we do. Wouldn't you think so?" In addition, endangered species could have their chances of survival increased if both males and females could be cloned over and over. When the number of individuals was sufficiently increased, sexual reproduction could be allowed to take over. "You're stuck, Mandy," Selene said. "There's no way out". And Brace: "Aw, okay. All cut's in free." And once more they have not found you; your secret place went on as if I hadn't noticed. "I'm inquiring about a man named Andrew Detweiler." The terror trickled, recognized that the room was chilling. loud sob reached our ears. Another. We turned away and slowly descended the successive stages to the. At least a thousand hired kids are there setting up chairs in the arena this morning, but it's still hard to feel I'm not alone. The dome is that big. Voices get lost here. Even thoughts echo. "We sure did, and we were lucky to have Marty Ralston along. He kept telling us the fruits in the graveyard were edible by humans. Fats, starches, proteins; all identical to the ones we brought along. The clue was in the orrery, of course." That stopped me for a minute, but I'm not sure why. I must've had a mental picture of Charles Laughton riding those bells or Igor stealing that brain from the laboratory. "He's good-looking and he's a hunchback?" Billy Belay put his head down on the table and began to cry. his officers rushed up around him, and managed not to stammer. "Are you well? Is there anything we can. mouth issued a gentle snore. When the ship finally did show up, it was no longer a NASA ship. It was sponsored by the fledgling International Space Agency. Its crew came from all over Earth. Its drive was new, too, and a lot better than the old one. As usual, war had given research a kick in the pants. Its mission was to take up the Martian exploration where the first expedition had left off and, incidentally, to recover the remains of the twenty Americans for return to Earth. terms of pottery shards and atom bombs." "How long?" In short, a sexually reproducing species evolves much more quickly than a cloning species, and such difficult-to-evolve specializations as intelligence are not likely to arise in the entire lifetime of a habitable planet, without sexual reproduction. Suppose, then, die nucleus of a somatic cell were surrounded with the cytoplasm of an egg cell. Would the genetic equipment in the nucleus unblock, and would the

egg cell then proceed to divide and redivide? Would it go on to form an individual with the genetic equipment of the original somatic cell and, therefore, of the person from whom the somatic cell was taken? If so, the new organism would be a clone of the person who donated the somatic cell..edited by Edward Ferman.While Caro typed in the blanks, I wondered at the difference between Amanda Gall's attitude toward Selene and that portrayed by the columnists. They made it sound like kinky fun. Over the past several years there had been a rush to the analysts' couches by people hoping to find another personality or two living inside their heads with them. I even knew perfectly normal people so taken with the idea that they resorted to aping the signs of dissociation..Hollis, Moog Indigo's color operator, is seated behind her.
