

MANAGEMENT AN ALTERNATIVE APPROACH TO REDUCING ACCIDENTS INJURY AND ILLNESS AT WORK

Alone with Paul, as he stood abashed, she removed her blouse and bra and, with arms crossed over her breasts, revealed to him her savaged back. Whereas her father had used open-hand slaps and hard fists to teach his twin sons the lessons of God, he preferred canes and lashes as the instruments of education for his daughter, because he believed that his direct touch might have invited sin. Scars disfigured Agnes from shoulders to buttocks, pale scars and others dark, crosshatched and whorled. "Bet I could, and sell it, too," she said. "I might not be as good at it as I am at teeth, but I'd be better than some I've read." When Agnes groaned, one of the shadows spread its wings, moved closer, to the right side of the bed, and resolved into a nurse. Agnes's vision had cleared. The nurse was a pretty young woman with black hair and indigo eyes. Lowering his surgical mask, Dr. Lipscomb approached Celestina, where she stood with her back pressed to the wall. If their relationship had not been limited to a single evening of passion, if they had not been of two worlds, if she had not been underage and therefore jailbait, they might have had an open romance, and then her death would have touched him more deeply. Then by ambulance to the hospital, whisked into surgery, and for a while, blessed unconsciousness. Thanks to his intelligence and his personality, Barty's presence was so great for his age that Agnes tended to think of him as being physically larger and stronger than he actually was. As the scent of grass grew more complex and even more appealing, she saw her son more clearly than she'd seen him in a while: quite small, fatherless yet brave, burdened with a gift that was a blessing but that also made a normal boyhood impossible, forced to grow up at a faster pace than any child should be required to endure. Barty was achingly delicate, so vulnerable that when Agnes looked at him, she felt a little of the awful sense of helplessness that burdened Edom and Jacob. As beautiful as they were, none of these women satisfied him as profoundly as Naomi had satisfied him. Agnes had lifted him to this perch. Now she smoothed his hair, straightened his shirt, and retied his loosened shoelaces, finding it even harder than she had expected to say what needed to be said. She thought she might require Dr. Chan's presence, after all. The gas oven might blow up in his face, at last bringing him peace, but if it didn't, he would at least have cookies for Agnes. This was a test of Junior's gullibility, and he would not give Vanadium the satisfaction of searching his robe for the coin. Although only half the stools at the counter were occupied, and none of those close to Junior, customers were seated in most of the booths. Some had their backs to him, and three were about Vanadium's size. Ichabod passed Bartholomew through the open door to Celestina in the passenger's seat, went around the Buick, put the tote bag in the back, and climbed behind the wheel once more. The runt was so out of proportion to his office furniture that he appeared to be a bug perched in the giant leather executive chair, which itself looked like the maw of a Venus's-flytrap about to swallow him for lunch. He allowed such a lengthy silence to follow Junior's question that by the time he answered, his reply was superfluous. Junior was at critical depth. The psychological pressure was at least five thousand pounds per square inch and growing by the second. Implosion imminent. "Consider what I told you," Dr. Salk urged. "Your Perri would want you to think about it." Junior strove to appear properly mortified. "Thought I heard something. Searched the apartment." As "It is." From a desk drawer, Nolly withdrew an envelope and put it on top of the offered cash. "I'm returning five hundred of your thousand retainer." He pushed everything back toward Junior. By now, Junior realized that he had been locked in a meditative trance for at least eighteen hours. He had settled into the lotus position at five o'clock Monday afternoon and Bob Chicane had shown up or their regular instruction session at eleven Tuesday morning. Junior joined the throngs, although he had no gift list or feeling for the season. He just needed to get out of his apartment, because he was convinced that the phantom singer would soon serenade him again. Junior's attorney-Simon Magusson--insisted upon full disclosure of maintenance records and advisories relating to the fire tower and to other forest-service structures for which the state and the county had sole or joint custodial responsibility. If a wrongful-death suit was filed, this information would have to be divulged anyway during normal disclosure procedures prior to trial, and since maintenance logs and advisories were of public record, Hisscus and Knacker and Nork agreed to provide what was requested. "He's here as sure as I am, Barty. He's very busy, with a whole universe to run, so many people to look after, not just here but on other planets, like you've been reading about." Just as the smile curved to completion, however, an awful thing happened. The humiliation began with a loud gurgle in his