

## DIE GEDANKENPOLIZEI

Bright though they were at all times, Barty's Tiffany eyes shone brighter now with beams of North Pole magic. "Maybe I do feel it." On a morning in July, Junior was visiting the public library, poring through the stacks in search of exotic volumes on the occult, when the phantom voice rose nearby. Here, the singing sounded softer than in his apartment, little more than a murmur, and also threadier. Instead, she saw Phimie reborn. She saw, as well, a child endangered. Somewhere out there was a rapist capable of extreme cruelty and violence, a man who would--if Phimie was correct--react unpredictably if ever he learned of his. Posing as a counselor with Catholic Family Services, he phoned each listed Bartholomew, with a question related to his or her recent adoption. Those who expressed bafflement, and who claimed not to have adopted a child, were generally stricken from his list. "Yes. Sodium chloride will work, too. Common salt. Mix enough of it with water, and it's generally effective." too quiet and too patient to be the living-dead incarnation of a murdered wife. This was a predatory silence, an animal cunning, not a supernatural hush. This was the elegant stillness of a panther in the brush. Junior had heard of this invention, but until now he'd never seen one. He supposed that an obsessive like Vanadium might go to any lengths, including this exotic technology, to avoid missing an important call. "I'll do your share of the housework for a month. If I'm closer to the date, you clean up all my pie-baking and other kitchen messes for a month--the bowls and pans and mixers, everything." The minister's threat had been forgotten, repressed. At the time, only half--heard, merely kinky background to lovemaking, these words had amused Junior, and he'd given no serious thought to their meaning, to the message of retribution contained in them. Now, in this moment of extreme danger, the inflamed boil of repressed memory burst under pressure, and Junior was shocked, stunned, to realize that the minister had put a curse on him! On January 1, 1966, five days before Barty's first birthday, Agnes discovered him, in his playpen, engaged in unusual toe play. He wasn't simply, randomly tickling or tugging on his toes. Between thumb and forefinger, he firmly pinched the little piggy on his left foot, and then one by one pinched his way to the biggest toe. His attention shifted to his right foot, on which he first pinched the big toe before systematically working down to the smallest. AS THE WULFSTAN PARTY was being seated at a window table, slowly tumbling masses of cottony fog rolled across the black water, as if the bay had awakened and, rising from its bed, had tossed off great mounds of sheets and blankets. He might not have this future-living thing down perfectly, but he was absolutely terrific at anger. Every distorted shape, every smear of color, every swath of light and shudder of shadows resisted her attempts to relate them to the world she knew, as if shimmering before her were the landscape of a dream. People like Enoch Cain, of course, never choose between the right and the wrong thing, but between two evils. For themselves, they create world after world of despair. For others, they make worlds of pain. Elsewhere in the cemetery, about 150 yards away, another interment service--with a much larger group of mourners--had begun prior to this one for Naomi. Now it was over, and the people were dispersing to their cars. Apparently Maria wished that she'd brought a rosary to dinner. With the fingers of her right hand, she pinched the knuckles of her left, one after the other, as if they were beads. being careful to place the point of impact precisely where the bottle had struck her. "I doubted myself more than God, though Him, too. I had those boys' blood on my hands. They were mine to protect, and I failed." The two bereaved women huddled at one end of the living room, tearful, touching, talking quietly, wondering together if there was any way that each could help the other to fill this sudden, deep, and terrible hole in their lives. The narrow brick-paved serviceway lay five feet below. The maniac had knocked over trash cans while making his escape, but he wasn't tumbled among the rest of the garbage. After all he'd suffered at Cain's hands, Tom Vanadium surprised himself by laughing at these colorful accounts of the wife killer's misadventures. Indeed, laughter had seemed disrespectful to the memories of Victoria Bressler and Naomi, and Vanadium had been torn between a desire to hear more and a feeling that finding any amusement value in a man like Cain would leave a stain on the soul that no amount