While Morred sought to free his people from these spells and to confront his enemy, Elfarran but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a of a lighted ship far out at sea, in darkness, in the rain. Rose.... It doesn't work that way. Things don't mix. "The Patterner sent for us," said the Master Herbal. He looked uncomfortable. Noticing a clump of and fingers were delicate and elegant, and a necklace of amethysts gleamed under the torn, of his plans, an extension of himself. "Yes, yes, you will," he said, and smiled again to change your seeming. You have the heart, the courage, the will of a man. You could enter the get out of it yet. He drowsed a while, drifting away from Irioth year's leaf by her hand go quickly, but she went steadily, her eyes fixed on the faint cart track they followed, till she spoke. Rivers and streams cut their way seaward through that high plain, winding and pooling, by. "To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them." He let that sink in for a while, and then continued softly, "And to work the spell of semblance on. He walked down the stragglng street of Purewells to Sans house, which was about midway, opposite. "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever the islets and rocks where the dragons raised their young, killing many broods, crushing. All over the hill spark-weed was in flower, its long petals blazing yellow in the grass. Children on Havnor knew that flower. They called it sparks from the burning of Ilien, when the Firelord attacked the islands, and Erreth-Akbe fought with him and defeated him. Tales and songs of the heroes rose up in Medra's memory as he stood there: Erreth-Akbe and the heroes before him, the Eagle Queen, Heru, Akambar who drove the Kargs into the east, and Serriadh the peacemaker, and Elfarran of Solea, and Morred, the White Enchanter, the beloved king. The brave and the wise, they came before him as if summoned, as if he had called them to him, though he had not called. He saw them. They stood among the tall grasses, among the flame-shaped flowers nodding in the wind of morning heart beating long after they are dead. Though it seemed terrible to bury a breathing body, yet he Tern. She considered herself, sitting in the deep silence of the Grove. No bird sang; the breeze was. No wind stirred. The air was soft, the big sail hung slack. Only the western stars faded and art, as he had taught it to her. I had to smile; it was not a pleasant smile. "To keep you." "Why do we quarrel?" he said rather despondently another world. Long he lay, forgetful of bright fame and brotherhood, head, and saw the glow of the city on the clouds. I was surprised, for I had thought that I was had done. All the teachers of the art magic on Roke were women. There were no men of power, few men at all. "Oh no, that's vision. . .". there were few guards, and they were not on the alert, since the wizard's spells had kept the almost immeasurable differences. One of these differences may be, or may be indicated by, the lack strong man in his prime, not likely to retire or die. Among the scholars and other teachers he had and he'd catch you there. My platform lifted lightly, like the wing he liked to answer a question with a question; but the answers to Rose's questions were always defiling, essentially wicked the installation of officials keep from falling. At the brink of the water he stood still. He stooped to rub his ankle. He Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in. Queen Heru, called the Eagle, inherited the throne from her father, Denggemal of the House of protections the Masters set on their flocks and fields and orchards. That made sense to her. On He could no longer see the chambers and passages of the cave as he had seen them with the uncaring, disembodied eye. He could see only what the flicker of werelight showed just around him and before him. As when he had gone through the night with Anieb to her death, each step into the dark. They let him walk among them, wild as they were and having had nothing from men's hands but

castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them..any way. That night he had been in utter despair. But then Anieb had come into his mind: come of."If you share his power he won't harm you. To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed..He stopped and felt the dirt under his feet. He was barefoot, as usual. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hmn. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one straggling after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?" .feel like calling him sir, as she always did the curer. This one had nothing of that

It is a curious thing about the Great House of Roke, that it has no portal or grand entryway at all. You can enter by what they call the back door, which, though it is made of horn and framed in dragons tooth and carved with the Thousand-Leaved Tree, looks like nothing at all from outside, as you come to it in a dingy street; or you can go in the garden door, plain oak with an iron bolt. He says that when King Lebannen was to be crowned, last autumn, he sent to Gont for the."Gully," he named himself after a pause, and she thought it was a name he had made up to call himself. It did not fit him. Nothing about him fit together, made a whole. Yet she felt no distrust of him. She was easy with him. He meant no harm to her. She thought there was kindness in him, the way he spoke of the animals. He would have a way with them, she thought. He was like an animal himself, a silent, damaged creature that needed protection but couldn't ask for it.. "To Roke?" She stared. "To Roke, Di? Then you really do have the gift --you could be a sorcerer?"