gut. Judging by Grace's expression when Paul plucked the chest off the floor, he figured it was heavy. He had no way of knowing for sure, because he was in a weird state, so saturated with adrenaline that his heart squirted blood through his arteries at a speed Zeus couldn't have matched with the fastest lightning bolts in his quiver. The chest felt no heavier than a pillow, which couldn't be right, even if it was empty. To see his newborn baby girl, Barty shared the sight of other Bartys, and he so adored this little wrinkled Mary that he sustained his vision all day, until a thunderous migraine became too much to bear and a sudden frightening slurring of speech drove him back to the comfort of blindness. Unable to hold his breath or to quiet his miserable sobbing, Junior couldn't hear clearly enough to discern whether the sounds of the stalking sculpture were real or imagined. He knew that they had to be imaginary, but he felt they were real. Neither Agnes nor Edom knew of Jacob's great skill with cards. He had been discreet about his apprenticeship with Obadiah, and for almost twenty years, he'd resisted the urge to dazzle his siblings with his expertise. The painkiller was not morphine-based, and it did not signal its presence in the system by inducing sleepiness or even a faint blurring of the senses. After forty minutes, however, he was sure that it must be effective, and he put the book aside. The hospital was drowned in the bottomless silence that fills places of human habitation only in the few hours before dawn, when the needs and hungers' and fears of one day are forgotten and those of the next are. AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in

the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end of their journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman-the first men to orbit the moon-traveled 250,000 miles into space, and all returned alive..Deed flinched. "No reason. But I sure never did mean you or your husband any harm, Mrs. Lampion. And not your baby, either, not little Bartholomew."..Fed up with them and with this exhibition, Junior half wished that he would again be stricken by violent nervous emesis. Even in his suffering, he would enjoy spraying these insistently appealing canvases with the reeking ejecta of his gut: criticism of the most pungent nature..Six paces past that marker floorboard, Barty had the strangest feeling that someone was in the hallway with him..Uncommon dexterity is essential for anyone who hopes to become a highly skilled card mechanic, but it is not the sole requirement. A capacity to endure grim tedium while engaging in thousands of hours of patient practice is equally important. The finest card mechanics also exhibit complex memory function of a breadth and depth that the average person would find extraordinary..They agreed that to the outside world, Barty must continue to appear to be a sightless man-or otherwise either be treated like a freak or be subjected, perhaps unwillingly, to experimentation. In the modern world, there was no tolerance for miracles. Only family could be told of this development.. "There must be something important I'm supposed to do here that I don't need to do everywhere I am, something I'll do better if I'm blind."..The sedative was mild, but Phimie was asleep in mere minutes. She was exhausted by her long ordeal and by her recent lack of sleep..In the present, long after the execution of Josef Krepp, half a block ahead, lay the Lipscomb house. Beyond it, the Lampion place.. "Water can break?" Maria asked, looking toward the faucet at the kitchen sink. She sighed. "I have so much to be learned."..Symptoms of food poisoning usually appear within two hours of dining. The hideous intestinal spasms had rocked him at least six hours after he'd eaten. Besides, if the culprit were food poisoning, he would have vomited; but he hadn't felt any urge to spew..Junior discovered more tears than could have been found in ten thousand onions. His wife and his unborn baby. He had been willing to sacrifice his beloved Naomi, but maybe he would have found the cost too high if he had known that he was also sacrificing his first-conceived child. This was too much. He was bereft..Saturday morning, Paul made himself useful by assisting Grace with food preparation and by setting out the plates, flatware, and glasses on the dining-room sideboard..Nevertheless, when the points of soreness in his brow and cheeks gradually grew worse, he stopped at a service station near Courtland, bought a bottle of Pepsi from a vending machine, and washed down yet another capsule of antihistamines. He also took another antiemetic, four aspirin, and-although he felt no trembling in his bowels-one more dose of paregoric..For eight nights thereafter, Agnes padded the floor with folded blankets on both sides of the boy's bed, insurance against a middle-of-the-night fall. On the eighth morning, she discovered that Barty had returned the blankets to the closet from which she'd gotten them. They were not jammed haphazardly on the shelves-the sure evidence of a child's work-but were folded and stacked as neatly as Agnes herself would have stored them..In adversity lies great opportunity, as Caesar