That is exactly the question asked me a year ago today by a wizard so great and so old and so terrible that you and I need never worry about him. I answered him, 'I am Prince because my father is King, and everyone knows I should be.' Then the wizard asked me, 'Why should you be Prince and not one of a dozen others? Are you fit to rule, can you judge fairly, can you resist temptation?' I had no idea what he meant, and again I answered, 'I am Prince because my father is King.' The wizard took a mirror and held it before me. 'What do you see?' he asked. 'I see myself, just as I should, the Prince of the Far Rainbow,' said I. Then the wizard grew furious and struck the mirror into three pieces and cried, 'Not until you look into this mirror whole again will you be Prince of the Far Rainbow, for a woman worthy of a prince is trapped behind the glass, and not till she is free can you rule in your own land.' There was an explosion, and when I woke up, I was without my crown, lying dressed as you see me now in a green meadow. In my pocket was a map that told me where all the pieces were hidden. By now, I am sure, the Naval Support Bid Team has descended upon Programming Services to begin costing out the proposal for a production version of Zorphwar. They are talking about a system with one hundred terminals running on two Megalo 861's for starters. Eventually they may order a dozen 861's. Everyone here in Headquarters is too excited about the prospect of selling that kind of hardware to worry about why the program was written in the first place.. Finally, before you make any snap judgments, I ask that you log in on your console and try Zorphwar. Good hunting!. would be looking for. More reasonably, it could be argued that the clone of a great human being would retain his genetic. Unfortunately, launching twelve thousand torpedoes simultaneously put a serious overload on our computer system. Zorphwar runs at A-1 priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths through the galaxy of those torpedoes, to determine their impact points, and to calculate the radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I ?aspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than tea doomsday torpedoes in one attack. Thus, this particular problem on never occur again.. Excerpts from myopic early SF or Utopian novels. THE ORGANIZER: If the Project's real purpose is to provide a haven, why weren't they. Saturday morning, the third day since Miss Herndon died, I had a talk with Lorraine and Johnny. If Detweiler wanted to play cards or something that night, I wanted them to agree and suggest I be a fourth. If he didn't bring it up, I would, but I had a feeling he would want his usual alibi this time.. Nolan had shrugged, too, and dismissed her from his mind. But that night as he lay on his bed.. "Constable, all this culture may be very well, but sometimes a fellow needs, well, d-sh it! What dd ordinary people nowadays do foe amusement?" "I have a plan," said Amos, who could think very quickly when he had to. "Simply do as I say.".. of the ultimate in computer games . . . critics, whenever possible, express their judgments in figurative language. Wit is a form of condensation. At long last the Mediator has got both sides to agree to another meeting. It's to take place tomorrow morning. I think the Organizer should back down a little? settle, say, for a ten-percent raise and forget the fringe benefits. True, it's only been two weeks since we walked off the job, but Debbie and I have already run up a sizable food bill at the Mom & Pop store around the corner, what's left of our savings will just about cover the rent, and I'm smoking Bugler instead of Winstons. And any day now, as Debbie keeps reminding me, we're going to have another mouth to feed. Feeding it doesn't worry me half so much as paying the hospital and doctor bills.. "All right. Don't wake the others." O, give me a clone. Ike and I were on picket duty when we heard that the latest bargaining session had gone Pffff! Eli was on too, and a bricklayer named Dan. It was clear by this time that the Organizer had no intention of settling for a smaller package, and it was equally as clear that the Company had no intention of coming through with a bigger one..