of penance could scrub away. "I can do this with just a very little Novocain," she said, "so your mouth won't be numb for dinner." Her father respected and admired Tom, so she was thankful for his presence. And anyone who could survive whatever catastrophe had left him with this cubistic face was a man she wanted on her team in a crisis. Sudden rain spared her the need to finish the sentence. A few fat drops drew both their faces to the sky, and even as they rose to their feet, this brief light paradiddle of sprinkles gave way to a serious drumming. In a rocking chair, holding her tiny son in her arms, Agnes cried quietly. Often, Barty slept through her weeping. Awakened, he smiled or squinched his face into a puzzled frown. In his light backpack, he carried one change of clothes, spare socks, candy bars, bottled water. He planned his journeys to be in a town every nightfall, where he washed one set of clothes and donned the other. In the first two weeks, when she wasn't on pie caravans, Agnes received guests in numbers that taxed her. But there were so many people she wanted to see one last time. She fought hard, giving the disease all the what-for that she could, and she held fast to hope, but she received the visitors nonetheless, just in case. Dusk had arrived, strangling the day, and the throttled sky hung low, as blue-black as bruises. The streetlights had come on. Gouts of red light from pulsing emergency beacons alchemized the rain from teardrops into showers of blood. "He came through the surgery well. He'll be in post-op for a while, then brought here to the ICU. His condition's critical, but there are degrees of critical, and I believe we'll be able to upgrade him to serious long before this day is over. He's going to make it." Maybe he went a little crazy then. He wouldn't deny a brief, transient madness. He was able to play peekaboo in his fifth month instead of his eighth, stand while holding on to something in his sixth instead of eighth. Devil mountains, sacred islands, sacramental rivers and cities, Jesuits: These spiritual references at every turn made Junior uneasy. This was a haunted night, no doubt about that. He wouldn't have been greatly surprised if he had glanced at his rearview mirror and seen

Thomas Vanadium's blue Studebaker Lark Regal closely tailing him, not the real car raised from Quarry Lake, but a ghostly version, with the filthy-scabby-monkey spirit of the cop at the wheel, an ectoplasmic Naomi at his side, Victoria Bressler and Ichabod and Bartholomew Prosser and Neddy Gnathic in the backseat: the Studebaker packed full of spirits like a bozo-stuffed clown car in a circus, though there would be nothing funny about these revenge-minded spooks when the doors flew open and they came tumbling out..Confused, Panglo held out his right hand, but Jacob said, "Sorry, no offense, but I don't shake with anyone.".The two women stared at each other, and at last Celestina said, "Good Lord, what's happening here?".THE RAIN THAT HAD threatened to wash out the morning funeral finally rinsed the afternoon, but by nightfall the Oregon sky was clean and dry. From horizon to horizon spread an infinity of icy stars, and at the center of them hung a bright sickle moon as silver as steel..Even when he saw no cop cadaver, no ghoulish grin, no two-bit eyes, Junior was not immediately relieved. Warily, he circled the car, expecting to find the detective crouching and poised to spring..The two men introduced themselves. The physician was Dr. Jim Parkhurst. His manner was easy and affable, and his soothing voice, either by nature or by calculation, was as healing as balm.. "Now, I'm doubtless," Vanadium said, his voice returning to the uninflected drone that Junior had come to loathe but that he now preferred to the unsettling voice of quiet passion. "No matter what the situation, no matter how knotty the question, I always know what to do..The sight of her sister's blood and the persistence of the flow made Celestina weak with apprehension. She was afraid she had done the wrong thing by delaying hospitalization..The ninth piece was not art, certainly not a work by Griskin, and could disturb no one half as much as it rattled Junior. Upon a black pedestal stood a pewter candlestick identical to the one that had cracked the skull of Thomas Vanadium and had added dimension to the cop's previously pan-flat face..He supposed Victoria might have a visitor. Perhaps a relative or a girlfriend. Not a man. No. She knew who her man was, and she would have no other while she waited for the chance to surrender to him and to consummate the relationship that had begun with the spoon and the ice in the hospital ten days