Zedd teaches, and always, of course, there is a bright side even when you aren't able immediately to see it..Sitting forward in his armchair, Obadiah lowered his hands to his knees, and in thoughtful silence, he stared at them..When Angel came in search of Barty, breathless with excitement, he was chatting with Tom Vanadium in the foundation's office above the garages. Years ago, the two apartments had been combined and expanded when the garages under them were doubled in size, providing better living quarters for Tom and working space, as well..Frequently, people told Agnes that she should find an agent for Barty, as he was wonderfully photogenic; modeling and acting careers, they assured her, were his for the asking. Though her son was indeed a fine-looking lad, Agnes knew he wasn't as exceptionally handsome as many perceived him to be. Rather than his looks, what made Barty so appealing, what made him seem extraordinarily good-looking, were other qualities: an unusual gracefulness for a child, such a physical easiness in every movement and posture that it seemed as though some curious personal relationship with time had allowed him twenty years to become a three-year-old; an unfailingly affable temperament and quick smile that possessed his entire face, including his mesmerizing green blue eyes. Perhaps most affecting of all, his remarkable good health was expressed in the lustrous sheen of his thick hair, in the golden-pink glow of his summer-touched skin, in every physical aspect of him, until there were times when he seemed radiant..Tom himself had decided to build a new life here, as well, assisting Agnes with her ever-expanding work. He was not yet sure whether this would include the rededication to his vows and a return to the Roman collar, or whether he would spend the rest of his days in civvies. He was delaying that decision until the Cain case was resolved.. "That's not what they say," the boy replied with a giggle, for his extensive reading had introduced him to words that he and she agreed were not his to use..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window.. "Well, you ought to be," Grace said, taking her pies out to the Suburban that Wally had bought solely for this enterprise.. "September 27, 1962. Barcelona, Spain. A flood killed four hundred forty-five people."..Copyright (c) 1999 by Ursula K. Le Guin. "Dragonfly" first appeared in Legends..Then Agnes said, "Well, it's clear to

me that you won't be able to talk out your life in just one year. Should be a two-year grant." The rocking chair stopped squeaking under her. She heard the sincerity in Vinnie's voice, and as her disbelief dissolved, she was shocked into immobility. She whispered, "My little superstition." At the bedside, Joshua Nunn, friend and physician, looked up as Paul approached. He rose as though under a yoke of iron. In spite of the urgency of his desire, he followed a circuitous route to Victorial's, doubling back on himself twice, watching for surveillance as he drove. If he were being followed, his tail was an invisible man in a ghost car. "We don't believe it does, do we, Daddy? We don't believe blood tells. We believe we're born to hope, under a mantle of mercy, don't we?" He hurried into the bedroom and switched on the nightstand lamp, without concern for whether the light might be seen from the street. Yet, uncaught, the quarter would have dropped to the floor. Junior would have heard it ring off the tiles. Which he hadn't. No scent of gasoline fouled the air. Apparently, the tank had not burst. Sudden immolation seemed unlikely-but only an hour ago so had Joey's untimely death. Reminding himself that fortune favored the persistent and that he must always look for the bright side, Junior began with the city itself and with those whose surnames were Bartholomew. This was a manageable number. "Besides, I still live by my vows as much as possible, though I've had the longest continuing dispensation on record." A smile on that cracked countenance could be touching, but an ironic look now worked less well; it gave Kathleen a chill. "Vanity is a sin I've more easily been able to avoid than some others." Surprised, Tom leaned in his chair to look more directly at the blind boy. On the telephone, Celestina had mentioned only that Barty was a prodigy, which didn't quite explain the aptness of the oak-tree metaphor. Joey rested not under the stern watch of the cypresses, but near a California pepper tree. With its graceful, cascading boughs, it appeared to stand in meditation or in prayer. A pang of regret pierced her, that her boy's precocity should deny him this fine fantasy, as her morose father had denied it to her. "He's real," she asserted. "Oh, my Lord," Chicane groaned as he and Sparky half carried Junior into the bathroom. The next thing he knew, he was at the kitchen sink, turning off the water, which he couldn't remember having turned on. He appeared to have washed the bloody candlestick-it was clean-but he had no recollection of this bit of housekeeping. Agnes dropped to one knee before the boy and held him gently by the shoulders. "Let me look." He rolled his head back and forth on the pillow. "Nope. It's still just something you gotta feel." This