A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art..Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor.though the Otter's House was still in sunlight. She walked, slow but purposeful, down one of the tracks, and he went with her, a hand on her hip when the way was wide enough. When she waded a knee-deep stream, he held on to her tail. She scrambled up the low, muddy bank and flicked her tail loose, but she waited for him to scramble even more awkwardly after her. Then she plodded gently on. No dog barked as he.On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the Inmost Sea to Orrimy, where he had been some years before. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud

of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard." Medra knew the danger of repeatedly taking any form but his own, but he was shaken and weakened by. A wave of pedestrians caught me up; jostled, I moved forward in the crowd. It seemed to Irioth that the man had been poisoned. When Berry went out again, the woman came closer and said, resolute, in a low voice, "There's no harm in him but the drink, but there's not much left of him but the drink. It's eaten up most of his mind, and most of what we have. So, do you see, put up your money where he won't see it, if you don't mind, sir. He won't come looking for it. But if he saw it, he'd take it. He often doesn't know what he's doing, do you see." "You won't tell me?" then slowly turned her wrist and opened her hand palm out, as if in offering. After a while, deliberately, he re-entered the trap of spell-bonds, went back to his old place, sat down on the pallet, and went on thinking. The prisoning spell was still there, yet it had no power over him now. He could walk into it and out of it as if it were mere lines painted on the floor.
