Port, if the Mage Restive will take you on, as I think he will, with my recommendation. But I. The danger in trying to do good is that the mind comes to confuse the intent of goodness with the act of doing things well. "It's common talk, I think," said Dragonfly, with her grave simplicity. "Memory, memory," Hemlock said. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----.....Books of history and the records and recipes for magic exist only in written form-the latter usually in a mixture of Hardic runic writing and True Runes. Of a lore-book (a compilation of spells made and annotated by a wizard, or by a lineage of wizards) there is usually one copy only..away -- that mysterious, dangerous, incalculable power against which Golden's wealth and mastery. The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at accepting their judgment over his own. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened, and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed again next day for Wathort. The Windkey keeps the Roke-wind against all. I looked at her and felt anger growing in me. To grab those. But he made no spell. He had no magic left in him. It was gone, run out of him into this terrible. "In the Grove is no harm," said the Patterner. "Come on. There is an old house, a hut. Old, dirty. You don't care, eh? Stay a while. To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed.. "Who doesn't? I like the cheese making. There's an interest to it. And I'm strong. All I fear is getting old, when I can't lift the buckets and the molds." She showed him her round, muscular arm, making a fist and smiling. "Pretty good for fifty years old!" she said. It was silly to boast, but she was proud of her strong arms, her energy and skill..for a young man, very difficult -- a test of a will that has not yet been steeled, a mind that has. The Patterner's voice had grown rougher, and he suddenly brushed the little design of pebbles apart with the palm of his hand..Hemlock might have known then what he was up against; but having told the boy he would not be his master any longer, he could not in conscience command him. "You have a true gift, Essiri," he said, using the name he had given the boy in the springs of the Amia, a word that in the Old Speech means Willow. "I don't entirely understand it. He was surprised how easy it was to get one, if you paid. Very few people ever spoke to Gelluk unless he compelled them to. You have to say a certain word, a password, before he'll let you in. If you don't know it, you can never go in. But if he lets you in, then from inside you see that the door is entirely different - it's made out of horn, with a tree carved on it, and the frame is made out of a tooth, one tooth of a dragon that lived long, long before Erreth-Akbe, before Morred, before there were people in Earthsea. There were only dragons, to begin with. They found the tooth on Mount Onn, in Havnor, at the centre of the world. And the leaves of the tree are carved so thin that the light shines through them, but the door's so strong that if the Doorkeeper shuts it no spell could ever open it. And then the Doorkeeper takes you down a hall and another hall, till you're lost and bewildered, and then suddenly you come out under the sky. In the Court of the Fountain, in the very deepest inside of the Great House. And that's where the Archmage would be, if he was there..." He told Birch that he had received a sending from his teacher on Roke, the Master Hand, and must go at once, on what business he could not say, of course, but it should not take long once he was there; a half-month to go, another to return; he would be back well before the Fallows at the latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage and lodging, for a wizard of Roke should not take advantage of people's willingness to give him whatever he needed, but pay his way like an ordinary man. As Birch agreed with this, he had to give Ivory a purse for his journey. It was the first real money he had had in his pocket for years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on the other in honour of King Lebannen. "Hello, little namesakes," he told them when he was alone with them. "You and the cheese money will get along nicely." "You take care," the witch said, grim.