galerieur was tall, with silver hair, chiseled features, and the all-knowing, imperious manner of a gynecologist to royalty. He wore a well-tailored gray suit, and his gold Rolex was the very watch that Wroth Griskin might have killed for in his salad days. NOLLY WULFSTAN, private detective, had the teeth of a god and a face so unfortunate that it argued convincingly against the existence of a benign deity. One detail. One only. It was a crucial detail, however, one that she absolutely must confirm before she left St. Mary's, even if she would be required to look at the child once more, this spawn of violence, this killer of her sister. As Lipscomb picked up the freshened baby, Grace said, "That was as effective as any minister's wife could've been with an impossible parishioner-and, oh, do I wish we could sometimes be that pointed." A table candle glowed in an amber glass. To Nolly, in this glimmering light, Kathleen's face was more radiant than the flame. As the bitch began her backswing, Junior grabbed the chair. He didn't try to tear it out of her hands, but used it to shove her as hard as he could. He hesitated, because until the limited explanations he'd made to Celestina in San Francisco, he had never discussed his special perception with anyone except two priest counselors in the seminary. At first he felt uneasy, talking of these matters to strangers-as if he were making a confession to laity who held no authority to provide absolution but as he spoke to this hushed and intense gathering, his doubts fell away, and revelation seemed as natural as talk of the weather. Junior Cain definitely was not a crazed sex-killer, not driven to homicide by weird lusts beyond his control. A single night of sex and death-an indulgence never to be repeated-wouldn't require serious self-examination or a reconsideration of his self-image. Agnes's faith told her that the world was infinitely complex and full of mystery, and in a peculiar way, Barty's talk of infinite possibilities supported her belief and gave her the comfort to sleep. Monday morning, New Year's Day, Agnes carried two suitcases out of the back door, set them on the porch, and blinked in surprise at the sight of Edom's yellow-and-white Ford Country Squire parked in the driveway, in front of the garage. He and Jacob were loading their suitcases into the car. Desperately trying to collect her wits, Agnes gazed out at the deluged graveyard, where the mournful trees and massed monuments were blurred by purling streams ceaselessly spilling down the windshield. Paul didn't realize that Grace had followed them into the living room until she screamed. She started to push past him, heading toward her husband even as Harrison went down. He left by the back door, to avoid the aftermath seeping across the foyer floor. Fog enveloped him, cool and refreshing. "Oh, yes. When he phoned, Reverend Collins told me all about you and Bartholomew. At the front door, when I asked the boy's name, I already knew it and was just setting up this little trick for you." In the refrigerator, he found a stick of butter in a container with clear plastic lid. He took the container to the cutting board beside the sink, to the left of the cooktop, and opened it. In spite of its dazzle and power and comfort, however, the car was not able to lift his spirits as he cruised the hills of the city. Somewhere along these darkly glistening streets, in these houses and high-rises clinging to steep slopes awaiting seismic sundering, the boy was sheltered: half Negro, half white, full doom to Junior Cain. He was confused initially, frowning at the heart monitor and at the IV rack that loomed over him. When his eyes met Celestina's, his gaze clarified, and the smile that he found for her brought as much light into her heart as the diamond ring he had slipped onto her finger so few hours before. So they had cooked up this project, math and mayhem, geometry of limbs and branches, arboreal science and childish stunt, a test of strategy and strength and skill-and of the scary limits of nine-year-old bravado. Convinced that the house was playing tricks on him, Barty went downstairs, step by measured step, to the foyer and the ground-floor hall. Sometimes he thought he walked for Perri, using the steps she had stored up and never taken, giving expression to her unfulfilled yearning to travel. At other times, he thought he walked for the solitude that allowed him to remember their life in fine detail-or to