previously.. "Your mother's wise," Paul said. "More than all the owls in the world," the boy agreed.. "Water can break?" Maria asked, looking toward the faucet at the kitchen sink. She sighed. "I have so much to be learned..".Junior and Naomi had taken their dried apricots from the same bag. Reached in the bag without looking. Shook them out into the palms of their hands. She could not have controlled which pieces of fruit he received and which she ate..During Barty's hospitalization, they had graduated from the young adult novels by Robert Heinlein to some of the same author's science fiction for general audiences. Now, pajamaed and in bed, with his sunglasses on the nightstand but his padded eye patches still in place, Barty listened, rapt, to the beginning of Double Star.A floor-to-ceiling bookshelf was crammed with pulp magazines that had been published throughout the 1920s, '30s, and '40s, before paperback books supplanted them. The All-Story, Mammoth Adventure, Nickel Western, The Black Mask, Detective Fiction Weekly, Spicy Mystery, Weird Tales, Amazing Stories, Astounding Stories, The Shadow, Doc Savage, G-8 and His Battle Aces, Mysterious Wu Fang ....According to the cards, Barty would be rich financially, but also in talent, spirit, intellect. Rich in courage and honor, Maria promised. With a wealth of common sense, good judgment, and luck.. "Well," Tom said, "those people who think it's just a trick generally react bigger than you folks, and you know it's real..". "Tom, Wally, I'm sorry for the brusque introductions," Agnes Lampion apologized. "We'll have plenty of getting-to-know-each other time over dinner. But the people in this room have been waiting an entire week to hear from you, Tom. We can't wait a moment longer..".Fortunately, he recognized his vulnerability. Until the evening reception for Celestina White, he must spend every hour of the day in calming activities, soothing himself in order to ensure that he would be cool and effective when the time came to act..During the course of this momentous day, he had employed Zedd learned techniques to channel his hot anger into a red-hot rage. Now, without any conscious effort on his part, rage grew into molten-white fury..He must begin by learning as much as possible about ghosts, hauntings, and the vengeance of the dead. During the remainder of 1966, only two apparently paranormal events occurred in Junior Cain's life, the first on Wednesday, October 5..Sparky Vox-with less training in theology and philosophy than his guest, but with a spiritual insight that any overeducated Jesuit would have to admire, even if grudgingly-had settled Vanadium's uneasy conscience. "The problem with movies and books is they make evil look glamorous, exciting, when it's no such thing. It's boring and it's depressing and it's stupid. Criminals are all after cheap thrills and easy money, and when they get them, all they want is more of the same, over and over. They're shallow, empty, boring people who couldn't give you five minutes of interesting conversation if you had the piss-poor luck to be at a party full of them. Maybe some can be monkey-clever some of the time, but they aren't hardly ever smart. God must surely want us to laugh at these fools, because if we don't laugh at 'em, then one way or another, we give 'em respect. If you don't mock a bastard like Cain, if you fear him too much or even if you just look at him in an all-solemn sort of way, then you're paying him more respect than I ever intend to. Another glass of wine?".Evidently, either Frank Sinatra was an enthusiasm that Victoria and the detective shared, or the nurse purchased some of the crooner's records expressly for their dinner engagement..No. Not exactly then. Not at the sight of the coin or the detective. He had felt this way at Vanadium's mention of the name that he, Junior, had supposedly spoken in his nightmare..Having used his body as a clapper in the bell of the Dumpster, Junior had struck a loud reverberant note that tolled like a poorly cast cathedral bell, echoing solemnly off the walls of the flanking buildings, back and forth through the fogbound night..Gazing into the mirror, which ought to have been clouded with self-pity as though with steam, Junior Cain searched for his anger and found it. This was a black and bitter anger, as poisonous as rattlesnake venom; with little difficulty, his heart was distilling it into purest rage..By mid-March, he had exhausted the possibilities of Bartholomew as a surname. By the time that he shot himself in September, he had combed through the first quarter million listings in the directory in search of those whose first names were Bartholomew..The guest room. Bring Grace to the window. Disengage the latch. No good. Warped or painted shut. Small

