Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead..there. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. He had with him a boy of fifteen, Mote, a promising weatherworker who needed training at sea, and Sava, a woman of sixty who had come to Roke with him seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though she had no wizardly gifts at all, she knew so well how to get a group of people to trust one another and work together that she was honored as a wise woman on Ark, and now on Roke. She had asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with her and bring them back to Roke when he returned. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves.
