It certainly wasn't Latin-American and I didn't think it was Slavic, His features were soft without the angularity usually found in the Mediterranean races. His hair wasn't quite black. The hooves did not quite touch the ground..They circled so high they cleared the clouds, and once again the stars were like diamonds dusting the velvet night. He flew so long that at last the sun began to shoot spears of gold across the horizon; and when the ball of the sun had rolled halfway over the edge of the sea, he settled one foot on a crag to the left, his other foot on the pinnacle to the right, and bent down and set them on the tallest peak in the middle.."Oh, I'm afraid it's not much good. The chagrin of.The computers had pronounced two men of Third Platoon killed and five wounded seriously enough to have been incapacitated. Colman was thinking to himself how nice it would be if real wars could be fought like that, when brilliant lights far overhead transformed the scene instantly into artificial day. He squinted against the sudden brightness for a few seconds, pushed his helmet to the back of his head, and looked around. The dead men and the seriously wounded who had been hit higher up on the slopes were walking down the trail in a small knot, while above them and to the sides, the other three platoons of D Company were emerging from cover. More activity was evident farther away along the gorge in both direc- tions as other defending and attacking units came out into the open. Staff transporters, personnel carriers, and other types of flying vehicles were buzzing up from behind the more distant ridges where the sky ended. Colman hadn't realized fully how many troops had been involved in the exercise. An uncomfortable feeling began creeping into his mind - he had just brought to a premature end an elaborate game that staff people had been looking forward to for some time; these people probably wouldn't be too happy about it. They might even decide they didn't want him in the Army, he reflected philosophically.."What makes you think that women are a natural resource, Craw-ford?" she said, slowly and deliberately..somewhere between five-ten, when he called me, and six. Their marital difficulties were complex, but the chief one was a simple shortage of togetherness, since his job kept him in Wilmington and hers kept her in New York. Additionally, her husband's ideal of conversation was very divergent from her own. He enjoyed talking about money, sports, and politics with other men and bottled up all his deeper feelings. She was introspective, outgoing, and warmhearted.."Miss Tremaine, Fll be back in an hour or so.