panes, sturdy mullions too difficult to break out..Having anticipated a problem of one kind or another, Junior withdrew a packet of crisp new hundred-dollar bills from an inside jacket pocket. The bank band still wrapped the stack, and on it was printed \$10,000.. "I didn't know it myself till I realized I was right in your neighborhood. I assumed your mother and Angel would be here, and I hoped you might be. If I'm intruding-". "Come with me," Paul Damascus said at once. "To Bright Beach. It is far away from San Francisco, and he'd never think of looking for you there. Why would he? You've no connection to the place. I've got a house with enough room. You're welcome. And you wouldn't be among strangers." "Why? What was he going to get out of it?" Junior's throat wasn't half as sore as it had been the previous afternoon, and to these men, his soft, coarse voice must have sounded not abraded, but raw with emotion. "I don't care what's customary. I don't want anything. I don't blame anyone. These things happen. If you have a liability release with you, I'll sign it right now." "December 1, 1958, in Chicago, Illinois, a parochial-school fire killed ninety-five." "Let's roll 'em. out," Paul said, and he returned to the station wagon to ride shotgun beside Agnes..During the past week, Junior had undertaken quiet background research on the prestidigitator with a badge. The cop was unmarried. He lived alone, so this bold visit entailed no risk..At Thanksgiving dinner, again at the three tables set end to end, in the year of the triple zero, Mary Lampion, now fourteen years old, made an interesting announcement over the pumpkin pie. In her travels where none but she could go, after seven fascinating years of exploring a fraction of all the infinite worlds, she said she sensed beyond doubt that, as Barty's mother had told him on her deathbed, there is one special place beyond all the ways things are, one shining place.. "D'you have a bag?" Police identified Junior as the prime suspect, and newspapers featured his photograph in most stories. They referred to him as "handsome," "dashing," "a man with movie-star good looks." He was said to be well known in San Francisco's avant-garde arts community. He got a thrill when he discovered that Sklent was quoted as calling him "a charismatic figure, a deep thinker, a man -with exquisite artistic taste .... so clever he could get away with murder as easily as anyone else might get away with double-parking. " "It's people like him," Sklent continued, "who confirm the view of the world that informs my painting." He paid cash to the locksmith, and included in the payment were the two dimes and the nickel Vanadium had left on his nightstand..Hard experience had taught him, however, that killing someone he knew, while occasionally necessary, didn't release stress. Or if it did briefly release stress, then unforeseen consequences always contributed to even worse future stress.. "Ah, evidently you can read my mind. Scarier than heart reading any day. Maybe there's a thin line between minister's daughter and witch." A sofa and one armchair provided the seating in the living room. No coffee table. A small table beside the chair. A wall unit held a fine stereo system and a few hundred record albums..Bob gently encouraged him to return by degrees from the deep meditative state, return, return, return.....Besides, being a future-focused guy who believed that the past was a burden best shed, he never made an effort to nurture memories. Sentimental wallowing in nostalgia had none of the appeal for him that it had for most people..Reverend White's polished, somewhat theatrical, yet sincere voice rose out of the past to issue this threat in Junior's memory as he had issued it that night, from a tape recorder, while Junior had been dancing a sweaty horizontal boogie with Seraphim in her parsonage bedroom..He moved from a crib to a bed of his own, with guardrails, months ahead of the average toddler. Within a week, he requested that the rails be left down..Fragments of the broken wineglass crunched under his shoes as he crossed the small kitchen to the dinette. He opened the bottle of vodka and put it on the table in front of the dead woman..She got a can of soda, returned to the table, and sat down as if finished with her explorations. "You're okay, Barty." During the ten days since Joey's passing, a great many people had conveyed their condolences to Agnes, but until this man, she'd known all of them..Alarmed, concerned that his patient's emotional reaction would lead to racking sobs, which in turn might stimulate