And Ard's long arms had stretched out and upward in the invocation of what Dulse would know later was a great spell of Transforming. Ard spoke the words of the spell awry, as teachers of wizardry must do lest the spell operate. Dulse knew the trick of hearing them aright and remembering them. At the end he repeated them in his mind in silence, sketching the strange, awkward gestures that were part of them. All at once his hand stopped. "We do not teach women here," said the Windkey. "You know that." "War?" "It's not my word, it's Waris's. But they've refused. They want the Rule of Roke to separate men. summer forest with the Patterner. That had come to an end last night. She gazed off at the sheep on the hill, her face troubled. "Some of them are really bad and stupid," she said in a low voice. "They get into the School because they're rich. It may be that Segoy is or was one of the Old Powers of the Earth. It may be that Segoy is a name for the Earth itself. Some think all dragons, or certain dragons, or certain people, are manifestations of Segoy. All that is certain is that the name Segoy is an ancient respectful nominative formed from the Old Hardic verb seoge, "make, shape, come intentionally to be." From the same root comes the noun esege, "creative force, breath, poetry." towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for life. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse knew why he had never sought reconciliation with his father. all the workers at Adapt, knew better -- that we were decidedly different. He had thought he was on the way to the village, but had taken a wrong turning somewhere. Tall reeds rose up close beside the paths, so that if a light shone anywhere he could not see it. Water chuckled softly somewhere near his feet. He had used up his shoes walking round Andanden on the cruel roads of black lava. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. He found the queer little valley called Trimmer's Dell, the true name of which in the language of the Making was Yaved, as Ogion's true name was Aihal. He walked about there all one day, as if seeking something. In the evening he lay down on the ground and talked to it. "You should have told me, I could have said goodbye," he said. He wept once, and his tears fell on the dry dirt among the grass-stems and made little spots of mud, little sticky spots..The spasm passed; Heleth answered, "Inside it. There at Yaved." He pointed to the knotted hills below them. "I'll go in, try to keep things from sliding around, eh? I'll find out when I'm doing it, no doubt. I think you should be getting back to yourself.
