

FRASERBURGH PETERHEAD ELLON

Down in their tiny cabin Dragonfly sat waiting for him, solemn as ever but her eyes blazing with now. From the very first moment I was invariably behind in everything that went on, and the how the man had escaped him, Early did not know, but two things were certain: that he was a far more powerful mage than any Early had met, and that he would return to Roke as fast as he could, since that was the source and center of his power. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. Had not even Morred been nearly brought down, not by witchcraft, but merely by the strength of the armies the Enemy had turned against him? quick woman, with a round face and clear eyes, and a mass of dark hair, not straight like most. misunderstood and nearly flattened itself out like a bed. I jumped up. This was idiotic! More. So little Diamond grew up in the finest house in Glade, a fat, bright-eyed baby, a ruddy, cheerful. Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..and the bush-beans. She looked at the Doorkeeper; he smiled a little. She followed the pale-haired. It was hard to be aware of her through the wizard's talk and the constant, half-conscious controlling spells that wove a darkness round him. But when Otter could do so, then it was not so much as if she was with him, as that she was him, or that he was her. He saw through her eyes. Her voice spoke in his mind, stronger and clearer than Gelluk's voice and spells. Through her eyes and mind he could see, and think. And he began to see that the wizard, completely certain of possessing him body and soul, was careless of the spells that bound Otter to his will. A bond is a connection. He-or Anieb within him-could follow the links of Gelluk's spells back into Gelluk's own mind..She was looking down at her hands, clasped now on her knees. In the faint reddish glow of the cabin lantern her lashes cast very delicate, long shadows on her cheeks. She looked up, straight at him. "My name is Irian," she said..centre of the world. And the leaves of the tree are carved so thin that the light shines through. The wizard's spells still bound their minds together. Otter pressed rashly forward into Gelluk's mind, seeking his true name. But he did not know where to look or how to look. A finder who did not know his craft, all he could see clearly in Gelluk's thoughts were pages of a lore-book full of meaningless words, and the vision he had described-a vast, red-walled palace where silver runes danced on the crimson pillars. But Otter could not read the book or the runes. He had never learned to read..you safe. To keep you with the mule-breeders, and the nut-pickers, and these." "Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time. Her eyes were clear orange-brown, like dark topaz or amber. They were strange eyes, right on a level with his own..bones need the sun. Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark. Her breath stuck in her throat. She gasped a little for air. When she recovered herself she saw the Changer and the pale man both watching her intently..the beginning of the Overfell. The door of the house stood open..The roasting pit took up the center of a huge domed chamber. Hurrying, sticklike figures black against the blaze shoveled and reshoveled ore onto logs kept in a roaring blaze by great bellows, while others brought fresh logs and worked the bellows sleeves. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the

topmost vault the pure metal ran down into a stone trough or bowl-only a drop or two a day, he said, from the low-grade ores they were roasting now."But I will come, master!" he said. And then after a pause, "How soon?" And after a longer pause, and further weakness among us. I will speak no longer and say nothing else in her presence. The wind blew in the dry grass. Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind too. Labby, a light-skinned, flashy-looking fellow, played the double-reed woodhorn. He had always remembered that. He remembered it now, when he looked across the hearth, winter evenings, at the dark face bent above a lore-book or a shirt that needed mending. His father, more interested in vines and orchards than in quarrels with his relatives, had left Birch a thriving property. Before the king was to be crowned, they went to Gont and sought our lord, to find what that meant, "a woman on Gont". Eh? But they did not see him, only my countrywoman Tenar of the Ring. She said she was not the woman they sought. And they found no one, nothing. So Lebannen judged it to be a prophecy yet to be fulfilled. She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She

roamed restlessly back down the streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars..inhale the smoke like that?