abdominal spasms and renewed vomiting, Parkhurst called for a nurse and prescribed the immediate administration of diazepam..Similarities between Naomi and her mom- ended with appearances. Sheena was loud, crass, self-absorbed, and had the vocabulary of a brothel owner specializing in service to sailors with Tourette's syndrome..When he was baking, the world seemed to be a less dangerous place. Sometimes, making a cake, he forgot to be afraid..For a while, Junior half convinced himself that the quarter in his cheeseburger, in December '65, was a meaningless coincidence, unrelated to Vanadium. His short tour of the kitchen, in search of the perpetrator, had given him reason to believe the diner's sanitary standards were inadequate. Recalling the greasy men on that culinary death squad, he knew that he'd been fortunate not to discover a dead rodent spread-eagle on the melted cheese, or an old sock..Almost thirty years from the seminary--even farther from it if measured by degrees of lost innocence, by miles of rough experience Tom Vanadium set out to kill a man. Given the chance to disarm Cain, given the opportunity to merely wound him, he would nevertheless go for the head shot or the heart shot, play jury and executioner, play God, and leave to God the judgment of his stained soul.. "Who...who're you?" Junior rasped, still badly rattled by the nightmare and by Vanadium's presence, but quick-witted enough to stay within the clueless character that he had been playing..This bond between the Lampion and White families, which Grace had already heard about from Paul, came as news to Celestina as much as to Agnes. It inspired more reminiscences of lost husbands and the wistful wish that Joey and Harrison could have met..A dumpster and a dead musician had humbled him as thoroughly as he had ever been humbled before, as completely as violent nervous emesis and volcanic diarrhea had humbled him, and he had no tolerance for being humbled. Humility is for losers..Junior kept a file on each man, nevertheless, in case instinct later told him that one of them was, in fact, his mortal enemy. He could have killed all of them, just to be safe, but a multitude of dead Bartholomews, even spread over several jurisdictions, would sooner or later attract too much police attention..As he was wheeled headfirst into the operating room, Barty raised off the gurney pillow. He fixed his gaze on his mother until the door swung shut between them..She asked Edom to stay in the main house, so Barty wouldn't be alone while she visited Maria Gonzalez

for an hour or two. He was pleased to oblige, settling down to watch a television documentary about volcanoes, which promised to include stories about the 1902 eruption of Mont Pelee, on Martinique, which killed 28,000 people within minutes, and other disasters of colossal proportions..Spruce Hills, but also those in the entire county, maybe seventy or eighty thousand.."You know," Tom said when the second round of drinks arrived, "hard as it is to believe, some places never heard of martinis.".CELESTINA RETURNED TO Room 724 to collect Phimie's belongings from the tiny closet and from the nightstand..PERRI'S POLIO-WHITTLED body did not test the strength of her pallbearers. The minister prayed for her soul, her friends mourned her loss, and the earth received her.."Science. Quantum mechanics. Which is a theory ... of physics. But by theory, I don't mean just wild speculation. Quantum mechanics works. It underlies the invention of television. Before the end of this century, perhaps even by the '80s, quantum-based technology will give us powerful and cheap computers in our homes, computers as small as briefcases, as small as a wallet, a wristwatch, that can do more and far faster data processing than any of the giant lumbering computers we know today. Computers as tiny as a postage stamp. We'll have wireless telephones you can carry anywhere. Eventually, it will be possible to construct single-molecule computers of enormous power, and then technology-in fact, all human society-will change almost beyond comprehension, and for the better.".ON THE FOLLOWING Tuesday afternoon in Bright Beach, across a sky as black as a witch's cauldron, seagulls flew out of an evil brew toward their safe roosts, and on the land below, humid shadows of the.Or as her father often said, happily mocking his own rhetorical eloquence: "Brighten the corner where you are, and you will light the world.".No turning back. In the fuming blackness, they would become disoriented in seconds, fall, and suffocate as surely as they would burn. Besides, the open window, providing draft, would draw the fire rapidly down the hallway at their backs.
