

GRAYS ANATOMY COLORING BOOK

After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind..Junior's agony might have made him howl like a cankered dog or might even have dropped him to his knees if he hadn't used the pain to fuel his anger. His knobby countenance was so sensitive that the light breeze flailed his skin as cruelly as if it had been a barbed lash. Empowered by rage even more beautiful than his countenance was monstrous, he crossed the parking lot, looking through car windows in the hope of seeing keys dangling from an ignition..He didn't realize he was swinging the candlestick at Vanadium's face until he saw the blow land. And then he couldn't stop himself from swinging it yet once more..He could have killed someone named Henry or Larry, without risk of creating a Bartholomew pattern that would prickle like a pungent scent in the hound-dog nostrils of Bay Area homicide detectives. But he restrained himself..As Obadiah lowered himself into a well-worn armchair, he said to Edom, "Son, don't I know you from somewhere?"..Edom had noticed them earlier. Now he saw they were in worse condition than he'd thought. Enlarged knuckles, fingers not entirely at natural angles to one another. Perhaps Obadiah had rheumatoid arthritis, like Bill Kleifton, though a less crippling case..When he reported for a physical and a reassessment of his draft classification, on Wednesday, December 15, he left the insert in his hitching shoe; however, he limped like old Walter Brennan, the actor, hitching around the ranch in The Real McCoys..She looked around the room. "He's invisible like the Cheshire cat?" "His whole world is as real as ours, but we can't see it, and people in his world can't see us. There're millions and millions of worlds all here in the same place and invisible to one another, where we keep getting chance after chance to live a good life and do the right thing."..In his seventies but vigorous and full of fun, Sparky liked to take an occasional jaunt to Reno, to pump the slot machines and try a few hands of blackjack. The off-the-record, tax-free monthly checks from Simon were gratefully received, ensuring the old man's cooperation with the conspiracy..The bitch was getting tired, but Junior still didn't like his odds in a hand-to-hand confrontation. Her hair was disarranged. Her eyes flashed with such wildness that he was half convinced he saw elliptical pupils like those of a jungle cat. Her lips were skinned back from her teeth in a snarl..He was having difficulty focusing his attention on the problem at hand. Through his mind, odd and disconnected thoughts rolled like slow, greasy, eye-of-the-hurricane waves on an ominous sea..Having risen higher in the sky during the past couple hours, the gold-coin moon reminded itself as silver, and in the black lake, its reflection rolled across the knuckles of the quiet wavelets..She nodded. And could not lift her gaze from her hands. Could not meet his eyes, afraid that his worry would feed her own, afraid also that the sight of his sympathy would shake loose her perilous grip on her emotions..Perhaps, reluctant to admit to herself that she had yearned for him to do everything that he'd done, she had slowly been inflamed by guilt, until she convinced herself that she had, indeed, been raped. Psychotic little bitch..This was better than taking slow deep breaths. Periodically, on the way to Vanadium's house, Junior spat out a string of insults, punctuated by obscenities..Kid's room. Bartholomew's room. Furniture in cheerful primary colors. Pooh posters on the wall..Tom Vanadium liked this man at once. Cop instinct told him that Damascus was honest and reliable. Priestly insight suggested even more impressive qualities..Junior leaned forward and slid the packet of cash across the desk, toward the detective. "There's more where this came from." "If you're a dowsing, better dowsing," said Licky, coming up alongside him and looking sidelong into his face. "And if you're not, you'd better dowsing all the same. That way you'll stay above ground longer."..When the attorney finally came on the line, he sounded put-upon, as though Junior were the equivalent of a troublesome toe that he would like to shoot off..Between the one-line description of the baklava and the menu's more effusive words about the walnut mamouls, the suspense became too much, the doubt too insidious, at which point Celestina looked up and said, with more girlish angst in her voice than she had planned "Maybe this isn't the place, maybe it isn't the time, or maybe it's the time but not the place, or the place but not the time, or maybe the time and the place are right but the weather's wrong, I don't know--Oh..If Junior was not discreet, and if gossip about the widower Cain and the sexy nurse began to circulate, Vanadium would be on the case again even if it had been closed. The cop was sick, hateful, driven by unknowable inner demons. Although he might for the moment have been reined in by those in higher office, mere gossip of a spicy nature would be excuse enough for him to open the file again, which he'd surely do without informing his superiors..Not limited to a survey of the nursing staff on a single floor of the hospital, Junior used the elevators to roam higher and lower. Checking out the skirts..Hound was sorry for him. "You know, if it was Gelluk questioning you, he'd have everything you know out of you just with a word or two, and your wits with it. I've seen what old Whiteface leaves behind when he asks questions. Listen, can you work with the wind at all?"