Two minutes; they could have tied a string to the leg of a frog and sent him down to do the searching. Three minutes; there was not a bubble on the water, and Amos surprised himself by deciding the only thing to do was to jump in and at least try to save the prince. The display showed the target command bunker at the bottom of the gorge, known enemy weapons emplacements as computed from backplots of radar-tracked shell trajectories, and the locations of observation and fire command posts from source analysis triangulations of stray reflections from control lasers. "It seems that as individuals we can only stand by as helpless observers and watch the events that are sweeping us onward collectively. The situation is complicated further by the emergence and rapid economic and military growth of the-Chinese-Japanese Co-Prosperity Sphere, which threatens to confront Moscow with an unassailable power bloc should it come to align with ourselves and the Europeans. More than a few Kremlin analysts must see their least risky gamble as a final resolution with the West now, before such an alliance has time to consolidate.
