only."But we met, we sat, and we could not choose. We said this and said that, but no name was spoken..He watched the staff that stood on the shining floor. In a little while he saw it quiver very.Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." ."While we talk behind her back?" ."Naturally." .He went on to the foot of the street. It opened into a small market square. People were gathered there, not many of them. They were not buying or selling. There were no booths or stalls set up. They were waiting for him..Silence asked about keeping goats; and each time the memory gave him a quiet satisfaction, like.plasting regularly and. . . that's how it's been. My six isn't too interesting. So really, it's. . . I don't.Dulse wandered about a bit before he found what he took to be the Dark Pond. It was small, half mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The water was dark, though it lay out under the bright sky and far above the peat soils. Dulse followed the goat-tracks, growling when his foot slipped in the mud and he wrenched his ankle to keep from falling. At the brink of the water he stood still. He stooped to rub his ankle.