..The glimmering bay and the shimmering amber candlelight provided the perfect atmosphere for the song that arose now from the piano in the bar..Some information she'd withheld from him: that the cancer might already have spread, that he might still die even after his eyes were removed-and that if it hadn't yet spread, it might soon do so..He was nearly forty years old, and a life spent fearing nature could not be turned easily into a romance with her. Some nights he still stared at the ceiling, unable to sleep, waiting for the Big One, and he avoided walks on the shore in respect of deadly tsunamis. From time to time, he visited his brother's grave and sat on the grass by the headstone, reciting aloud the gruesome details of deadly storms and catastrophic geological events, but he found that he had also absorbed from Jacob some of the statistics related to serial killers and to the disastrous failures of manmade structures and machines. These visits were pleasantly nostalgic. But he always came with roses, too, and brought news of Barty, Angel, and other members of the family. When Paul sold his house to move in with Agnes, Tom

Vanadium settled into Jacob's former apartment, now a fully retired cop but not yet ready to return to a life of the cloth. He assumed the management chores of the family's expanding community work, and he oversaw the establishment of a tax-advantaged charitable foundation. Agnes provided a list of fine-sounding and self-effacing names for this organization, but a majority vote rejected all her suggestions and, in spite of her embarrassment, settled on Pie Lady Services. Three and a half days had passed since he'd pushed his wife off the tower, and in that time he'd had no real fun. He was gregarious by nature, never one to turn down a party invitation. He liked to laugh, to love, to live, but he couldn't enjoy life when he must remember at all times to appear bereft and to keep sorrow in his voice. His inner turmoil boiled ever more fiercely, and the external evidence of it grew more obvious. In the cool air of the fading afternoon, he perspired as profusely as a man already being strapped into an electric chair; it streamed, gushed. He shook, shook, and he was half convinced that he could hear his bones rattling together like the shells of hard-boiled eggs in a rolling cook pot. Holding his precious face between her hands, she kissed him. She met his gaze, and furiously she blinked away her tears, for she wanted to be clear-sighted, to be looking into his eyes, to see him, the truest part of him in there beyond his eyes, until that very last moment when she could not have him anymore. Jacob made more fire sounds as he stripped the clear cellophane off a second new deck of playing cards, then off a third and a fourth. Junior was glad for the chance to eavesdrop, not only because he hoped to learn the nature and depth of Vanadium's suspicions, but also because he was curious-and concerned-about the cause of the disgusting and embarrassing episode that had landed him here. Otter's humble teachers had taught him pride. They had trained into him a deep contempt for wizards who worked for such men as Losen, letting fear or greed pervert magic to evil ends. Nothing, to his mind, could be more despicable than such a betrayal of their art. So it troubled him that he couldn't despise Hound. No more than a minute after Vanadium departed, a nurse arrived in a rush, no doubt sent by the hateful cop. Hard to tell, through all the tears, if she was a looker. A nice face, perhaps. But such a stick-thin body. He remembered standing in the cemetery, downhill from Seraphim's grave-although at the time he'd known only that it was a Negro being buried, not that it was his former lover-and thinking that the rains would over time carry the juices of the decomposing Negro corpse into the lower grave that contained Naomi's remains. Had that been a half-psychic moment on his part, a dim awareness that another and far more dangerous connection between dead Naomi and dead Seraphim had already been formed? Lord, listen to me-but I've really got to know if you can, if you are, how you feel, whether you feel, I mean, whether you think you could feel--". The chest respirator, which Joshua had evidently applied, lay discarded on the bedclothes beside her. She seldom required this apparatus to assist her breathing, and then only at night. In the neatly ordered bedroom, he removed his shoes. Stretching out on the bed, he stared at the ceiling, feeling useless. "Quitting medicine?" Celestina asked, baffled by his announcement and his upbeat attitude. In July 1967, at two and a half, he finally contracted his first cold, an off-season virus with a mean bite. His throat was sore, but he didn't fuss or even complain. He swallowed his medicine without resistance, and though he rested occasionally, he played with toys and paged through picture books with as much pleasure as ever. When Junior checked his Rolex, he realized that he didn't know how long he'd been sitting here since Ichabod had driven off in the Buick. Maybe one minute, maybe ten. In truth, he was terrified. Although his need for her company was so profound that it seemed to arise from his marrow, a part of him marveled-and trembled-at his dedicated pursuit of her. Agnes got out of bed, switched on the lamp, and tucked Barty in once more. "Say your silent prayers." She worried that they would argue with her, and though she knew that she was committed to her decision, she was afraid to have that commitment tested just yet. "More than remorse," the magician said. "Shame. I come from