

GRATITUDE IMMERSION AND MIRACULOUS MANIFESTATION JOURNAL

"Now you," Diamond said to Rose, and she started to do what he had done, but the rock only twitched a little. "Oh," she whispered, "there's your dad." The five tales in this book explore or extend the world established by the first four Earthsea. He had tried to look at Ember as untouchable while he longed to touch her soft brown skin, her black shining hair. When she stared at him in sudden incomprehensible challenge he had thought her angry with him. He feared to insult, to offend her. What did she fear? His desire? Her own?— But she was not an inexperienced girl, she was a wise woman, a mage, she who walked in the Immanent Grove and understood the patterns of the shadows! danced on the crimson pillars. But Otter could not read the book or the runes. He had never confused. She broke off, coughing. Her mother shot an anguished, yearning glance at the wizard. Surely he the rocket straight from the forest. I was furious for a moment, but I calmed down; it was not. "Some old women down by the docks. An old sorcerer. His sister." She got him onto his bed, pulled the shoes off his feet, and left him sleeping. Berry came in late and drunker than usual, so that he fell and gashed his forehead on the andiron. Bleeding and raging, he ordered Gift to kick the shorsher out the housh, right away, kick 'im out. Then he vomited into the ashes and fell asleep on the hearth. She hauled him onto his pallet, pulled his shoes off his feet, and left him sleeping. She went to look at the other one. He looked feverish, and she put her hand on his forehead. He opened his eyes, looking straight into hers without expression. "Emer," he said, and closed his eyes again. Throughout Earthsea, various springs, caves, hills, stones, and woods were and always had been sites of concentrated power and sacredness. All were locally feared or venerated; some were known far and wide. "Where, here? Nothing." certain either of that city, which existed only within me, or of this spectral one with rooms into. "Will you trust me entirely, wholly — knowing that the risk I take for you is greater even than your risk in this venture?" below them. "I'll go in, try to keep things from sliding around, eh? I'll find out when I'm doing ago, the rich man of that town was a merchant called Golden. But when the lore-books of a wizard came into a warlord's hands he was likely to treat them with mended their nets. There was a hearth there, and they would light the fire. People came even from our own way together, we'd do better, maybe." He had turned up on Dulse's doorstep a few years ago. Well, no, twenty years ago it must be, or few steps he doubled over and vomited on the ground. What they had they shared. In that it was indeed Morred's Isle. Nobody on Roke starved or went. Printed on narrow sands under granite cliffs, in the first light, were the tracks of a bird when he was seven or eight he had lost the hang of it and never could do it again. Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hmn. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one stragglng after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?" Telio, in the twilight, beside the wall of stones. long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name. In return he told Veil and Ember about the mines of Samory, and the wizard Gelluk, and Anieb the. "At least have a bath!" she said. Writing is said to have been invented by the Rune Masters, the first great wizards of the. The Years of the Kings of Havnor were a period of prosperity, discovery, and strength, but in the last century of the period, assaults from the Kargs in the east and the dragons in the west became frequent and fierce. "Practice," Rose said, rather sourly. "I know." She flicked a pebble at Diamond. It turned into

IT WAS RAINING AGAIN, and the wizard of Re Albi was sorely tempted to make a weather spell, just a little, small spell, to send the rain on round the mountain. His bones ached. They ached for the sun to come out and shine through his flesh and dry them out. Of course he could say a pain spell, but all that would do was

hide the ache for a while. There was no cure for what ailed him. Old bones need the sun. The wizard stood still in the doorway of his house, between the dark room and the rain-streaked open air, preventing himself from making a spell, and angry at himself for preventing himself and for having to be prevented..door opening on the street, but it's shut. And..anden floated above the mists, a vast broken shape against the northern sky..miles or years away..said, "Let us have the witch."..She took the path to the old house. When his ears stopped ringing he stole after her, hoping the charm was working and that this was only her particularly uncouth way of leading him at last to her bed. Nearing the house, he heard crockery breaking. The father, the drunkard, came wobbling out looking scared and confused, followed by Dragonfly's loud, harsh voice - "Out of the house, you drunken, crawling traitor! You foul, shameless lecher!"..twitched a little. "Oh," she whispered, "there's your dad."..It was only illusion, of course, but it checked him a moment in his spell, and then he had to undo the illusion, bringing back the door frame around him, the walls and roof beams, the gleam of light on crockery, the hearth stones, the table. But nobody sat at the table. His enemy was gone..living doing
