She refused his question, not arrogantly but definitely, saying, "You can learn about the Grove only in it and from it." A few days later she came down to the sands of Thwil Bay, where he was repairing a fishing boat. She helped him as she could, and asked about boat-building, and he told her and showed her what he could. It was a peaceful afternoon, but after it she went off in her abrupt way. All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic..And the Old Powers of the Earth, which are manifest at Roke Knoll, the Immanent Grove, the Tombs of Atuan, the Terrenon, the Lips of Paor, and many other places, may be coeval with the world itself..underground lake, which reflected the vaults of the rocks. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin..At last she moved, and kissed his cheek, and whispered, "I missed you, I missed you, I missed you..Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. Gelluk held up the pouch, years old, "Why did you have me if you didn't want me?" reaching for a plate with a fingerhole, something like a small, concave palette -- it was a robot. I. Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." "Why?" She was surprised. None of the mages answered him. In the silence, the men with him murmured, and a voice among them. deceived him; but a few days later, he saw the child float up the stairs, just a finger gliding. "There's people all over these parts, and maybe beyond, who think, as you said, that nobody can be wise alone. So these people try to hold to each other. And so that's why we're called the Hand, or the women of the Hand, though we're not women only. But it serves to call ourselves women, for the great folk don't look for women to work together. Or to have thoughts about such things as rule or misrule. Or to have any powers." "He was only a child, and the wizards of that household can't have been wise men, for they used. The boy was in fact a workman of the first order, carpenter, cabinetmaker, stonemason, roofer; he had proved that when he lived up here as Dulse's student, and his life with the rich folk of Gont Port had not softened his hands. He brought the boards from Sixth's mill in Re Albi, driving Gammer's ox-team; he laid the floor and polished it the next day, while the old wizard was up at Bog Lake gathering simples. When Dulse came home there it was, shining like a dark lake itself. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so smooth it seemed soft to the bare sole. "Satin," he said. "You didn't do all that in one day without a spell or two. A village hut with a palace floor. Well, it'll be a sight, come winter, to see the fire shine in that! Or do I have to get me a carpet now? A fleecyfell, on a golden warp?" "Tinaral," said Tern. "I knew him." sun was in the windows, there was a knock at her open door. Outside was the man she had thought harshly, and Diamond stiffened up a bit. "But you can't undo this!" he said aloud. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth.."If a word can heal, a word can wound," the witch said. They overran the towns along the west shore of Ilien, taking what they wanted, and did the same on Vissti and Kamery, looting what they could and burning what they left. Then the great fleet turned west, heading for the one harbor of Roke Island, the Bay of Thwil. Early knew of the harbor from the maps in Havnor, and knew there was a high hill above it. As they came nearer, he took dragon form and soared up high above his ships, leading them, gazing into the west for the sight of that hill..fate had shaken him.