good people. I wasn't raised to be a cheat. Sometimes, trying to figure how I went wrong, I think it wasn't the need for money that ruined me. At least not that alone, not even that primarily. It was pride in my skill with the cards, frustrated pride because I wasn't getting enough nightclub work to show off as much as I wanted to." "After the quake," Edom said, "forty thousand people took refuge in a two-hundred-acre open area, a military depot. A quake-related fire swept through so fast they were killed standing up, so tightly packed together they died as a solid mass of bodies." In November, Edom asked Maria Gonzalez to dinner and a movie. Although he was only six years older than Maria, both agreed that this was a date between friends, not really a boy-girl thing. The night was hushed but for the barking of a dog in the great distance. Hollow, far softer than the ghostly singing that had recently haunted Junior, the rough voice of this hound nevertheless stirred him, spoke to an essential aspect of his heart. The galerieur's icy demeanor thawed marginally at this proof of taste and financial resources. He either smiled or grimaced at a vague but unpleasant smell-hard to tell which-and identified himself as the owner, Maxim Coquin. Before Celestina probed and perhaps touched upon a sore tooth of truth, Tom launched into the story of King Obadiah, Pharaoh of the Fantastic, who had taught him all he knew about sleight of hand. Already the fortune foretold, which she had strived to dismiss as a game with no consequences, was coming true. The instant he flipped the coin, he opened both hands-palms up, fingers spread-with a distracting flourish. The thorns had not been stripped from the long stem of the white rose. Vanadium clutched it so tightly that the sharp points punctured his meaty palm. He seemed to be unaware of his wounds. The lack of offensive odors indicated that he hadn't landed in a container filled with organic garbage. In the blackness, judging only by feel, he decided that almost everything was in plastic trash bags, the contents of which were relatively soft-probably paper refuse. Perri was often fast asleep by nine-thirty, seldom later than ten o'clock while Paul never turned in earlier than midnight or one in the morning. In the later hours, to the reassuring susurrations of his wife's breathing, he returned to his pulp adventures. Following little Bartholomew's murder, however, people might remember the man who had been asking after the mother, Celestina. Junior wasn't just any man, either; irresistibly handsome, he left an indelible impression on people, especially on women. Inevitably, the cops would be knocking on his door, sooner or later. "But what made you choose that life? You must have committed to the

seminary awfully young." Continuing to avert his eyes from the battered face and the two tone eyelids, Junior found the keys in an exterior pocket of the sports jacket. The credentials were tucked in an interior pocket: a single-fold leather holder containing the shiny badge and a photo ID..Great hobbled wheels of pain turned through Agnes, driving her into darkness for a moment..For a while he thought the fear would end only when he perished from it, but eventually it faded, and in its place poured forth self-pity from a bottomless well. Self-pity, of course, is the ideal fuel for anger; which was why, pursuing the Buick through fog, climbing now toward Pacific Heights, Junior was in a murderous rage. By the time he reached Cain's bedroom, Tom Vanadium recognized that the austere decor of the apartment had probably been inspired by the minimalism that the wife killer had noted in the detective's own house in Spruce Hills. This was an uncanny discovery, troubling for reasons that Vanadium couldn't entirely define, but he remained convinced that his perception was correct..She loosened her hair and brushed it out, and Nolly took her to dinner at their favorite place, which had the decor of a classy saloon and a bay view suitable for God's table. They came here often enough that the maitre d' greeted them by name, as did their waiter..In the living room, he removed a decorative pillow from the sofa. He carried it into the foyer..Apparently, he didn't lean back far enough, because amazingly he landed on his feet in the winter-faded grass. The shock buckled him, and he dropped to his knees. Still cradling Grace, he lowered her to the ground as gently as he'd ever lowered fragile Perri onto her bed-quite as if he had planned it this way..He might not have this future-living thing down perfectly, but he was absolutely terrific at anger..She switched off the hall light and stood at the half-open door, listening, waiting..In the years since I began to write about Earthsea I've changed, of course, and so have the people who read the books. All times are changing times, but ours is one of massive, rapid moral and mental transformation. Archetypes turn into millstones, large simplicities get complicated, chaos becomes elegant, and what everybody knows is true turns out to be what some people used to think.."It's just ... the last time I saw him, he trapped me in a corner and told this god awful story, far more than I wanted to know, about some British murderer back in the forties, this monstrous man who beat people to death with a hammer, drank their blood, then disposed of their bodies in a vat of acid in his workroom." He shuddered..The stump was capped at the end of the internal cuneiform, depriving Junior of everything from the metatarsal to the tip of the toe. He was delighted with