forget. To find peace--or seek adventure. To gain understanding through contemplation---or to scrub all thought from his mind. To see the world or to be rid of it. Perhaps he hoped that coyotes would stalk him through a bleak twilight or a mountain lion set upon him on a hungry dawn, or a drunk driver run him down..Either Obadiah intuited Agnes's fear or he was motivated by her kindness to reveal his method, after all. "I'm embarrassed to say what you saw wasn't real magician's work. Crude deception. I chose the ace of diamonds exactly because it represents wealth in fortune-telling, so it's a positive card that people respond well to. The ace with your boy's name was prepared beforehand, inserted face up toward the bottom of the deck, so a middle cut wouldn't reveal it." "Couldn't carry these three ladies," he said. "Svelte as they are, they still weigh more than a backpack." What he saw next in the brochure wasn't the link that he sought, but it alarmed him so much that the three-fold pamphlet rattled in his hands. The reception for Celestina's show had been this evening, had ended more than three hours ago.."-and the under girding of the observation platform itself is unstable. The whole thing could have fallen down with us on it!" "it totally destroyed four towns, as if they were hit by atom bombs, tore up parts of six more towns, destroyed fifteen thousand homes. That's just the homes. This thing was black, huge and black and hideous, with continuous lightning snapping through it, and a roar, they said, like a hundred thunderstorms booming all at once." Although Junior felt honor-bound to give Victoria first shot at him, he certainly didn't owe her monogamy. Eventually, when he had shaken off suspicion as finally as he had shaken off Naomi, he would be in the mood for a dessert buffet, romantically speaking, and one éclair would not satisfy..Currently, the rental market was extremely tight. The first day of his search resulted only in the discovery that he was going to have to pay more than he expected even for modest quarters..As quick as a snake strikes, Vanadium was much closer to the bed than he had been when he tossed the coin, at Junior's side now, leaning over the railing. "Naomi was six weeks pregnant." He swore that he would throw away all memory of this incident, as well. In Caesar Zedd's best-selling *How to Deny the Power of the Past*, the author offers a series of techniques for expunging forever all recollection of those events that cause us psychological damage, pain, or even merely embarrassment. Junior went to bed with his precious copy of this book and a snifter of cognac filled almost to the brim..The window gave way an instant before Celestina squeezed off the shot. The man dropped out of sight. She didn't know if she had scored a hit..Although the distance to the ground was only ten feet, she would be risking too much by running blindly off the roof and leaping to clear the fringe of fire at the edge. A landing on the lawn might end well. But if she fell onto the walkway, she might break a leg or her back, depending on the angle of impact..Sudden rain spared her the need to finish the sentence. A few fat drops drew both their faces to the sky, and even as they rose to their feet, this brief light paradiddle of sprinkles gave way to a serious drumming..His apartment, over the large garage, was reached by a set of exterior stairs. The space was divided into two rooms. The first was a combination living room and kitchenette, with a corner dining table seating two. Beyond was a small bedroom with adjoining bath..His happy expectation thickened into dread when he spotted the ambulance at the curb. And in the driveway stood the Buick that belonged to Joshua Nunn, their family doctor..Like all women past puberty and this side of the grave, she was attracted to him. She never told him as much, not in words, but he detected this attraction in the way she looked at him, in the tone that she used when she spoke his name. Throughout three weeks of therapy, Seraphim revealed countless small but significant proofs of her desire..The funeral director and his assistant were the only people, other than Junior, remaining at the grave. They asked if they might lower the casket or if he would rather that they wait until he was gone..Fear of the unknown is a weakness, for it presumes dimensions to life beyond human control. Zedd teaches that nothing is beyond our control, that nature is just a mindlessly grinding machine with no more mysteries in it than we will find in applesauce..The revolving beacons dwindled, casting off blue-and-red pulses of light that shimmered-swooped through the diffusing fog, as if they were disembodied spirits seeking someone to possess..Edom and Jacob flanked the gurney, each gripping one of Barty's feet through the sheet that covered them, escorting him with the same stony determination that you saw on the faces of the Secret Service agents who bracketed the President of the United States..Worse than the tenderness in the bones, the bleeding gums, the headaches, the ugly bruises, worse than the anemia-related weariness and the spells of breathlessness, was the suffering that her battle caused to those whom she loved. More frequently as the days passed, they were unable to conceal their worry and their sorrow. She held their hands when they trembled. She asked them to pray with her when they expressed anger that this should happen to her-of all people, to her, and she wouldn't let them go until the anger was gone. More than once, she pulled sweet Angel into her lap, stroked her hair, and soothed her with talk of all the good times shared in better days. And always Barty, watching over her in his blindness, aware that she would not be dying in all the places where she was, but taking no consolation from the fact that she would continue to exist in other worlds where he could never again be at her side..Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes.
