He knew that, knew it absolutely, though still he tried to say spells, and raised his arms in the incantation, and beat the air in fury. Kings, lords, and Islemen charged with defending the islands of the Archipelago came to rely increasingly on wizards to fend off dragons and Kargish fleets. The old man waded through the stream barefoot, holding his shoes in one hand and his tall staff in the other, snarling when he missed his footing on the rocks. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. To leave so, without a word, on his nameday night, to go off with the witch-girl, leaving all the honest work undone, to be a vagrant musician, a harper twanging and singing and grinning for pennies -- there was nothing but shame and pain and anger in it for Golden. So he had his tragedy.. "Tell us who you are," the white-haired man said, courteously enough, but without greeting or welcome. "Tell us how you came here.". When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, Highdrake of Pendor had taught him some of the runes of power. That was known lore. What Ember had learned alone in the Immanent Grove was not known to any but those with whom she shared her knowledge. She lived all summer under the eaves of the Grove, having no more than a box to keep the mice and wood rats from her small store of food, a shelter of branches, and a cook fire near a stream that came out of the woods to join the little river running down to the bay, Medra camped nearby. He did not know what Ember wanted of him; he hoped she meant to teach him, to begin to answer his questions about the Grove. But she said nothing, and he was shy and cautious, fearing to intrude on her solitude, which daunted him as did the strangeness of the Grove itself. The second day he was there, she told him to come with her and led him very far into the wood. They walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves did not stir. The aisles of the trees were endlessly different and all the same. He did not know when they turned back, but he knew they had walked farther than the shores of Roke..out, past the Armed Cliffs! Good luck to you." And he turned and ran back up the street, a tall,. It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep..payment for the safe delivery of a son to Golden's head forester. Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves

to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..for him to promise them..Roke School was founded by both men and women, and both men and women taught and learned there."Of all the innocence," Gift said, hissing the word. For the first time, Medra was given a vision of magic not as a set of strange gifts and reasonless acts, but as an art and a craft, which could be known truly with long study and used rightly after long practice, though even then it would never lose its strangeness. Highdrake's mastery of spells and sorcery was not much greater than his pupil's, but he had clear in his mind the idea of something very much greater, the wholeness of knowledge. And that made him a mage..drew back a little. She drew back. They sat back on their ankles.."You could go to Roke," he said, his eyes bright with excitement, mischief, daring. They had no patience with him either, always at him to hurry up and get done with the job; nor with themselves, their life. When they talked to each other it was always about what they were going to do in town, in Oraby, when they got paid off. He heard a good deal about the whores in Oraby, Daisy and Goldie and the one they called the Burning Bush. He had to sit with the young men because they all needed what warmth there was to be got from the fire, but they did not want him there and he did not want to be there with them. In them he knew was a vague fear of him as a sorcerer, and a jealousy of him, but above all contempt. He was old, other, not one of them. Fear and jealousy he knew and shrank from, and contempt he remembered. He was glad he was not one of them, that they did not want to talk to him. He was afraid of doing wrong to them. "You're in such a hurry. But Otter's distress was too great and his training too slight for him to. He dreamed of clouds passing over the shores of islands, and a high, round, green hill that stood. Then they were all silent. The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. Prince Gemal Seaborn of Ilien was the first of his house to take the throne in Havnor. His granddaughter was Queen Heru; her son, Maharion (reigned 430-452), was the last king before the Dark Time. Medra woke in pain, in darkness. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (55 of 111) [2/5/2004 12:33:31 AM]. "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king who brought us hope. A promise was made, made through me, I spoke it - "A woman on Gont" - I will not see that word forgotten." So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists. After a while he said, "I could chase an etymology on the brink of doom ... But I think, Azver, that that's where we are. We won't defeat him." The Doorkeeper looked at her for what seemed a long time. Then it is your name," he said. "But maybe not all your name. I think you have another."
