For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper.."It always seemed to me they're sort of alike," he said, "magic and music. Spells and tunes. The Knoll rose up full in the western sun on their right. Behind them the School sprawled grey and many-roofed on its lower hill. The grove of trees towered before them now. She saw oak and willow, chestnut and ash, and tall evergreens. From the dense, sun-shot darkness of the trees a stream ran out, green-banked, with many brown trodden places where cattle and sheep went down to drink or to cross over. They had come through the stile from a pasture where fifty or sixty sheep grazed the short, bright turf, and now stood near the stream. HAVNOR.Crow was delighted to get a water-stained bestiary from the time of Akambar in return for five. That is, human beings chose to have possessions and dragons chose not to. But, as there are ascetics among humans, some dragons are greedy for shining things, gold, jewels; one was Yevaud, who sometimes came among people in human form, and who made the rich Isle of Pendor into a dragon nursery, until driven back into the west by Ged. But the marauding dragons of the Lay and the songs seem to have been moved not so much by greed as by anger, a sense of having been cheated, betrayed..for he could not make the werelight shine in that room. When he turned off the village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at him. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do..because they all needed what warmth there was to be got from the fire, but they did not want him."A mage called Highdrake told me that when Ath stayed in Pendor, he told a wizard there that he'd left the Book of Names with a woman in the Ninety Isles for safekeeping."..None of the mages answered him. But with that horse, I thought you.If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? Golden all but floated up the stairs himself, borne on such visions..give it to that child, the breath, the name. You can't think of it. You let it come to you. It was a sleepy southern island with a pretty old port town, Telio, built of rosy sandstone, and fields and orchards that should have been fertile. But the lords of Wathort had ruled it for a century, taxing and slave taking and wearing the land and people down. The sunny streets of Telio were sad and dirty. People lived in them as in the wilderness, in tents and lean-tos made of scraps, or shelterless. "Oh, this won't do," Crow said, disgusted, avoiding a pile of human excrement. They stood face to face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand and met the witch's hand. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth..body. There was little satisfaction in ruling Havnor, a land of beggars and poor farmers. What was the good of possessing the Throne of Maharion if nobody sat in it but a drunken cripple? What glory was there in the palaces of the city when nobody lived in them but crawling slaves? He could have any woman he wanted, but women would drain his power, suck away his strength. He wanted no woman near him. He craved an enemy: an opponent worth destroying.."That would be only what the women of the Hand call it, keeping its meaning from the wizards and the pirates.