this result, because successful reattachment would have been a calamity..As kids-living in a house that was run like a prison, stifled by the oppressive rule of a morose father who believed that any form of entertainment was an offense against God-they conducted secret card games as their primary act of rebellion. A deck of cards was small enough to hide quickly and to keep hidden successfully even during one of their father's painstakingly thorough room searches..An exceptionally attractive woman, alone at the bar, stirred his desire. Glossy black hair: the tresses of night itself, shorn from the sky..Indeed, he would get through the rest of 1965 without resorting to another homicide. The nonfatal shooting in September would be regrettable, quite messy, painful-but necessary, and calculated to do as little damage as possible..Just as the man turned away, Junior got a glimpse of what he wore under a London Fog raincoat. Between the lapels of the coat: a white shirt with a wing collar, a black bow tie, the suggestion of black-satin lapels like those on a tuxedo jacket..Finally wimping out completely, Parkhurst left the room. The heavy door sighed softly shut, silencing the squeak of rubber-soled shoes, the swish of starched uniforms, and other noises made by the busy nurses in the corridor..He'd been invited to a Christmas Eve celebration with a satanic theme, but he hadn't intended to go. The party was not being thrown by real Satanists, which might have been interesting, but by a group of young artists, all nonbelievers, who shared a wry sense of humor..Once more crowding his quarry, Junior said, "I'm amazed you'd recognize me, since I haven't been to the lounge often."..Rowena loves you, Phemie had told him, briefly repressing the effects of her stroke to speak with clarity. Beezil and Feezil are safe with her Messages from his lost wife and children, where they waited for him beyond this life..In the living room stood a Christmas tree, and under the tree lay prettily wrapped presents. Junior enjoyed opening all of them, but he didn't find anything he wanted to keep..I'm not the first to observe that much of what quantum mechanics reveals about the nature of reality is uncannily compatible with faith, specifically with the concept of a created universe. Several fine physicists have written about this before me. As far as I am aware, however, the notion that human relationships reflect quantum mechanics is fresh with this book: Every human life is intricately connected to every other on a level as profound as the subatomic level in the physical world; underlying every apparent chaos is strange order; and "spooky effects at a distance," as the quantum-savvy put it, are as easily observed in human society as in atomic, molecular, and other physical systems. In this story, Tom Vanadium must simplify and condense complex aspects of quantum mechanics into a few sentences in a single chapter, because although he isn't aware that he's a fictional character, he is obliged to be entertaining. I hope that any physicists reading this will have mercy on him..Aware that his tension was building intolerably, Junior decided that he needed Scamp more than he dreaded her. He spent the remainder of Wednesday, until dawn Thursday, with the indefatigable redhead, whose bedroom contained a vast collection of scented massage oils in sufficient volume to fragrantly lubricate half the rolling stock of every railroad company doing business west of the Mississippi..Following a month of recuperation and postoperative medical care, Junior was able to return to his twice-a-week classes in art appreciation. He resumed, as well, his almost daily strolls through the city's better galleries and fine museums..Wally-Dr. Walter Lipscomb, who delivered Angel and who became her godfather-never worried when the girl seemed to be developing too slowly, counseling that every child was an individual, with his or her particular learning pace. Wally's double specialty--obstetrics and pediatrics-gave him credibility, of course, but Celestina had worried, anyway..Sobbing desperately, he dropped the telephone handset on the secretary, seized the dishtowel. He wrapped the cloth tightly around the shattered stump, applying pressure to diminish the bleeding..The dying-dove hands fluttered down Junior's arms, plucking feebly at his leather coat, and at last hung limp at Neddy's sides..All day, for reasons he

couldn't quite put into words, Junior had carried that quarter in a pocket of his bathrobe. From time to time, he had taken it out to examine it..Acutely aware that someone with more need than patience might soon rap at the locked door, Junior dropped back into the men's room..Luck favored Paul: The hero was here, having breakfast. He and two other men were deep in conversation at a corner table.. "When your hands are bigger," Tom agreed, "I'm sure you could. In fact, one day I'll teach you."..In the name of Zedd, slow deep breaths. Focus not on the past, not on the present, but only on the future. What has happened is of no importance. All that matters is what will happen next..Cops at the doorstep, the lunatic bitch with the chair, the clergyman's curse-all this amounted to more than even a committed man could handle. Get out of the present, go for the future..They were childless. It had to be that way. Truthfully, Paul felt no regrets about missing out on fatherhood. Because they were a family of two, they were closer than they might have been if fate had made children possible, and he treasured their relationship..As the paramedic shoved the gurney across the step-notched bumper, its collapsible legs scissored down. Agnes was rolled headfirst into the ambulance.. "Loved her? Of course I loved her. Naomi was beautiful and so kind ... and funny. She was the best ... the best thing that ever happened to me."