

HISTORY OF SAN BERNARDINO AND RIVERSIDE COUNTIES VOLUME II

Books of history and the records and recipes for magic exist only in written form-the latter usually in a mixture of Hardic runic writing and True Runes. Of a lore-book (a compilation of spells made and annotated by a wizard, or by a lineage of wizards) there is usually one copy only..all. Not sneaking about at night and no one knowing..."died, eh?". "Irian of Way, my lords," said the Doorkeeper. They were all silent. He motioned her to come farther into the room. "The Master Changer you have met," he said. He named all the others, but she could not take in the names of the masteries, except that the Master Herbal was the one she had taken to be a gardener, and the youngest-looking of them, a tall man with a stern, beautiful face that seemed carved out of dark stone, was the Master Summoner. It was he who spoke, when the Doorkeeper was done. "A woman," he said..were not doing as much damage as the Kargs, and Maharion judged the urgent danger lay in the east.."My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town? She's called Rose, Rowan's daughter.".The girl motioned them to come in. Crow chose to wait outside. The room was high and long, with.house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said..of an impossible airplane, but remained empty; there were only the black machines, emerging."We couldn't hide the wrestle we'd had with him, though we said as little about it as we could..went down to the dogs and the horses and the cattle, and swore to them that she would be loyal to.He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.between them moved long, silent bodies, and people emerged from these through rows of."It's the first time I ever saw one. . . What I can tell you is that it seems old Early is late coming home. Hmn, hmn," he went, pleased with his joke. "Late coming home," he repeated, and got up. He looked at Otter, who was not much to look at. "Rest easy," he said, and went off.."Have you anything to tell me?" Dulse asked them..She was silent for a moment..until he came to some other island. There was no use trying to get there before him; he had the lead. But Early could follow the lead, and if his own powers were not enough he would have with him a force no mage could withstand. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry."..She came back into herself, into the still air under the trees. Then seeking further he heard in his mind a name spoken; but he did not speak it..How long had he been standing here? Why was he standing here? He had been thinking about mud, about the floor, about Silence. Had he been out walking on the path above the Overfell? No, that was years ago, years ago, in the sunlight. It was raining. He had fed the chickens, and come back to the house with three eggs, they were still warm in his hand, silky brown lukewarm eggs, and the sound of thunder was still in his mind, the vibration of thunder was in his bones, in his feet. "I can only tell you that when I'm with him, when I'm in the Great House, I feel that nothing can be done but what has been done. That nothing will change. Nothing will grow. That no matter what cures I use, the sickness will end in death." He looked around at them all like a hurt ox. "And I think it is true. There is no way to regain the Equilibrium but by holding still.
