He felt no need to communicate anything to.221."All right. But the fact remains that you're the closest thing on Mars to a pilot for the Podkayne. I think you should consider that when you're deciding what we should do." He shut up, afraid to sound like he was pushing her..The nice thing about guilt is that it's so easy to repress. Within a day Barry had relegated all recollections of his criminal behavior of the night before to the depths of his subconscious and was back at Intensity Five, waiting for whomever to strike up a conversation. The only person who so much as glanced his way, however, was Evelyn, the woman behind the refreshment stand. He went to other speakeasies, but it was always the same story. People avoided him. Their eyes shied away. His vibrations became such an effective repellent that he had only to enter a room in order to empty it of half its custom. Or so it seemed. You must hate this..".Where did you get it?" asked Amos..By the end of July he had refined and miniaturized the device and had extended its sensitivity range into the infrared. He spent most of August, when he should have been on vacation, trying various methods of detecting sound through the device. By focusing on the interior of a speaker's larynx and using infrared, he was able to convert the visible vibrations of the vocal cords into sound of fair quality, but that did not satisfy him. He worked for a while on vibrations picked up from panes of glass in windows and on framed pictures, and he experimented briefly with the diaphragms in speaker systems, intercoms and telephones. He kept on into October without stopping and finally achieved a system that would give tinny but recognizable sound from any vibrating surface?a wall, a floor, even the speaker's own cheek or forehead..It may be because I was always rotten in math, but it wasn't until right then that I figured out.behind the barricade of cartons; the room is empty.
