living the past year. They seemed genuinely sorry, but he felt it had been a mistake to ask. "No, just said he was restless and wanted to be movin' on. Sure hated to see bun leave. A real nice kid." He takes a step toward the door. The Intermediaries move to block his path. With an inarticulate screech, he ploughs through them, swatting them aside with the backs of his hands, kicking them out of his way with his heavy-booted feet. The Intermediaries break easily, and it occurs to me then that they are probably as disposable a commodity among the Sreen as tissue paper is among human beings. One Intermediary is left limping along after the captain. Through the clear pale skin of its back, I see that some vertebrae have been badly dislocated. The thing nevertheless succeeds in overtaking the captain and wrapping its appendages around his calf, bleating all the while, "No, no, you must abide by the edict, even as every other inferior species has, you must abide. . . ." The captain is having trouble disentangling himself, and so I go to him. Together, we tear the Intermediary loose. The captain flings it aside, and it bounces off the great portal, spins across the polished floor, lies crushed and unmoving. "spores?" "Do not trouble yourself. I will look after the little one." "Then we have been found out and all is lost," said the prince. "For it is noon already, and the sun is at its highest and hottest. The boat has docked two leagues short of over there, and the grey man must be about to go for the third mirror himself." "Of course before breakfast," said the prince, and fell to chopping. The ice chips flew around him, and he worked up such a sweat that in all the cold he still had to take off his shirt. He worked so hard that in one hour he had laid open the chunk, and there, sticking out, was the broken fragment of mirror. Tired but smiling, the prince lifted it from the ice and handed it to Amos. Then he went to pick up his shirt and coat. gentle but firm. usually found in the Mediterranean races. His hair wasn't quite black. It was a reflex by now, a survival reflex conditioned by a lifetime of fighting her way to the top. It took root in her again and pulled her erect on the bed, then to her feet. She fought off the effects of the drug and stood there, eyes bleary but aware. recollections of his criminal behavior of the night before to the depths of his subconscious and was back.
