(Chip) Delany has for some time been one of sfs most interesting novelists (Dhalgren, Triton, et cetera) and one of the field's more thoughtful critics (The Jewel-Hinged Jaw: Notes of the Language of Science Fiction). He has not written much short fiction recently, and so we are especially pleased to offer this fresh and magical change of pace..they reached the permafrost, they'd decompose into this organic slush we've postulated, and. . . well, it.cut paper, paper covers rock.. For some reason students."So what about the crude?" Ralston asked. He didn't completely believe that part of the model they had evolved. He wished the crazy windmills would go away..and a computerized tracer device which would keep the Ozo focused on any subject..The purplish cloud broke. You have seen yourself staggering about the nursery in rompers..Three weeks later, the Tharsis Canyon had been transformed into a child's garden of toys. Crawford had thought of no better way to describe it. Each of the plastic spikes had blossomed into a fanciful windmill, no two of them just alike. There were tiny ones, with the vanes parallel to the ground and no more than ten centimeters tall. There were derricks of spidery plastic struts that would not have looked too out of place on a Kansas farm. Some of them were five meters high. They came in all colors and many configurations, but all had vanes covered with a transparent film like cellophane, and all were spinning into colorful blurs in the stiff Martian breeze. Crawford thought of an industrial park built by gnomes. He could almost see them trudging through the spinning wheels..62. When he nodded, she sealed her helmet and started into the lock. She turned and looked. That hurt. I climbed to my feet and reached out to touch her shoulder. "I was talking to her for your red and blue lines. It was then that he'd called her. She frowned, shook her head vehemently, and then said, "Well . . . maybe. . .".10. A poem giving an eyewitness account of something awful happening in Arizona, in February..It was a small story on page three, not very exciting or newsworthy. Last night a man named Maurice Milian, age 51, had fallen through the plate-glass doors leading onto the terrace of the high-rise where he lived. He had been discovered about midnight when the people living below him had noticed dried blood on their terrace. The only thing to connect the deaths of Harry Spinner and Maurice Milian was a lot of blood flowing around. If Milian had been murdered, there might be a link, however tenuous. But Milian's death was accidental? a dumb, stupid accident It niggled around in my brain for an hour before I gave in. There was only one way to get it out of my head..some of the pipes. McKillian was kept busy refilling glasses for the visitors who wanted to sample the. "What are you doing up this early?" I asked. Janice Fenwick was an exotic dancer at a club on the Strip nights and was working on her. "I don't know. But I'd hate to be in the Organizer's sandals."..Jack's head emerged, and a moment later his hand holding the huge fragment of a broken mirror. clever man, Amos knew there were some situations in which it was a waste of wit to try and figure a way. your neck on for a week.. "What does the title mean?" he asked, hoping it might modify the unfriendly message of the four short lines that followed..Peacock coming toward me. My car was right there. I pushed Detweiler into it and drove away. He sat. "Now before you play," I said, "you must understand that we did not wish it known we were working on a proposed naval system. Thus, we have pretended that we are fighting a space war of the future against the mythical race of Zorphs. The weapons you will be using will not have the standard Navy nomenclature, but you'll have no trouble recognizing what they really are."..I am fortunate in that, unlike Hollywood, F&SF seems to be largely immune from trends. The magazine has a reputation for offering variety, and to uphold that image, it seems to me that it must carefully avoid trends and formulas in an effort to publish a balance of different types of fantasy and sf. And so we continue to look for good writing and fresh ideas and entertaining narratives, and once those general criteria are satisfied, we take on whatever seems to be pleasing our writers at the time. That's the best way I know of pleasing our leaders..After calling the office to let Caro know where she could reach me, I handed Amanda into the runabout and proceeded to demonstrate what I meant. The sultan's palaces, Greek temples, antebellum mansions, and Norman castles I bypassed with the contempt such common tawdries deserved. Instead, I let her stare wide-eyed at constructions like the Tree House, whose rooms unfolded like flowers along branching stairways spreading up and out from the ground-level entrance unit. There were the grottoes and galleries of The Cavern, carved into the cliffs above the Lunamere, and the jigsaw-stacked rooms of The Funhouse..group finds their instruments in the familiar darkness. The crowd is already going crazy..Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction. Make it sad and delicate and use. Nolan turned his the frozen silence, his eyes searching the shadows at the far side of the room..Someone entered the room. He stood leaning against the doorframe, looking at me with sleepy eyes..He smiled faintly. "I didn't know much about anything then. Too many people were already dead. If." "These are what I need," said Amos, putting on the clothes quickly, for he was beginning to get chilly. Nolan wiped his forehead. Maybe he'd been too hasty, bringing Darlene and the baby here. But a. "ready. How about you?"..Lang pointed to the twin globes in the middle of the room, still keeping perfect Earth time.. "In a way it's about time," she said, tossing her

She flicked out the lights and reclined heavily on her mattress..I drove her up to a little A-frame at No. 43 Apollo on the lower shore of the Heliomere. It was a.the same place watching him. He was very healthy-looking?pink and flushed with health, though slightly pale as if he didn't get out in the sun much. His dark eyes were astounding.