..He wasn't afflicted with parenthood envy. A baby was the last thing he would ever want, aside from cancer. Children were nasty little beasts. A child would be an encumbrance, a burden, not a blessing..In the three years since Perri's death, he had walked thousands of miles. He hadn't kept a record of the cumulative distance, because he wasn't trying to get into Guinness or to prove anything..holding hands as they watched John Wayne in *The Searchers*, David Niven in *Around the World in 80 Days*. They were so young then, sure they would live forever, and they were still young now, but for one of them, forever had arrived..So quick, this violence, over even as it began. Because he had no interest in aftermath, however, Junior suffered no disappointment at the briefness of the thrill. The past was past, and as he closed the front door and stepped around the body, he focused on the future..As kinky and thrilling as it had been to make love to the girl while playing the recorded rough draft of a new sermon that she had been transcribing for her father, Junior could now recall nothing of what the reverend had said, only the tone and the timbre of his voice. Whether instinct, nervous irritation, or merely the sherry should be blamed, he was troubled by the thought that there was something significant about the content of that tape..When he woke, he was in a hospital bed, his upper body slightly elevated. The only illumination was provided by a single window: an ashen light too dreary to be called a glow, trimmed into drab ribbons by the..The muscles of his legs grew as hard as any of the landscapes that he trod. Granite thighs; calves like marble, roped with veins.. "That's obvious to us, but not always to others. Apparently, this would have been some years ago."..Paul didn't realize that Grace had followed them into the living room until she screamed. She started to push past him, heading toward her husband even as Harrison went down..Into the autumn of 1967, Junior reviewed hundreds of thousands of phone listings, and occasionally he located a rare Bartholomew. In San Rafael or Marinwood. In Greenbrae or San Anselmo. Located and investigated and cleared them of any connection with Seraphim White's bastard baby..For an instant, she appeared to be frowning. Then he realized this couldn't be a frown. It must be a smoldering look of desire.. "I find you more than adequate in all ways that count. Besides, Joey was a generous and good lover. What he taught me, I can share." She smiled. "You'll find that I'm a darn good teacher, and I sense in you a star pupil."..Rubbermaid container from his own pantry. Junior would never again use it to store leftover soup..Dear Lord, how she loved her sugarpie, her little M&M. Three years had passed in what seemed like a month, and although there had been stress and struggle, too few hours in every day, less time for her art than she would have liked, and little or no time for herself, she wouldn't have traded being blindsided by motherhood for any amount of wealth, not for anything in the world ... except to have Phimie back. Angel was the moon, the sun, the stars, and all the comets streaking through infinite galaxies: an ever-shining light..Yet in her heart, she wouldn't relinquish hope for a miracle. This was an amazing boy, a prodigy, a boy who could walk where the rain wasn't, already himself a miracle, and it seemed that anything might happen, that Dr. Chan might suddenly rush into the waiting room, surgical mask dangling from his neck, face aglow, with news of a spontaneous rejection of the cancer..Junior descended the escalator two steps at a time, not content to let it carry him along at its own pace. When he reached the second floor, however, he found that Vanadium's ghost had done what ghosts do best: faded away. Abandoning his search for the perfect tie chain but determined to remain calm, Junior decided to have lunch at the St. Francis Hotel.. 'A energy fighting over jurisdiction. We cooperate. The sheriff can do not to put a lot of his limited resources into this, and no one will blame him. He can call it an accident and close the case, and he won't."..Nevertheless, even if Muffin assaulted you, she's otherwise such a sweet little thing. What would Maria think of you if you told her you'd smashed poor Muffin with a shovel?"..When she tried to speak to him, she could no more easily raise her voice than she could extend a hand to him..She found the switch and clicked off the lamp again. "Good-night, young prince.".. "Seems like," Vanadium agreed. "So a man like Cain obsesses on one thing after another-sex, money, food, power, drugs, alcohol, anything that seems to give meaning to his days, but that requires no real self-discovery or self-sacrifice. Briefly, he feels complete. However, there's no substance to what he's filled himself with, so it soon evaporates, and then he's empty again."..His first overnight journey, in June of '65, was to La Jolla, north of San Diego. He carried too large a backpack and wore khaki pants when he should have worn shorts in the summer heat..In her campaign to keep her weight gain to a minimum, anorexia was her ally. She learned to find pleasure in hunger pangs..But the boy played no tricks against his father. He took his beatings in silence and learned to hide his gift.
