The landlord had felt sorry for him,.Well, Local 209 pulled out, just like the Company did. We knew there'd be no more jobs on the Plain for the Jikes of us. We spread out all over. North and south and east and west. I went south. Right now, I've got a flunky's job in a granary. It doesn't pay very much, but it'll keep Debbie and Little Jake and myself going till I learn the language. Once I learn the language, I'll get back in Construction. There's a big project about to begin just east of here. From what I gather, it's a tomb of some kind, and it's supposed to set a new trend. Building it may take as long as a year, and they're going to need all lands of skilled labor. I figure that as a bricklayer I can get on easy.. "We like it here. It's a good place to raise a family, not like Earth the last time I was there. And it couldn't be much better now, right after another war. And we can't leave, even if we wanted to." Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in The Issue at Hand. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. And so on..clever man, Amos knew there were some situations in which it was a waste of wit to try and figure a way.Amanda said, "I think this will be fine. The words are simple commands given."It was one of the fruit," she said, gasping for breath and coughing. "I was heating it in a beaker, turned away, and it blew. I guess it sort of stunned me. The next thing I knew, Marty was carrying me out here. Hey, I have to get back in there! There's another one . . . it could be dangerous, and the damage, I have to check on that?" She struggled to get up but Lang held her down..with one hundred terminals running on two Megalo 861's for starters. Eventually they may order a dozen.There was also a carbon copy of the story he'd just finished. The return address on the first page was a box number at the Hollywood post office. The title of the story was "Deathsong." I wished I'd had time to read it..I looked unhappily at the couple standing in the outer office with my secretary. What a time for clients to walk in.
