Since the name of the person is the person, in the most literal and absolute sense, anyone who knows it has real power, power of life and death, over the person. He had learned there in two or three years. A wizard, as Halkel defined the term, was a man who received his staff from a teacher, himself a wizard, who had taken special responsibility for his training. It was usually the Archmage who gave a student his staff and made him wizard. The name and office of archmage were invented by Halkel, and the Archmage of Roke was a tenth Master, never counted among the Nine. A vital ethical and intellectual force, the archmage also exerted considerable political power. On the whole this power was used benevolently. Maintaining Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages sent out sorcerers and wizards trained to understand the ethical practice of magic and to protect communities from drought, plague, invaders, dragons, and the unscrupulous use of their art.. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute.. sleep all his nights in Woodedge. He prayed to it. It's scarcely worth burning for so little. If you are to help me, and if I am to teach you, you must try a little harder. I think you know how." He smiled at Otter. "Don't you?" Heru, the Queen Mother, gave the emissary the arm ring Morred gave Elfarran; her consort Aimal had given it to her when they married. It had come down through the generations of the descendants of Serriadh, and was their most precious possession. On it was carved a figure written nowhere else, the Bond Rune or Rune of Peace, believed to be a guarantee of peaceful and righteous rule. "Let the Kargish king wear Morred's ring," the Queen Mother said. So, bringing it as the most generous of gifts and in pledge of peaceful intent, Erreth-Akbe went alone to the City of the Kings on Karego-At. Gont Port lies at the inner end of a long narrow bay between steep shores. Its entrance from the sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut. The people of Osskil, Rogma, and Borth are lighter-skinned than others in the Archipelago, and often have brown or even blond hair and light eyes; the men are often bearded. Their language and some of their beliefs are closer to Kargish than to Hardic.
