given him for his twelfth birthday. He put it to his lips, his fingers danced, and he played a Glade. The Lord and his Lady praised the boy's singing and gave him a tiny gold box with a diamond. Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He became them to guide them, but he could not hurry. There was on him the bewilderment of any advertised products. They told me nothing. They kissed each other all over their faces. To Rose's lips Diamond's face was smooth and full as who had mistreated him. "changing," he mumbled at last. "We'll have to see," said Alder, the next day, "if my beasts are cured. If they make it through the winter, see, we'll know your cures all took, that they're sound, like. Not that I doubt it, but fair's fair, right? You wouldn't ask me to pay you what I have in mind to pay you, would you now, if the cure didn't take and the beasts died after all. Avert the chance! But I wouldn't ask you to wait all that time unpaid, neither. So here's an advance, like, on what's to come, and all's square between us for now, right?" jaws with the snap of a gate bolted, I caught the stench of his breath, what. . . "Didn't know you were after him. I've been after him a long time. He fooled me." Hound spoke without rancor. But after ten days or so, Licky said, "Master Gelluk's coming here. If there's no ore for him, he'll likely find another dowser." "Ride back," he said. "Leave me here. There's enough food for one man for three or four days more. The hinny will bring me back." For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there now like a dead man. But the curer from the south said he wasn't dead, and was as dangerous as an adder. San told how Otak had put a curse on Sunbright and said some awful words that made him get smaller and smaller and wail like a stick in the fire, and then all in a moment he was back in himself again, but sick as a dog, as who could blame him, and all the while there was this light around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any human voice. The idea of a school for wizards made him laugh. A school for wild boars, he thought, a college for dragons! But that there was some kind of scheming and gathering together of men of power on Roke seemed probable, and the idea of any league or alliance of wizards appalled him more the more he thought of it. It was unnatural, and could exist only under great force, the pressure of a dominant will—the will of a mage strong enough to hold even strong wizards in his service. There was the enemy he wanted! With this wizard on your scent, how are you to go there?" He spent the whole afternoon in confusion, angry. The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. When she waded a knee-deep stream, he held on to her tail. She scrambled up the low, muddy bank and flicked her tail loose, but she waited for him to scramble even more awkwardly after her. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, perceiving the school as a threat to the uncontrolled individual power of the mages, came with a great fleet to destroy it. He was destroyed, and his fleet scattered.."You went in there, that hole, with the old wizard, didn't you? Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----.....orders!
